2.1. Menettely

Ilmoituksen nimi: Procurement and delivery of sustainable bio-fuel oil.

Kuvaus: PURPOSE AND SCOPE The service shall cover Oslobygg's need for documented sustainable bio-fuel oil without palm oil, which is reported in accordance with turnover requirements through the purchase and delivery of biofueling oil to all properties in the company's portfolio that use bio-fuel oil for heating. Oslobygg has approx. 2,800,000 m2 property and has new projects in its portfolio. The requirement specifications contain an overview of the estimated number of properties that use bio-fuel oil for heating. Our properties have approx. 50 buildings with this need. The overview is not exhaustive and it must be taken into account that there can be properties that are not in the overview. The contracting authority draws attention to the fact that the estimated value is based on historical data and the expected future need. The estimate is only a guideline and is without obligation for the Contracting Authority. The expected consumption of bio-fuel oil is approx. 600,000 - 700,000 litres per annum, divided between approx. 50 properties. The expected value of the framework agreement will depend on price development in the market for bio-fuel oil, temperature conditions in the period and developments in the number of properties with bio-fuel oil as a heat source in the Contracting Authority's portfolio. There is therefore great uncertainty to the estimate.

Terrorismirikokset tai terroritoimintaan liittyvät rikokset: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body, or has the competence to represent or control or make decisions in such bodies, in the event a legal verdict has been convicted of acts of terrorism or criminal acts connected to terrorist activities by a verdict handed down no more than five years ago, or a rejection period set out directly in the judgement that still applies? Acts of terrorism or criminal acts relating to terrorist activity as defined in Article 1 and 3 of the Council's framework decision 2002/475/RIA of 13 June 2002 on combating terrorism (EFT L 164, af 22.6.2002, p. 3). This rejection reason also includes incitement to, participation or attempts to commit such actions as included in Article 4 in the mentioned framework decision.

Puolustusmateriaalihankintoja koskeva ammatin harjoittamiseen liittyvä rikkomus: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body, or has the competence to represent or control or make decisions in such bodies, have been legally convicted of offences regarding professional behaviour in defence procurements?

Kyvyyttömyys osoittaa luotettavasti, että maan turvallisuudelle aiheutuvat riskit voidaan sulkea pois: Is the tenderer assessed to lack reliability that is necessary to exclude the risk of national security?

Puhtaasti kansallisten poissulkemisperusteiden nojalla asetettujen velvoitteiden rikkominen: The contracting authority shall state that in Norway there are national rejection reasons. These

shall be described in the procurement documents. Tenderers must respond to whether they are in one or more of the situations described in the national rejection reasons.

Kuvaus: In this procurement, the environment is not weighted as an award criteria by 30%.

The contracting authority has chosen to have strict minimum requirements for the environment that, according to the contracting authority's assessment, will give a better environmental effect than setting up the environment as an award criteria. According to the Public Procurement Regulations § 7-9 (4) first period, the Contracting Authority is obliged to state a justification for this in the competition documents. In this competition, it is a requirement that the tenderer commits to only use vehicles that are either zero emission vehicles (100% battery electric or hydrogen) or biogas vehicles that as a minimum fulfil Euro class 6/VI in the execution of the contract (last transport stretch/cargo mile). In addition there are requirements that the tenderer undertakes to deliver biofuel oil that is not based on palm oil or by-products from palm oil production. The bio-fuel supplier shall fulfil the EU sustainability criteria cf. the regulation on limiting the use of health and environmentally hazardous chemicals and other products (the Product Regulation). The biofuel supplier shall be reported beyond the tenderer's reporting to fulfil the turnover requirement for the Norwegian Environment Agency. By setting such minimum requirements, it is ensured better climate and environmental effect than by setting up the award criteria(s) associated with the environment. This is because, even with a minimum of 30 percent weighting of the environment, the price risks being decisive in the competition, and that one thus ends up without the minimum requirements that are now set for the environment. The exclusion provisions in the procurement regulations § 7-9 (4) will therefore apply».
