Avis de marché ou de concession – régime ordinaire

Services

1. Acheteur

1.1. Acheteur

Nom officiel: Arendal kommune

Adresse électronique: ak.anskaffelser@arendal.kommune.no

Forme juridique de l'acheteur: Organisme de droit public, contrôlé par une autorité locale

Activité du pouvoir adjudicateur: Services d'administration générale

2. Procédure

2.1. Procédure

Titre: Framework agreement for flushing services

Description: Background Arendal municipality shall establish a joint framework agreement for flushing services in order to cover ongoing and acute needs across the organisation. The need particularly applies within water and sewage, but also the Arendal Harbour and Arendal Eiendom have a real and recurring need for equivalent services. The objective of the procurement is to ensure access to necessary services through a more structured, predictable and efficient contract. The framework agreement shall assist the municipality in handling acute events quickly and responsibly, while also covering planned assignments connected to operation and maintenance. The procurement shall also provide better management of the procurements, more uniform terms and simple contract follow-up. It is important for tenderers to be aware that the assignments can vary in scope and urgency, and that the contract can be used by several units with partially different operational needs. Description of the assignment The procurement is for the establishment of a framework agreement for flushing services for Arendal municipality. The framework agreement shall cover both planned assignments and acute events within the municipality's areas of activity, with an emphasis on water and sewage, as well as needs within the port and property. The delivery mainly includes flushing, suction, dry suction, emptying and other closely connected services that are naturally included in such assignments. The assignments can i.a. be connected to operation, maintenance, cleaning, troubleshooting and handling events that require a quick response. Delivery is requested that gives the municipality access to the necessary capacity, resources and relevant equipment for different types of assignments. The framework agreement shall be suitable for use across multiple units and facilitate effective implementation, accessibility as needed and satisfactory documentation of completed work. Value calculation The estimated contract value is NOK 10 million excluding VAT. The contract value is calculated from the experience basis from the last four years and is encumbered with uncertainty. The estimated scope is not to be considered as binding for the contracting authority. The contracting authority reserves the right to hold a new competition if this framework agreement exceeds NOK 25 million excluding VAT before the contract period expires. Reservations All conditions that the tenderer has for the tender shall be stated under the reservations point in the KGV system. Alternative tenders Alternative tenders cannot be submitted.

Identifiant de la procédure: dfab843e-47a8-4cf4-9918-ef48e3ab39b6

Identifiant interne: cmsipu451000004l26ozxgb1r

Type de procédure: Ouverte

La procédure est accélérée: non

Principales caractéristiques de la procédure et informations sur l'endroit où obtenir les règles complètes applicables à la procédure: All interested suppliers can submit tender offers through Hyr. The competition does not have a prequalification phase. The tenders will be evaluated directly, and dialogues or negotiations will not be allowed beyond minor clarifications and corrections of the tenders. Tenderers are strongly encouraged to follow the instructions given in this tender documentation with annexes and possibly ask questions about uncertainties in the communication module in Hyr.
