Título: Dynamic Purchasing System for Transport Container systems, PREFAB system, Design, Service and Repair/Maintenance

Descripción: DALO is looking to set up a Dynamic Purchasing System (hereafter DPS) for Container systems, PREFABS and service (hereafter CS-PREFAB). The DPS is a purchasing method, where an economic operator can apply for prequalification in the DPS. The DPS is a purchasing method, where an economic operator can apply for prequalification in the DPS. Approved economic operators will be participants in the DPS. When an economic operator has been prequalified as participant in the DPS, the economic operator (now participant in the DPS) can submit offers on published tenders in the DPS. There is no limit on the number of economic operators that may join the DPS. New economic operators can also apply to join the DPS at any point during the lifetime of the DPS. Economic operators should note however, that admission into the DPS is not a guarantee of being awarded any contracts, and there is also no guarantee of volume or value of tenders in the DPS. The DPS is divided into eight categories where it shall be possible to buy items and accessories. Common characteristics for the container systems is that they are all corresponding to ISO container standards and have a variety of sizes from 10FT to 40FT with 20FT being the standard size. They are intended for common ISO handling tools and are to be transported via road, sea, air and rail - both nationally and internationally with all kind of goods. All of the Container Systems in this DPS is expected to be or to be based on standard commercial products (COTS). Category 1 – Standard Transport Container Systems - Used. These Container Systems will be used by the Danish Defence for transport and storage of goods or for donation purposes. The Container Systems in this category are used transport containers with a random color and BIC code. Can upon DALO's request be upgraded with optional price list items. Delivery time: Short. For immediate transportation demands and fast deployment. Category 2 – Standard Transport Container Systems - New. These Container Systems will be used by the Danish Defence for transport and storage of goods. The Container Systems in this section are new transport containers with a prespecified color and marked with DALO BIC code. Can upon DALO's request be upgraded with optional price list items. Delivery time: Short to Medium. For immediate transportation demands and fast deployment. Category 3 - Special Transport

Container Systems - New. These Container Systems will be used of the Danish Defence for transport and storage of goods that need to be lashed in a certain way and therefore requires a flexible anchoring/lashing system that is beyond what a standard transport container can accommodate. The Container Systems in this section are new transport containers modified with extra anchoring points, a prespecified color and marked with DALO BIC code. Can upon DALO's request be upgraded with optional price list items. Delivery time: Medium to Long.

Category 4 - Standard PREFAB Systems. These PREFAB Systems are for example used for office and administration, living, living space, storage, depot, dining rooms and infirmary facilities. The PREFAB systems will be in different types and in it must help to provide satisfactory living conditions and support operational, logistical and manage-rial activities over a longer period of time. The PREFAB should have the similar size to an 20' ISO container with the possible of connecting more than one together. It should further be possible to assemble the PREFAB on site, meaning that it is possible to stack and transport without exceeding the height of an 20' ISO container.

Category 5 - Special PREFAB Systems - DEMA (Danish Emergency Management Agency) will use this PREFAB for office, accommodations, kitchen, morgue, medical facility etc. DEMA is using the PREFAB primary for fast, easy and flexible solutions for operations in distressed areas around the world. The PREFAB is based on light-weight materials and assembled with simple tools, meaning that you can set it up with only a small group of people in a couple of hours and with no need of heavy lifting equipment.

Category 6 - Service, repair/maintenance of new and old containers - Existing DALO Container Fleet This category will be used for Service, repair and maintenance of new and old containers in the fleet of Container Systems to secure that operational/functional, meets the statutory demands and are safe to use. This might include:

- Repair and maintenance services
- Man hours: Design, Documentation, Manufacturing, Service and Maintenance
- Electrical services
- Heating-system services
- Plumbing services
- Ventilation services
- CSC recertification
- Spareparts

Category 7 – New Container Systems design or Modification for Existing Container Fleet This category will be used for complete new design, upgrade or modification of new and old containers.

- Man hours: Design, Documentation, Manufacturing, Service and Maintenance
- Components and semi-finished product
- Installation services (except software)
- Construction, engineering and inspection services

Category 8 - Accessory This category includes all that is not system specific to the CS-PREFAB. It can be third party product that is not cover by the above 7 categories. Examples of accessories to the CS-PREFAB are: Furniture (incl. office furniture), furnishings, domestic appliances (excl. lighting). Electrical components and installations Emergency and security equipment Surface treatment, paint and colour Construction materials and associated items Site preparation work Multi-functional buildings construction work Transport services (excl. Waste transport) Education and training services

5.1.9. Criterios de selección

Criterio:

Tipo: Solvencia económica y financiera

Nombre: Financial ratio

Descripción del criterio de selección: Financial ratio Description (English): Concerning the financial ratios specified in the relevant notice, the procurement documents or the ESPD, the economic operator declares that the actual values for the required ratios are as follows: The equity ratio (calculated by dividing the tenderer's equity with the tenderer's total assets (equity /total assets x 100) at the end of the last 3 financial years available. The tenderer must have an equity ratio of at least 10 per cent in each of the last 3 financial years available. The tenderer and other entities, if any, must state the 1) equity, 2) total assets and 3) equity ratio as key figures in the ESPD. The equity and total assets must be stated in EUR. If the tenderer is composed of a group of entities (e.g. consortium), including temporary joint ventures, the equity ratio will be calculated by dividing the sum of the equities of all participants with the sum of the total assets of all participants (the sum of equities/the sum of total assets x 100) in each of the last 3 financial years available. If the tenderer relies on the economic and financial standing of an entity or entities (e.g. a parent or sister company or a subcontractor), the equity ratio will be calculated by dividing the sum of the tenderer's and the entity's/entities' equity with the sum of the tenderer's and the entity's/entities' total assets (the sum of equities/the sum of total assets x 100) in each of the last 3 financial years available. Upon request from DALO, the tenderer must submit the following documentation: Annual reports or excerpts thereof or other documentation stating the tenderer's equity and total assets at the end of the last 3 financial years available if publication of annual reports is required under the law of the country in which the tenderer is established. Where groups of entities (e.g. consortiums), including temporary joint ventures, participate jointly in the tender procedure, the documentation must be provided for each of the participating entities. If the tenderer relies on the economic and financial standing of another entity or other entities (e.g. a parent or sister company or a subcontractor), the documentation must also be provided for each such entity or entities.

5.1.9. Criterios de selección

Criterio:

Tipo: Solvencia económica y financiera

Nombre: Financial ratio

Descripción del criterio de selección: Financial ratio Description (English): Concerning the financial ratios specified in the relevant notice, the procurement documents or the ESPD, the economic operator declares that the actual values for the required ratios are as follows: The equity ratio (calculated by dividing the tenderer's equity with the tenderer's total assets (equity /total assets x 100) at the end of the last 3 financial years available. The tenderer must have an equity ratio of at least 10 per cent in each of the last 3 financial years available. The tenderer and other entities, if any, must state the 1) equity, 2) total assets and 3) equity ratio as key figures in the ESPD. The equity and total assets must be stated in EUR. If the tenderer is composed of a group of entities (e.g. consortium), including temporary joint ventures, the equity ratio will be calculated by dividing the sum of the equities of all participants with the sum of the total assets of all participants (the sum of equities/the sum of total assets x 100) in each of the last 3 financial years available. If the tenderer relies on the economic and financial standing of an entity or entities (e.g. a parent or sister company or a subcontractor), the equity ratio will be calculated by dividing the sum of the tenderer's and the entity's/entities' equity with the sum of the tenderer's and the entity's/entities' total assets (the sum of equities/the sum of total assets x 100) in each of the last 3 financial years available. Upon request from DALO, the tenderer must submit the following documentation: Annual reports or excerpts thereof or other documentation stating the tenderer's equity and total assets at the end of the last 3 financial years available if publication of annual reports is required under the law of the country in which the tenderer is established. Where groups of entities (e.g. consortiums), including temporary

joint ventures, participate jointly in the tender procedure, the documentation must be provided for each of the participating entities. If the tenderer relies on the economic and financial standing of another entity or other entities (e.g. a parent or sister company or a subcontractor), the documentation must also be provided for each such entity or entities.
