Título: 2027 Major Overhaul of Allen LP Steam Turbine, Gearbox and Generator

Descripción: MEC is planning for a major overhaul of the Allen steam turbine at the CHP plant in Maabjerg, Holstebro, Denmark. The unit is a 32 MW twin cylinder condensing turbine commissioned in 1992. To ensure reliable, safe, and efficient operation of the unit a major overhaul of the low-pressure turbine, the reduction gear and generator is needed. For a more thorough description of the Works included in this call for tender, please see the Technical Specification, Appendix 1. Included in this call for tender are also several optional deliveries. For a description of the options, please see section 4 in the Technical Specification, Appendix 1. Purchase or realization of the options are predominantly dependent on the actual findings.

Tipo de procedimiento: Negociado con publicación previa de un anuncio de licitación / licitación con negociación

El procedimiento está acelerado: no

Principales características del procedimiento: The procurement procedure is conducted as a negotiated procedure in accordance with the Utilities Directive (Directive 2014/25/EU, as implemented by Order No. 1078 of 29 June 2022). The procurement procedure is conducted entirely electronically, and direct, unrestricted, and free access to the entire tender documentation is available via the Ethics tender portal. Notices, corrigenda, as well as questions and answers, will be made available via the above-mentioned tender portal.

Submission of tenders shall likewise take place via the tender portal. (<https://www.ethics.dk/ethics/eo#/71a17ea8-f8f4-4efa-b931-c13cbb9b5d62/homepage>) In accordance with the rules regarding publication, the tender conditions contain common provisions that will apply to all phases of the call for tender (section 1), information regarding the prequalification phase (section 2), the tender and negotiation phase (section 3-9) and information about the declaration and signing of the contract (section 10-11). As a precondition for an applicant to be declared eligible to undertake the contract and therefore prequalified, the applicant must submit a completed and dated ESPD (European Single Procurement Document), which must contain the following: 1) A completed European Single Procurement Document (ESPD) for the

applicant, as well as a completed and signed ESPD for any supporting entities/consortium members. 2) Information about the economic and financial standing of the applicant. 2.1 A solvency ratio of a minimum of 20 % in the Last Fiscal Year (i.e 2025) (LFY). 3) Information about the technical and professional ability of the applicant. 3.1) References: Minimum three (3) and a maximum of five (5) references on major overhaul work for geared steam turbines of sizes >15 MW including the generator within the last 5 years. The permissible age for references has been extended from 3 to 5 years, as the contract is not considered to arise with a frequency that ensures sufficient competition unless the permissible age is extended to 5 years. 3.2) Workshop Facilities: The applicant must as part of the application provide a statement as to the technical equipment directly available to the applicant (either own and/or equipment or sub-contractor's facilities) with respect to workshop facilities with capacities for handling large components (e.g. rotors) such as lathes, milling machines/vertical lathes, crane capacities, balancing facilities etc. 3.3) Engineering competencies and capacities: The applicant must describe and whether field service manpower (TFA's, mechanics, specialist services etc.) are own staff or subcontracted. The applicant must include a statement about the access to qualified engineering capabilities and capacities in case of fact findings, recommended modifications, repair works, or reverse engineering of spare parts needed during the major overhaul should require such services. Please use the form provided in Appendix A for 3.1, 3.2 and 3.3. From the applicants who fulfill the minimum requirement for economic and financial standing and are not subject to any of the mandatory grounds of exclusions, MEC selects 3 applicants, who will be invited to submit a tender ("Initial Offer"). The selection will be based on the technical and professional ability of the applicant in 3.1, 3.2 and 3.3. MEC reserves the right to award the contract on the basis of the initial offer, without entering into negotiations with the tenderers. Accordingly, Tenderers are urged to submit their best possible offer as early in the process as possible, as they not necessarily be given the opportunity to submit additional revised tenders. MEC expects to conduct the negotiations as a relatively short process. The purpose of the negotiations is to clarify and negotiate the "Initial Offer", so they will be optimized compared to the needs and requirements of MEC. Furthermore, the purpose is to increase the understanding of both parties regarding the character, challenges, and conditions of the work. The contract will be awarded the most economically advantageous tender based on the award criterion "best price-quality ratio" with the following sub-criteria and weighting: 1. Price: Weighted 30% 2. Description of technical solution: Weighted 40 % 3. Time schedule: Weighted 15 % 4. Key persons and organization: Weighted 15 % Requests for participation and tenders are prepared at the expense of the applicants and tenderers, and no compensation will be offered. This also applies to attending the negotiation meetings and site visits.

2.1.6. Motivos de exclusión

Fuentes de los motivos de exclusión: Documento europeo único de contratación (DEUC), Anuncio

Corrupción: Has the economic operator itself or any person who is a member of its administrative, management or supervisory body or has powers of representation, decision or control therein been the subject of a conviction by final judgment for corruption, by a conviction rendered at the most five years ago or in which an exclusion period set out directly in the conviction continues to be applicable? As defined in Article 3 of the Convention on the fight against corruption involving officials of the European Communities or officials of Member States of the European Union, OJ C 195, 25.6.1997, p. 1, and in Article 2(1) of Council Framework Decision 2003/568/JHA of 22 July 2003 on combating corruption in the private sector (OJ L 192, 31.7.2003, p. 54). This exclusion ground also includes corruption as defined in the national law of the contracting authority (contracting entity) or the economic operator. Documentation that the applicant/tenderer is not covered by exclusion can be verified by a service certificate (DK) or by equivalent documentation in accordance with section 152 of the Public Procurement Act. The documentation may not be more than 6 months old at the time the Contracting Authority requests it.

Fraude: Has the economic operator itself or any person who is a member of its administrative, management or supervisory body or has powers of representation, decision or control therein been the subject of a conviction by final judgment for fraud, by a conviction rendered at the most five years ago or in which an exclusion period set out directly in the conviction continues to be applicable? Within the meaning of Article 1 of the Convention on the protection of the European Communities' financial interests (OJ C 316, 27.11.1995, p. 48). Documentation that the applicant/tenderer is not covered by exclusion can be verified by a service certificate (DK) or by equivalent documentation in accordance with section 152 of the Public Procurement Act. The documentation may not be more than 6 months old at the time the Contracting Authority requests it.

Blanqueo de capitales o financiación del terrorismo: Has the economic operator itself or any person who is a member of its administrative, management or supervisory body or has powers of representation, decision or control therein been the subject of a conviction by final judgment for money laundering or terrorist financing, by a conviction rendered at the most five years ago or in which an exclusion period set out directly in the conviction continues to be applicable? As defined in Article 1 of Directive 2005/60/EC of the European Parliament and of the Council of 26 October 2005 on the prevention of the use of the financial system for the purpose of money laundering and terrorist financing (OJ L 309, 25.11.2005, p. 15). Documentation that the applicant/tenderer is not covered by exclusion, can be verified by a service certificate (DK) or by corresponding documentation in accordance with section 152 of the Public Procurement Act. The documentation may not be more than 6 months old at the time when the Contracting Authority requests it.

Participación en una organización delictiva: Has the economic operator itself or any person who is a member of its administrative, management or supervisory body or has powers of representation, decision or control therein been the subject of a conviction by final judgment for participation in a criminal organisation, by a conviction rendered at the most five years ago

or in which an exclusion period set out directly in the conviction continues to be applicable? As defined in Article 2 of Council Framework Decision 2008/841/JHA of 24 October 2008 on the fight against organised crime (OJ L 300, 11.11.2008, p. 42). Documentation that the applicant/tenderer is not covered by exclusion can be verified by a service certificate (DK) or by equivalent documentation in accordance with section 152 of the Danish Public Procurement Act. The documentation may not be more than 6 months old at the time when the Contracting Authority requests it.

Delitos de terrorismo o delitos ligados a las actividades terroristas: Has the economic operator itself or any person who is a member of its administrative, management or supervisory body or has powers of representation, decision or control therein been the subject of a conviction by final judgment for terrorist offences or offences linked to terrorist activities, by a conviction rendered at the most five years ago or in which an exclusion period set out directly in the conviction continues to be applicable? As defined in Articles 1 and 3 of Council Framework Decision of 13 June 2002 on combating terrorism (OJ L 164, 22.6.2002, p. 3). This exclusion ground also includes inciting or aiding or abetting or attempting to commit an offence, as referred to in Article 4 of that Framework Decision. Documentation that the applicant/tenderer is not covered by exclusion can be verified by a service certificate (DK) or by equivalent documentation in accordance with section 152 of the Public Procurement Act. The documentation may not be more than 6 months old at the time the Contracting Authority requests it.

Trabajo infantil y otras formas de trata de seres humanos: Has the economic operator itself or any person who is a member of its administrative, management or supervisory body or has powers of representation, decision or control therein been the subject of a conviction by final judgment for child labour and other forms of trafficking in human beings, by a conviction rendered at the most five years ago or in which an exclusion period set out directly in the conviction continues to be applicable? As defined in Article 2 of Directive 2011/36/EU of the European Parliament and of the Council of 5 April 2011 on preventing and combating trafficking in human beings and protecting its victims, and replacing Council Framework Decision 2002/629/JHA (OJ L 101, 15.4.2011, p. 1). Documentation that the applicant/tenderer is not covered by exclusion can be verified by a service certificate (DK) or by equivalent documentation in accordance with section 152 of the Danish Public Procurement Act. The documentation may not be more than 6 months old at the time when the Contracting Authority requests it.

Declaración falsa, ocultación de información, incapacidad de presentar los documentos exigidos u obtención de información confidencial del presente procedimiento: Can the economic operator confirm that: a) It has been guilty of serious misrepresentation in supplying the information required for the verification of the absence of grounds for exclusion or the fulfilment of the selection criteria, b) It has withheld such information, c) It has not been able, without delay, to submit the supporting documents required by a contracting authority or contracting entity, and d) It has undertaken to unduly influence the decision making process of the contracting authority or contracting entity, to obtain confidential information that may confer upon it undue advantages in the procurement procedure or to negligently provide misleading information that may have a material influence on decisions concerning exclusion, selection or award? Cf. Pursuant to Sections 136(1)(3) and 137(1)(5), an applicant/tenderer will be excluded from participation in a procurement procedure when the contracting Authority can prove that the applicant/tenderer has provided incorrect information, retained information or is unable to submit additional documents in relation to the grounds for exclusion stated in section 135(1) or (3) of the Public Procurement Act and, if relevant, in section 137(1)(2) or (7) of the Public Procurement Act, the fixed minimum requirements laid down in sections 140-144 of the Public Procurement Act or the selection in section 145 of the Public Procurement Act.

Conflicto de intereses debido a su participación en el procedimiento de contratación: Is the economic operator aware of any conflict of interest, as indicated in national law, the relevant notice or the procurement documents due to its participation in the procurement procedure? Cf. Pursuant to section 136(1)(1) of the Danish Public Procurement Act, the applicant/tenderer will be excluded from participation in the procurement procedure when the Contracting Authority can prove a conflict of interest, cf. Section 24(18) of the Public Procurement Act in relation to the tender in question and when it cannot be effectively removed by less radical means.

Participación, directa o indirecta, en la preparación del presente procedimiento de contratación : Has the economic operator or an undertaking related to it advised the contracting authority or contracting entity or otherwise been involved in the preparation of the procurement procedure? Cf. Pursuant to section 136(1)(2) of the Danish Public Procurement Act, the applicant/tenderer will be excluded from participation in the procurement procedure when the Contracting Authority can prove a distortion of competition, cf. section 39 of the Danish Public Procurement Act, in relation to the procurement procedure in question that cannot be effectively removed by less radical means.

Incumplimiento de la obligación de pago de cotizaciones a la seguridad social: Has the economic operator breached its obligations relating to the payment social security contributions, both in the country in which it is established and in Member State of the contracting authority or contracting entity if other than the country of establishment? Documentation that the applicant/tenderer is not covered by exclusion can be verified by a service certificate (DK) or by equivalent documentation in accordance with section 152 of the Public Procurement Act. The documentation may not be more than 6 months old at the time the Contracting Authority requests it.

Incumplimiento de la obligación de pago de impuestos: Has the economic operator breached its obligations relating to the payment of taxes, both in the country in which it is established and in Member State of the contracting authority or contracting entity if other than the country of establishment? Documentation that the applicant/tenderer is not covered by exclusion can be verified by a service certificate (DK) or by equivalent documentation in accordance with section 152 of the Public Procurement Act. The documentation may not be more than 6 months old at the time the Contracting Authority requests it.

5.1.9. Criterios de selección

Fuentes de los criterios de selección: Documento europeo único de contratación (DEUC), Documento de contratación, Anuncio

Criterio: Ratio financiero

Descripción del criterio de selección: The applicant must inform the following regarding economic and financial standing: Solvency ratio, which is defined as: Equity/Total Assets * 100, in the Last Fiscal Year (LFY). MEC has the following minimum requirements regarding the economic and financial standing of the applicant: A solvency ratio of a minimum of 20 % in the Last Fiscal Year (i.e 2025) (LFY). MEC requires that the tenderer provide documentation of its economic and financial standing.

Criterio: Referencias sobre servicios específicos

Descripción del criterio de selección: Minimum three (3) and a maximum of five (5) references on major overhaul work for geared steam turbines of sizes >15 MW including the generator within the last 5 years. List of relevant references, describing the applicant's experience with major overhaul work of (preferably multi-cylinder) geared steam turbines including generators within the last 5 years. The references must include the project managing role (overall responsibility during planning and project execution), technical field advisory, site management and supply of all needed manpower and spare parts. The description of the references must include a short description of the works including: › Make, type and size of steam turbine ›

Make and type of gearbox › Make and type of generator › The applicant's roles and scope of work › Start and end date of the work › Name of the client/customer, incl. contact details
Please use the form provided in Appendix A. The selection will be based on MEC's assessment of which of the applicants have: The most relevant, understood by MEC as references that have the better similarity to scope, turbine, gear and generator, and recent references.

Los criterios se utilizarán para seleccionar a los candidatos que serán invitados a la segunda fase del procedimiento

Número máximo de ofertas que pasan: 3

Criterio: Técnicos o entidades técnicas para el control de calidad

Descripción del criterio de selección: Technical facilities and measures for ensuring quality Workshop Facilities: The applicant must as part of the application provide a statement as to the technical equipment directly available to the applicant (either own and/or equipment or sub-contractor's facilities) with respect to workshop facilities with capacities for handling large components (e.g. rotors) such as lathes, milling machines/vertical lathes, crane capacities, balancing facilities etc. Please use the form provided in Appendix A. The selection will be based on MEC's assessment of which of the applicants have: Proximity and ease of access to workshop facilities and field service manpower (own or subcontractors), based on the applicants statement regarding the technical equipment directly available to the applicant (either own equipment or supporting entities' equipment) with respect to workshop facilities, including equipment such as lathes and, milling/drilling machines for large workpieces, relevant test/measuring equipment, lifting equipment, access to facilities for high-speed balancing of rotors etc. Proximity and ease of access to workshop facilities and field service manpower (own or subcontractors).

Los criterios se utilizarán para seleccionar a los candidatos que serán invitados a la segunda fase del procedimiento

Número máximo de ofertas que pasan: 3

Criterio: Titulaciones educativas y profesionales relevantes

Descripción del criterio de selección: Engineering competencies and capacities: The applicant must describe and whether field service manpower (TFA's, mechanics, specialist services etc.) are own staff or subcontracted. The applicant must include a statement about the access to qualified engineering capabilities and capacities in case of fact findings, recommended modifications, repair works, or reverse engineering of spare parts needed during the major overhaul should require such services. Please use the form provided in Appendix A. The selection will be based on MEC's assessment of which of the applicants have: Provided a satisfactory specification of and access to the technical competences and capacities relevant for the scope, as regards technical bodies within field service manpower (e.g. site manager(s), turbine/generator/gear box supervisor(s), commissioning engineer(s), balancing specialist, mechanical fitters, NDT specialist(s), certified crane driver(s), assistance for cleaning, etc.), as well as technical bodies within qualified engineering (e.g. fact findings, recommended modifications and reverse engineering of spare parts).
