The contracting authority has chosen to have binding requirements that the building shall achieve energy class A and be certified in accordance with BREEAM-NOR v6.1.1 level Excellent. These requirements ensure uniform, documentable and third-party verified environmental performance in both the construction phase and the lifetime of the building. The contracting authority considers that such absolute requirements provide a higher and more predictable climate and environmental effect than using climate and the environment as the award criteria with a minimum of 30% weighting, where price or other conditions can be decisive.
