Pealkiri: A MOMD-system (management, operation, maintenance and development) for Oslo municipality, c/o Oslobygg KF

Kirjeldus: Oslo municipality c/o Oslobygg KF, hereafter called the contracting authority, invites interested tenderers to apply for participation in a competitive dialogue for the procurement of a FDVU system. The objective of the procurement is to digitalise and make the work with FDVU more efficient in the company. Oslobygg would like a future orientated system with a large degree of standard functionality. It involves functional support for the core processes management, operation, maintenance, development, replacement and disposal, as well as support for management, procurement and financial and cost follow-up. Furthermore, emphasis will be put on possibilities for digital interaction with tenants, operations managers, suppliers and other important cooperation partners, as well as good data flow through integrations with relevant systems. See the tender contest's attached documents for a more detailed description of the contracting authority's needs.

Äritegevus on peatatud: Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers in such a situation is obligatory in accordance with the current national law with no exceptions, when the tenderer is still able to carry out the contract.

Maksude tasumise kohustuse rikkumine: Has the tenderer not fulfilled all of his tax and duty obligations in both the country where he is established and in the contracting authority's member state, if this is a different country than what he is established in?

Terroriakti toimepanek või terroristliku tegevusega seotud õigusrikkumised: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body, or has the competence to represent or control or make decisions in such bodies, in the event a legal verdict has been convicted of acts of terrorism or criminal acts connected to terrorist activities by a verdict handed down no more than five years ago, or a rejection period set out directly in the judgement that still applies? Acts of terrorism or criminal acts relating to terrorist activity as defined in Article 1 and 3 of the Council's framework decision 2002/475/RIA of 13 June 2002 on combating terrorism (EFT L 164, af 22.6.2002, p. 3). This rejection reason also includes incitement to, participation or attempts to commit such actions as included in Article 4 in the mentioned framework decision.

Ametialaste käitumisreeglite rikkumine kaitsealaste riigihangete valdkonnas: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body, or has the competence to represent or control or make decisions in such bodies, have been legally convicted of offences regarding professional behaviour in defence procurements?

Usaldusväarsuse puudumine riigi julgeolekule avalduvate ohtude välistamiseks: Is the tenderer assessed to lack reliability that is necessary to exclude the risk of national security?

Ainult siseriiklikest kõrvalejätmise alustest tulenevate kohustuste rikkumine: The contracting authority shall state that in Norway there are national rejection reasons. These shall be described in the procurement documents. Tenderers must respond to whether they are in one or more of the situations described in the national rejection reasons.

Kriteerium:

Liik: Kvaliteet

Kirjeldus: OVERALL APPROACH TO CLIMATE AND THE ENVIRONMENT The contracting authority assumes that climate and environmental considerations shall be taken care of

through requirements in the requirement specification, not as award criteria. The reason is that absolute requirements give a safe and predictable climate and environmental effect. SAAS SYSTEM'S SERVER OPERATION In a procurement of software as a service (SaaS), the predominant climate and environmental impact is connected to energy consumption and energy source in the data centres that run the system. Setting absolute requirements for data centre operation is therefore considered to provide a clearly better climate and environmental effect than to premiere this through award criteria, cf. the procurement regulations § 7-9 fourth paragraph of the first period. The procurement will be carried out as a competitive dialogue. To ensure that the market can actually fulfil the requirements, final requirement values are set during the dialogue - in accordance with DFØ's recommendations for complex SaaS procurements. The requirements will be directed towards the data centres that are used to operate the system, based on the EU code of conduct for energy efficient data centres. Relevant requirement parameters that are subject to dialogue: · Energy efficiency (PUE) · Share of renewable energy in electricity consumption (REF) · Water consumption for cooling (HENCEFORTH ALSO DEFINED AS) · Reuse of waste heat (ERF) TRANSPORT AND IMPLEMENTATION ASSISTANCE In the area of transport, the climate and environmental impact can be significantly reduced through absolute requirements. This procurement has contractual requirements regarding the use of zero emission or biogas vehicles for implementation assistance, courses etc., which, to a greater degree than the award criteria, will ensure a reduction of greenhouse gas emissions from transport in the contract period. The market for zero emission or biogas vehicles is considered mature. The requirements for emission free transport will therefore not be a dialogue.
