Titre: AAMOS – Enterprise Architecture management system

Description: Fingrid Oyj (the Client) is tendering for an Enterprise Architecture management system delivered as a SaaS service. The Client is Fingrid and its group companies (Fingrid Datahub Oy and Finextra Oy). The purpose of the system is to support the collection and structuring of Fingrid's current state architecture and to enable the planning of alternative target states and the required change. The system will replace the functionalities of the current tools used for architecture modelling, architecture management and publication, and will serve as a unifying platform for managing business processes, data domains, applications, and technology. The scope of the procurement includes SaaS Software as a Service user licenses for Fingrid's enterprise architecture user groups (enterprise content viewers, dashboard/report viewers, enterprise architecture admins, and content contributors), as well as the technical components required to support architecture planning, modelling, analysis, visualization and publication. The procurement also includes a Delivery Project, covering the technical implementation of the system, integrations with pre-defined source systems, and the refinement and deployment of the first-phase use cases. In addition, the procurement includes Support and Advisory Services covering product support, end user support, and the ability to obtain expert advisory services to ensure effective system utilization. The system must also support Continuous Development, enabling Fingrid to expand, refine, and evolve its enterprise architecture practices, modelling conventions, visualizations, and integrations throughout the contract period. A more detailed description of the procurement is provided in Appendix 1, Project Description.
