Pealkiri: Framework agreement transport services ReMidt IKS

Kirjeldus: ReMidt IKS is an intermunicipal company with 17 owner municipalities in Trøndelag and Møre og Romsdal. The company is owned by Aure, Averøy, Frøya, Heim, Hitra, Kristiansund, Melhus, Midtre Gauldal, Oppdal, Orkland, Rennebu, Rindal, Smøla, Skaun, Sunndal, Surnadal and Tingvoll. ReMidt took over operative responsibility from 1 January 2020 and provides services to inhabitants and municipal entities, mainly connected to household waste and sludge. There are hardly 130,000 inhabitants living in the owner municipalities. In addition, the company barely serves 30,000 cottages and holiday homes in these municipalities. ReMidt operates 22 recycling stations and 6 reloading halls per June 2025. The objective of the procurement is to enter into a contract for transport services between recycling stations and reloading halls, swapping and emptying hook containers, as well as transporting sludge in containers to treatment facilities. The contracting authority would also like tenders for transport services for moving and outset of bottom emptying containers in our municipalities. Parts of the service will require that tenderers can use cranes. The service will be included as an option in the contract. In 2025 the total number of transports was sufficient to employ an average of 3-5 vehicles with trailers full-time per lot. Traditionally, cupboard vehicles have mainly been used from reloading halls, whilst hook containers have mainly been used from recycling stations. This distribution is subject to ongoing evaluation and will be subject to change over the coming years. ReMidt IKS reserves the right, in other words, to freely use hook or cabinet transport at relevant destinations. The estimated scope is stated for the sub-contracts together. Historically, the total need for transport services has been divided between approx. 65%/35% for sub-contract 1 and sub-contract 2. This will be subject to change during the coming contract period. Historical distribution of tonnage is stated in Annex 1 Requirement Specifications. Further description of the procurement is also in the requirement specification (Annex 1).

Hankemenetluses osalemisega kaasnev huvide konflikt: Are tenderers aware of a conflict of interest as stated in national law, the relevant notice or procurement documents?

Otsene või kaude osalemine käesoleva hankemenetluse ettevalmistamisel: Has the tenderer or an entity associated with the supplier advised the contracting authority or in another way been involved in the planning of the competition?

Ennetähtaegne lõpetamine, kahjutasu või võrreldavad sanktsioonid: Has the tenderer committed significant breaches of contract in connection with the fulfilment of a previous public contract, a previous contract with a public contracting authority or a previous concession contract, where the breach has led to the cancellation of the contract, compensation or other similar sanctions?

Ainult siseriiklikest kõrvalejätmise alustest tulenevate kohustuste rikkumine: The contracting authority shall state that in Norway there are national rejection reasons. These shall be described in the procurement documents. Tenderers must respond to whether they are in one or more of the situations described in the national rejection reasons. Will the purely national rejection reasons, as stated in the relevant notice or in the procurement documents, apply?

Sotsiaalkindlustusmaksete tasumise kohustuse rikkumine: Have tenderers failed to fulfil all their social security obligations in the country where they are established and in their member state, if this is a different country than what he is established in?

Maksude tasumise kohustuse rikkumine: Has the tenderer not fulfilled his tax and duty obligations in the country in which he is established, and in the contracting authority's member state, if this is a different country than what he is established in?

Äritegevus on peatatud: Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

5.1.15. Vahendid

Raamleping:

Raamleping ilmaminikonkursita

Osalejate maksimaalne arv: 100

Raamlepingu kestuse põhjendus: The main rule in accordance with the Public Procurement Regulations is that framework agreements shall not last longer than four years. The rules will, however, open for a longer duration when this is justifiable in the object of the framework agreement. The relevant procurement concerns transport services of a significant extent. In order to fulfil the contract, it must be expected that tenderers must make significant investments in vehicles and accompanying materials, including the procurement of new vehicles adapted to the assignment's requirements. Heavy vehicles that are used for this type of transport normally have a financial lifetime and depreciation period that exceeds four years. A framework agreement limited to four years can, therefore, lead to an increased financial risk for tenderers and may lead to: higher tender prices to cover investment costs within a shorter

contract period, and reduced competition from suppliers who must make new investments in material. The contracting authority considers that a framework agreement with a maximum duration of up to 7 years will give tenderers a more realistic basis for defending the necessary investments, at the same time as contributing to better competition and more cost efficient tenders. The extended length will therefore be seen as necessary and relative as regards the contract's nature, extent and investment need.

5.1.15. Vahendid

Raamleping:

Raamleping ilmaminikonkursita

Osalejate maksimaalne arv: 100

Raamlepingu kestuse põhjendus: The main rule in accordance with the Public Procurement Regulations is that framework agreements shall not last longer than four years. The rules will, however, open for a longer duration when this is justifiable in the object of the framework agreement. The relevant procurement concerns transport services of a significant extent. In order to fulfil the contract, it must be expected that tenderers must make significant investments in vehicles and accompanying materials, including the procurement of new vehicles adapted to the assignment's requirements. Heavy vehicles that are used for this type of transport normally have a financial lifetime and depreciation period that exceeds four years. A framework agreement limited to four years can, therefore, lead to an increased financial risk for tenderers and may lead to: higher tender prices to cover investment costs within a shorter contract period, and reduced competition from suppliers who must make new investments in material. The contracting authority considers that a framework agreement with a maximum duration of up to 7 years will give tenderers a more realistic basis for defending the necessary investments, at the same time as contributing to better competition and more cost efficient tenders. The extended length will therefore be seen as necessary and relative as regards the contract's nature, extent and investment need.
