Description: This procurement is for a framework agreement for inspections, service and maintenance of fire protection equipment and fire technical installations, as well as the procurement of new equipment/products and/or materials as needed. The most important climate footprint and environmental impacts in this procurement are driving to and from the properties and emissions in connection with. production and waste generation in connection with. equipment/products and/or materials procured. Concrete environmental requirements are set in the competition in order to reduce the total climate footprint and environmental impact. 100% emission free vehicles are required. The requirements are set at a level where the potential for further climate and environmental gains through a competition for award criteria is limited. An award criteria will therefore not be able to contribute to providing better climate and environmental performance than these stipulated requirements. Based on this, the terms for utilising the provision in the Norwegian Public Procurement Regulations § 5 b second paragraph of the third period are being assessed as fulfilled. Statsbygg is therefore exempted from the obligation to weight climate and the environment with a minimum of 30 percent or prioritise this among the three highest weighted award criteria.
