Valikukriteeriumide allikad: Teade

Kriteerium: Viited määratud teenustele

Valikukriteeriumi kirjeldus: The suitability of applicants fulfilling the minimum requirements to economic and financial standing will be assessed based on technical and professional ability. By "undertaken in the past five (5) years" implies that the reference must not have been completed prior to the date reached when counting five (5) years backwards from the submission date for prequalification.

References older than this will not be taken into consideration. References which have not yet

been fully completed can be included as part of the application, however the applicant must describe the parts which have not yet been delivered, and this may affect the evaluation of the application, cf. section 2.3. The references should be listed in the ESPD and elaborated in BEI-S-01.05 – References. If the applicant is relying on the capacity of other entities or the applicant is a group of economic operators the maximum number of references to be submitted must still be respected and cannot exceed three (3) when combined. If more are submitted, the Contracting Authority will only consider the most recent references determined by date of final delivery, in this case not yet finished references will not be included. If the applicant relies on other entities capacity or is part of a group of economic operators the information concerning ESPD part IV.C must be submitted in separate ESPD's for each entity. Minimum requirement: It is a minimum requirement that the tenderer has at least 1 reference with offshore environmental surveys of at least one year duration and including at least survey of marine mammals by use of PAM, survey of resting birds by use of aerial flights, survey of migrating birds by use of radar, survey of bats by use of bat-detectors and survey of fish and fish populations.
