2.1. Menettely

Ilmoituksen nimi: Procurement of a patient goods system ink. Service agreement

Kuvaus: The contracting authority shall enter into a contract with one tenderer. The contract will be valid for 2 (two) years from when it is signed. The agreement will then be renewed automatically for a period of one year for up to a further two years, with a mutual right for the parties to terminate the agreement with three (three) months written notice. For such deliveries that come under SSA-L and SSA-V, this limit for the number of years will not apply, but the same terms for renewal and termination of the contract will apply. SSA-V will regulate service and maintenance needs for the delivered products that shall replace the current physical system. SSA-L shall regulate the procurement of the services required to provide cloud services or other services that should be network based for the required system to maintain continual use of the chosen system. It is anticipated that the procurement of the system will be between NOK 5-6,500,000,000. In addition, the estimated annual scope of service, support and additional purchase (dividend of equipment) will be approx. NOK 500,000 - NOK 1,000,000 excluding VAT. The contract will be valid for a call-off of up to NOK 17 million over a total of 4 years, including the option. Option: The contracting authority shall also, as a part of this agreement, have the possibility of triggering an option for the procurement of all the necessary equipment that will be necessary to provide home based care (HBO) the same system, and thus get a similar system for all employees within the municipality. The option can be unilaterally taken up by the Contracting Authority, and shall, in accordance with. All documentation for this contract will enable the procurement of all or parts of the hardware or software necessary for system expansion. Details on what will be included in this will be in the competition's annexes and annexes. The upper frame of the option is within the same total framework as the contract, NOK 17 million. All purchases made as part of the option will count towards the same upper framework as procurements under the main agreement.

5.1.10. Vertailuperusteet

Kriteeri:

Tyyppi: Hinta

Nimi: Price

Kuvaus: • Offered price Price will be assessed under this criteria. The contracting authority will use the linear model. The lowest price will get maximum points, other prices will be evaluated in relation to this. The prices shall be stated excluding VAT, including all costs and requirements arising from the tender documentation, general contract text and accompanying annexes. Hereunder, all the A-requirements and B-requirements that the tenderer has described how they fulfil, as well as all requirements for the establishment phase and support and service level. Documentation: • The tenderer's offered price

Nimi: Quality

Kuvaus: Quality • Implementation ability • Functionality and user friendliness When evaluating the tenders, both fulfilment and fulfilment of A* and B requirements will be assessed positively. B requirements allow for additional points without non-fulfilment, whilst the A* requirements reward solutions that go beyond the minimum. The assessment will therefore emphasise how well the tenderer describes an implementation model that ensures safe and effective implementation, including clear roles, good organisation and a take-over process that enables the municipality to operate the system itself. In addition the contracting authority will emphasise how well the system functions in practice for both employees and residents. Systems that offer more and more flexible notification methods, better digital supervision, more precise positioning, wider sensor support or a more intuitive administration interface will be considered more values. Tenders that provide increased security, simple operation and better adaptation to the users' needs will therefore be able to achieve a higher score. Documentation: • Implementation ability -Description of how the delivery is intended to be carried out, including time, roles and organisation. -Description of the real competence of the offered key personnel. -Description of hand over procedures to the Contracting Authority. A* requirements that are evaluated here: - 2.10.1 • Functionality and user friendliness -Tenderers shall describe the system's functionality with a view to user friendliness for both users and employees in Vanylven municipality. The description shall cover all the requested functions and it shall

highlight the relative advantages of the offered equipment and system. A* and B requirements that are evaluated here: - 2.2.6 - 2.2.7 - 2.2.8 - 2.2.9 - 2.3.2 - 2.4.3 - 2.4.5 - 2.4.6 - 2.4.7 - 2.4.8 - 2.5.1 - 2.5.2 - 2.6.1 - 2.6.2 - 2.7.3 - 2.7.4 - 2.7.5 - 2.8.2 - 2.8.3 - 2.8.4 - 2.9.2 - 2.9.3

Nimi: Service and maintenance

Kuvaus: • Fulfilment of service and support. When evaluating the tenders, fulfilment and fulfilment of A* requirements within service and maintenance will be assessed positively. A* requirement rewards suppliers who offer more than a minimum. The contracting authority will particularly assess how well the tenderer documents a robust and predictable support function that ensures stable operation over time. The evaluation will particularly emphasise the tenderer's ability to provide stable and predictable support, including a quick and measurable response time in accordance with SLA, good documentation of routines, and a dedicated customer responsible who ensures continuity of dialogue and follow-up. Systems that provide increased operational security, high availability in the event of errors, proactive notification or follow-up mechanisms, or clear processes for reporting and quality control can achieve a higher score. The aim is to identify tenderers who not only meet the minimum requirements, but who give the municipality security for stable operation and quick help when needed.

Documentation: • Solution description -Tenderers shall prepare a solution description that describes how the requirements in chapter 2.11 in Annex 1 are to be solved. A* requirements that are evaluated here: - 2.11.1 - 2.11.2 - 2.11.3
