Título: 15-UDE-2025 Framework agreement for bus transport to osloskolen

Descripción: PURPOSE AND SCOPE The Oslo School has a regular and varied need for bus transport for educational related activities, excursions, events and school camps. Schools procure bus services every year for both small and large outings, and there is, therefore, a need for a framework agreement that ensures predictability, quality and cost efficiency in such transport services. The Education Agency would like to enter into a framework agreement with up to three tenderers, provided that there are a sufficient number of qualified and competitive tenders. The aim of the framework agreement is to cover the Oslo School's total need for passenger transport by bus. The agreement shall include both short and longer driving assignments - from simple roundtrip transports in the Oslo area (e.g. excursions to museums, sports events or co-operating schools) to transport over longer distances, such as school camps or events outside of Oslo. The agreement also includes transport for the implementation of the Summer School in Oslo, which is arranged every year during the summer holidays. The summer school already has a contract for bus transport for summer 2026 and will therefore be included in this agreement from 2027. The contracting authority has a sufficient number of adult persons per bus to check and ensure that the drivers' regulations are followed by passengers. Responsible attendant shall be able to use the school/agency's crisis and stand-by plan for accidents. The contract does not include: · Long term and scheduled transport assignments, e.g. transport for schools in replacement premises over one or several school years. · Transport in connection with 17 May Transport assignments in connection with implementation of Sommerskolen have an annual estimated value of NOK 1.5 million. Mini-competitions will be held among the tenderers on the contract for these assignments. For other assignments with an estimated value of more than NOK 500,000 excluding VAT, the contracting authority can choose to hold mini-competitions. All other assignments have an annual estimated value of NOK 9 million. Orders under this part of the framework agreement will be placed in accordance with the fossefall principle. The contracting authority draws attention to the fact that the estimates are based on previous consumption. The estimate is only a guideline and is without obligation for the Contracting Authority. This framework agreement is valid for up to a maximum value of NOK 80 million.

Criterio: Gestión de la cadena de suministro

Descripción del criterio de selección: Tenderers shall be suitable for complying with contractual requirements for due diligence assessments for responsible businesses (see point 4 of the contract). This means that the Tenderer has implemented measures and systems that are used in the Tenderer's work to safeguard basic human rights and decent working conditions, as well as prevent environmental degradation and corruption. Documentation requirements: A description of the tenderer's systems for working with due diligence assessments in accordance with the UN's guiding principles for business and human rights (UNGP) and OECD's guidelines for multinational companies. The documentation shall include:
* Formal policies/policies that cover an obligation to comply with the requirements of responsible businesses. * Formal policy/guidelines for accountability for sub-suppliers/the supplier chain, (Supplier Code of Conduct). [This shall only be delivered if sub-suppliers are used.] * Descriptions of the tenderer's processes and routines for how the company works with due diligence assessments. * Description of how the tenderer will obtain and maintain an overview of the country of origin and production locations for the products the tenderer offers. (This shall only be delivered if the procurement includes goods.)

Criterio: Referencias sobre entregas específicas

Descripción del criterio de selección: Tenderers shall have good experience from equivalent assignments. Equivalent assignments means transport services for public or private entities of varying volumes and complexity, with an annual contract value of minimum NOK 3 million. Documentation requirements: Short description of the most important deliveries in the last three years, including information on the contract's value, date of delivery as well as the name of the contracting authority and a description of the assignment's content.

Criterio: Medidas para garantizar la calidad

Descripción del criterio de selección: Tenderers shall have a valid tour vehicle licence issued by the Norwegian Public Roads Administration in accordance with the Professional Transport Act. Documentation requirements: Copy of a valid touring vehicle licence.

Descripción: The award criteria "climate and environmental considerations" with 30% weighting has been replaced with a minimum requirement for the use of zero emission vehicles. All vehicles that shall be used in this contract shall either be zero emission vehicles (battery electric or hydrogen), or biogas vehicles that at least fulfil Euro class 6/VI. The contracting authority believes this gives a clearly better climate and environmental gain than a traditional weighting of the environment, where tenderers with lower environmental performance could still reach a lower price.
