Menetluskorra kirjeldus: 1. GENERAL The legislation concerning the public procurement is applied to the procurement. Type of procedure is open procedure. 2. CONTRACT NOTICE A contract notice has been published on the website www.hankintailmoitukset.fi and <http://ted.europa.eu>. The contract award notice shall be published after the award decision. 3.

SUBMITTING THE TENDER AS A GROUP OF ECONOMIC OPERATORS AND

SUBCONTRACTING A tender may be submitted by a group of economic operators (a consortium or group). If awarded the contract, all group members must sign the contract and will be jointly liable for its performance. The composition of the group may not change during the procurement process or the contract period. The group, as well as a supplier with subcontractors, must possess the necessary technical, economic, financial, and other capacities to deliver the goods and services in accordance with the contract for its entire duration. During the tender process and throughout the contract period, the contracting authority may request proof of commitments and agreements with declared subcontractors that could impact the supplier's ability to fulfill the contract obligations. Similarly, the group may be required to provide evidence of the arrangements governing relationships among its

members. If a tenderer engages subcontractors, it remains fully responsible for their work as if it were its own. A tenderer submitting an independent bid while relying on subcontractors must specify in the Subcontractors Form how each subcontractor contributes to service delivery. During the contract period, subcontractors may only be replaced with the contracting authority's approval, provided such changes do not lead to significant or material modifications of the contract.

4. USING RESOURCES OF OTHER ENTITIES A tenderer or a group of economic operators may rely on the resources of other entities to meet the requirements of the invitation to tender, regardless of the legal nature of their relationship. However, these resources must be available to the tenderer or group throughout the procurement process and the contract period. Such resources may include, for example:

- Professional experience – Relying on the expertise of another economic entity, such as a company within the same corporate group, provided that the entity is named in the tender as a subcontractor and actively participates in delivering the service.
- Personnel – Using employees from another company to meet professional qualification requirements, provided that these individuals actively contribute to service delivery.
- Economic and financial standing – Leveraging the financial capacity of another entity.
- Technical capabilities – Utilizing another entity's technical resources, provided they are genuinely used to meet the procurement requirements.

In these instances, the entity being relied on must be appropriately indicated in the subcontractors annex.

5. PROCESSING OF TENDERS

Tenderers who do not meet the minimum requirements set in the Call for Tenders shall be excluded from the tender competition. A tenderer who has been convicted of or in which any person with powers of representation, decision making or control has been convicted of an offence as referred in EU Public Procurement Directive 57 article, section 1 or to extortioneate work discrimination as stated in the Criminal Code of Finland, chapter 47 section 3(a) shall also be excluded from the tender competition.
