Ostajan oikeudellinen muoto: Julkisoikeudellinen yhteisö, joka on keskushallinnon viranomaisen määräysvallassa
Pääasiallinen toimiala: Yleinen julkishallinto

2. Menettely

2.1. Menettely

Ilmoituksen nimi: Framework agreement bridge maintenance Innlandet and Buskerud 2027-2028
Kuvaus: The procurement is for a framework agreement for bridge maintenance in the geographical areas Innlandet and Buskerud. The framework agreement includes assignments such as: * Work notification Concrete renovation * Cutting cast land abutment and pillars, retaining wall work, edge binders, concrete sole layer, spray lubrication etc. * Width expansion of bridge plates and land abutments for existing bridges. Alterations to the superstructure. Repairs and replacements of existing railings and assembly of new bridge railings, including railing transitions, branches and end terminations. * Surface treatment of steel and concrete. * Removal of existing and assembly of new drainage pipes. * Repair of joints and joints. * Replacement of asphalt joints and metal joints. * Establishment of simple asphalt and rice-reading joints * Asphalt works * Replacement of membrane and wearing course. The assignments will vary in scope and comprise different maintenance work that is not already included in operational contracts or other maintenance contracts. The work included in the framework agreement is mainly for maintenance work. If there is a need for more comprehensive maintenance work and alteration work on individual bridges, this can be announced as separate contracts. Tenderers must also take an active role in the bridge maintenance and report any damage that is observed on bridges on behalf of the assignment. Such injuries are reported continuously. The amounts stated in chapter 1 are: D1 is based on experiences from previous contracts. The stated amounts are estimated amounts for the expected maintenance need for two years. However, the stated amounts are uncertain. The duration of the framework agreement is from signing of contract until 31.12.2028 The procurement is being announced with an option for a 1+1 year extension. The notice for triggering the first option will be given in writing and at the latest three months before the framework agreement expires. The same notification rules apply for triggering new options. The estimated value of the framework agreement in 2027 is NOK 40- 70 million excluding VAT. The estimated annual value later this year is NOK 40 - 70 million excluding VAT. The maximum value of the framework agreement is NOK 280 million. Excluding VAT.

Oikeusperusta:
Direktiivi 2014/24/EU

2.1.6. Poissulkemisperusteet

Poissulkemisperusteiden ilmoittamispaikka: Ilmoitus
Kansallisesta lainsäädännöstä johtuva konkurssia tai muuta sellaista vastaava tilanne: Is the tenderer in a bankruptcy situation? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers in such a situation is obligatory in accordance with the current national law with no exceptions, when the tenderer is still able to carry out the contract.
Konkurssi: Is the tenderer in a bankruptcy situation? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers in such a situation is obligatory in accordance with the current national law with no exceptions, when the tenderer is still able to carry out the contract.
Korruptio: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, by enforceable judgement been convicted of corruption by a verdict handed down not more than five years ago, or a rejection period determined directly in the judgement that still applies? Corruption as defined in Article 3 of the Convention on Combating Corruption, involving European Communities or European Union member states (EUT C 195 of 25.6.1997, s. 1), and in Article 2, point 1, in the Council´s framework decision 2003/568/RIA of 22 July 2003 on combating corruption in the private sector (EUT L 192 of 31.7.2003, p. 54). This rejection reason also includes corruption as defined in national law for the contracting authority or supplier.
Järjestelyt velkojien kanssa: Is the supplier in a situation where he has been forced debt arrangement? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business

activities? It is not necessary to provide this information if rejection of tenderers in such a situation is obligatory in accordance with the current national law with no exceptions, when the tenderer is still able to carry out the contract.
Rikollisjärjestön toimintaan osallistuminen: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, at the time a legally convicted verdict of participation in a criminal organisation by a verdict handed down no more than five years ago, or a rejection period set out directly in the judgement that still applies? Participation in a criminal organisation as defined in Article 2 of the Council´s framework decision 2008/841/RIA of 24 October 2008 on control of organised crime (EUT L 300 of 11.11.2008, p. 42).
Toisten talouden toimijoiden kanssa kilpailun vääristämiseksi tehdyt sopimukset: Has the tenderer entered into agreement(s) with other tenderers with the intention of turning the competition?
Ympäristölainsäädännön mukaisten velvoitteiden rikkominen: Is the tenderer aware of breaches of environmental provisions as stated in national law, the relevant notice or procurement documents or Article 18 (2) of Directive 2014/24/EU.
Rahanpesu tai terrorismin rahoitus: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, in the event a legal verdict has been convicted of money laundering or financing terrorism by a verdict handed down no more than five years ago, or a rejection period set out directly in the judgement that still applies? Money laundering or financing terrorism As defined in Article 1 of the European Parliament and Council Directive 2005/60/EF of 26 October 2005 on preventive measures against the use of the financial system for money laundering and financing terrorism (EUT L 309 of 25.11.2005, p. 15).
Petos: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, at the time a legally convicted of fraud has been convicted of fraud by a verdict handed down not more than five years ago, or a rejection period determined directly in the judgement that still applies? Fraud included in Article 1 of the Convention on protection of the Financial Interests of the European Communities (EFT C 316 of 27.11.1995, p. 48).
Lapsityövoima ja muut ihmiskaupan muodot: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, in the event a legal verdict has been convicted of child labour and other forms of human trafficking by a verdict handed down no more than five years ago, or a rejection period determined directly in the judgement that still applies? Child labour and other forms of human trafficking as defined in Article 2 of the European Parliament and council directive 2011/36/EU of 5. 1 April 2011 on the prevention and control of human trafficking and the protection of its victims and for compensation of the Council´s framework decision 2002/629/RIA (EUT L 101 of 15.4.2011, p. 1).
Maksukyvyttömyys: Is the tenderer in an insolvency situation? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers in such a situation is obligatory in accordance with the current national law with no exceptions, when the tenderer is still able to carry out the contract.

Työlainsäädännön mukaisten velvoitteiden rikkominen: Is the tenderer aware of breaches of provisions on working conditions as stated in national law, the relevant notice or procurement documents or Article 18 (2) of Directive 2014/24/EU.
Varat selvitysmiehen hallinnassa: Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers in such a situation is obligatory in accordance with the current national law with no exceptions, when the tenderer is still able to carry out the contract.
Väärien tietojen antaminen, tietojen salaaminen, vaadittujen asiakirjojen toimittamatta jättäminen tai tätä menettelyä koskevien luottamuksellisten tietojen saaminen: Has the tenderer: a) given grossly incorrect information with the notification of the information required to verify that there is no basis for rejection, or of the qualification requirements being fulfilled, b) failed to provide such information, c) made reservations immediately to present the supporting documents requested by the contracting authority, or d) improperly affected the contracting authority´s decision process to acquire confidential information that could give this an unlawful advantage in connection with competition, or negligently has given misleading information that can have a significant influence on decisions on rejection, selection or award?
Talouden toimijan hankintamenettelyyn osallistumisesta johtuvat eturistiriidat: Is the tenderer aware of a conflict of interest as stated in national law, the relevant notice or procurement documents?
Välitön tai välillinen osallistuminen tämän hankintamenettelyn valmisteluun: Has the tenderer or an entity associated with the supplier advised the contracting authority or in another way been involved in the planning of the competition?
Ammatin harjoittamiseen liittyvä vakava virhe: Has the tenderer committed serious errors in professional practice? If relevant, see the definitions in national law, the relevant notice or procurement documents.
Ennenaikainen irtisanominen, vahingonkorvaukset tai muut vastaavat seuraamukset: Has the tenderer committed significant breaches of contract in connection with the fulfilment of a previous public contract, a previous contract with a public contracting authority or a previous concession contract, where the breach has led to the cancellation of the contract, compensation or other similar sanctions?
Sosiaalilainsäädännön mukaisten velvoitteiden rikkominen: Is the tenderer aware of breaches of provisions on social conditions as stated in national law, the relevant notice or procurement documents or Article 18 (2) of Directive 2014/24/EU.
Sosiaaliturvamaksujen maksamiseen liittyvän velvoitteen rikkominen: Have tenderers failed to fulfil all their social security obligations in the country where they are established and in their member state, if this is a different country than what he is established in?
Liiketoiminta on keskeytetty: Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers in such a situation is obligatory in accordance with the current national law with no exceptions, when the tenderer is still able to carry out the contract.
Verojen maksamiseen liittyvän velvoitteen rikkominen: Has the tenderer not fulfilled all of his tax and duty obligations in both the country where he is established and in the contracting authority's member state, if this is a different country than what he is established in?
Terrorismirikokset tai terroritoimintaan liittyvät rikokset: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body, or has the competence to represent or control or make decisions in such bodies, in the event a legal verdict has been convicted of acts of terrorism or criminal acts connected to terrorist activities by a verdict handed down no more than five years ago, or a rejection period set directly in the

judgement that still applies? Acts of terrorism or criminal acts relating to terrorist activity as defined in Article 1 and 3 of the Council´s framework decision 2002/475/RIA of 13 June 2002 on combating terrorism (EFT L 164, af 22.6.2002, p. 3). This rejection reason also includes incitement to, participation or attempts to commit such actions as included in Article 4 in the mentioned framework decision.
Puolustusmateriaalihankintoja koskeva ammatin harjoittamiseen liittyvä rikkomus: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body, or has the competence to represent or control or make decisions in such bodies, have been legally convicted of offences regarding professional behaviour in defence procurements?
Kyvyttömyys osoittaa luotettavasti, että maan turvallisuudelle aiheutuvat riskit voidaan sulkea pois: Is the tenderer assessed to lack the reliability necessary to exclude the risk of national security?
Puhtaasti kansallisten poissulkemisperusteiden nojalla asetettujen velvoitteiden rikkominen: The contracting authority shall state that in Norway there are national rejection reasons. These shall be described in the procurement documents. Tenderers must respond to whether they are in one or more of the situations described in the national rejection reasons.

Varattu osallistuminen:
Osallistumista ei ole varattu.
Hankintaa ei ole rahoitettu EU:n varoista
Hankintaan sovelletaan WTO:n julkisia hankintoja koskevaa sopimusta (GPA): kyllä

5.1.7. Strategiset hankinnat

Strategisten hankintojen tavoite: Ympäristövaikutusten vähentäminen
Kuvaus: Reduction of environmental impact

5.1.9. Valintaperusteet

Valintaperusteiden ilmoittamispaikka: Ilmoitus
Kriteeri: Rekisteröinti kaupparekisteriin
Valintaperusteen kuvaus: Requirements of the tenderer's registrations, authorisations, etc. Tenderers shall be a legally established company or consist of a community of tenderers who are legally established companies. The requirement also applies to entities that the tenderer will use. Documentation requirements: Tenderers shall, upon request from the contracting authority, enclose a certificate from the Register of Business Enterprises or an equivalent certificate for statutory registration in the country where the tenderer or the entities that jointly constitute the tenderer are established, as well as certificates for all supporting entities.

Kriteeri: Muut taloudelliset tai rahoitukselliset vaatimukset
Valintaperusteen kuvaus: The tenderer's economic and financial capacity 1. Tenderers must have sufficient economic and financial capacity to fulfil the contract. 2. Tenderers shall have an equity percentage of at least 10%. 3. The tenderer's annual average turnover for the last three years shall be at least NOK 50 million per annum. Documentation requirements: The contracting authority will obtain a credit rating from Experian. If needed, the contracting

authority can obtain further information from the tenderer: * A brief account of information about economic conditions or losses that are not documented elsewhere and which is required to be documented in accordance with Norwegian and/or international accounting standards. * An overview of any recently executed, ongoing or pending tax or public reviews of the tenderer's activities. * An overview of any events of significance that have taken place after the publication of the last revised annual accounts.

Kriteeri: Viitteet määriteltyihin töihin
Valintaperusteen kuvaus: The tenderer´s technical and professional qualifications. Tenderers shall have sufficient experience of a relevant nature and degree of difficulty from: · Bridge works · Electrical installation works · Bridge and construction work, replacement of joints, steel works and surface treatment of steel. · The production manager shall have competence in class RPK3 or UPK3. Equivalent classes that are still valid in accordance with the Concrete Training Council, new and old competence classes dated 16.09.2020 will be accepted. Documentation requirements: Tenderers shall, upon request from the contracting authority or together with the request for participation in the competition, present the following documentation: An overview of 3-5 contracts that the tenderer has carried out or executes during the last five years calculated from the tender deadline. The overview shall, cf. the form "Response Document for assessment of the tenderer's technical and professional qualifications - Operation and maintenance" (See "General contract documents the Norwegian Public Roads Administration, Various documents), including, among other things, the following for each of the contracts: * Name of the recipient (contracting authority). * Contact person /reference person at the contracting authority with contact data (telephone number and email address) and a statement of the person´s role at the contracting authority during the contract. * Date of the delivery. * The contract´s value. * What work was carried out by the supplier himself, including as the main contractor or sub-contractor, and what work was carried out by sub-contractors. * A description of the contractual works, including relevance to the qualification requirement. * Copy of competence certificate RPK3 or UPK3

Kriteeri: Keskimääräinen vuotuinen työvoima
Valintaperusteen kuvaus: Implementation ability The tenderer shall: 1. Have the capacity and ability to handle predicted and unforeseen conditions in the contract. 2. Offer sufficient manpower to carry out the contract. 3. Have technical and professional competence and relevant experience with the key personnel offered for fulfilling the contract. Documentation requirements: Tenderers shall present the following documentation if requested by the contracting authority: 1. An overview of the tenderer's average workforce and the number of employees in the management in the last three years. 2. An overview of the manpower that the tenderer offers to carry out the contract, including an organisation plan for the contract. 3. CVs and job descriptions for key personnel, c.f. chapter C, including the following resources: - Project Manager - Site Manager - Quality management manager. - HSE manager - Production manager concrete - Work manager with responsibility for concrete work - Work manager with responsibility for steel work and surface treatment of steel - FROSIO Inspector

5.1.10. Vertailuperusteet

Kriteeri:
Tyyppi: Hinta
Kuvaus: Lowest price
Kategoria vertailuperuste paino: Painotus (prosentteina, tarkka)
Vertailuperusteen luku: 100
Kriteeri:

Tyyppi: Laatu
Kuvaus: The procurement is for a framework agreement for bridge maintenance Innlandet and Buskerud 2027-2028. According to loa § 5b, the contracting authority shall take climate and environment into account in all procurements in order to reduce the procurement´s total climate footprint and environmental impact. In procurements, the contracting authority that weights the award criteria, shall weight climate and environmental considerations with a minimum of thirty percent. If the contracting authority sets the award criteria in prioritised order, climate and environment considerations should be among the three highest prioritised. Award criteria for climate and environment can be replaced or combined with climate and environmental requirements in the requirement specification if this gives a better climate or environmental effect. This shall be justified in the procurement documents. The climate and environmental impact of this procurement is mainly related to: • Materials. Mainly concrete and steel. • Transport of personnel. • Heavy diesel driven vehicles and machines. • Waste management services. From the contracting authority´s assessment, the minimum requirements set in the contract terms will give a better climate effect by ensuring that the winning tenderer´s fulfils the climate and environmental requirements which are set which is something that is not sure by weighting equivalently with the award criteria. It is not known at the time of publication which bridges are included in the framework agreement. The work will be carried out on bridges with a very varying location and extent. Bridge works will be carried out in both densely populated areas with good access to infrastructure and charging facilities and in areas with very long transport distances and limited access to charging infrastructure. At the time of publication, it will be unknown how much will be covered by each individual the call-offs, the extent of the work or which conditions will apply. It has been assessed that it would be challenging to prepare realistic and documentable climate and environmental measures such as can be evaluated as the award criteria for all possible future call-offs under the framework agreement. There is also a significant amount of non planned assignments in the framework agreement as a result of unforeseen events on the road network. (the driveway of bridge elements, snow clearing damage, loose joint elements, flood damage etc.) Materials Concrete - The concrete shall fulfil a minimum of low carbon concrete 20 in accordance with Norwegian. Concrete Association Publication no. 37: Low carbon concrete. This concrete is required to be used in all cases where this does not go beyond the structural characteristics of concrete and where this is professionally responsible. See also the requirements for emissions set in the Norwegian Concrete Association publication no. 37 Low carbon concrete from October 2025. By setting requirements on using low carbon concrete where professionally responsible, we ensure the lowest possible emissions. Transport of personnel All light vehicles shall be 90% emission free. Light vehicles means passenger cars (M1/M1G), Light goods van (N1/N1G). Emission free means vehicles that have progress based on fully electric or hydrogen. The above requirements do not apply to the use of vehicles for transport to, from and between work places that not be paid separately. The point is taken care of in chapter C2 Special contract terms, point 34 Vehicle Requirements. Setting the minimum requirements gives a better climate effect by ensuring that the winning tenderer´s comply with the climate and environmental requirements set which is something that is not certain weighting equivalently with award criteria. Heavy diesel powered vehicles and machines Requirements for vehicles and machines: The contract requires that all diesel driven vehicles are required. and machines that are used in the contract shall, at a minimum, have EURO 6 and STEP 4. approval. See C4 special contract terms for the contract, point 4.3. Absorption agents are required in C2 point 30.9. Waste Management Waste management makes up a very small part of the contract. It mostly involves the delivery of concrete and reinforcement for a certified landfill. As the process is taken care of in C2 Special Contracts provisions point 30.5 and contractors in reality cannot compete on the assessed use of minimum requirements results in

a better climate and environmental effect by ensuring that the winning tenderer´s comply with the climate and environmental requirements set. Conclusion There are mainly very strict requirements for external environments and emissions when performing bridge maintenance through requirements in the tender documentation and regulations that it would not be appropriate to do so as a part of the award criteria. By setting minimum requirements in the contract, we are largely ensured a climate and environmental effect and we therefore consider the climate and environmental gains in this procurement to be better safeguarded through such a requirement position rather than the use of climate and environment as the award criteria.
