Teideal: Retender regarding a digital wayfinding solution for The University of Southern Denmark

Cur síos: SDU occupies a large number of buildings in Denmark, approx. 340.000 square meters (gross area). SDU has the need for digital wayfinding covering a minimum of six buildings, approx. 340.000 square meters (gross area): SDU Odense, SDU Kolding, SDU Esbjerg, SDU Copenhagen, SDU Sønderborg, and SDU Vejle. To facilitate the movement between and inside the university buildings for staff, students, and visitors, SDU intends to acquire a digital wayfinding system, which is to be based on SDU's technical building plans. The digital wayfinding must work both indoors and outdoors for navigation, using smartphone, tablet, and computer. The idea is to provide the users with clear, simple navigation between A and B in our different campus areas. To further optimizing the use, the digital wayfinding system will also need to be able to integrate with other SDU systems. SDU is constantly changing, so the scale is likely to vary during the contract term. SDU is calling for tenders in relation to the acquisition of a digital wayfinding as the contract with its current supplier will expire on 31 December 2026. In view of the nature and scope of the procurement process, the University has chosen to call for tenders for the service now, as it is crucial that the digital wayfinding should be tested and approved before going live. SDU must have access to the digital wayfinding as early as possible, but at least full access on 1. november 2026.

Eolas breise: DOCUMENTATION OF ECONOMIC AND FINANCIAL STANDING The

contracting authority intends to request the tenderers to submit documentation for the information provided in the ESPD regarding economic and financial standing, cf. Section III.

1.2) of the Contract Notice. As documentation of economic and financial standing, the contracting authority will obtain the three most recent approved and audited annual financial statements or equivalent documentation (e.g. a statement from an auditor containing the

necessary information). The contracting authority may refrain from requesting documentation from tenderers if the information can be obtained directly from national databases or similar

sources. DOCUMENTATION OF TECHNICAL AND PROFESSIONAL CAPACITY The

contracting authority does not intend to request the tenderers to submit any additional documentation for the information provided in the ESPD or Annex 7 regarding technical and

professional capacity, cf. Section III.1.3) of the tender Notice. Accordingly, the list of references provided in the ESPD or Annex 7 will be considered final documentation.

DOCUMENTATION OF GROUNDS FOR EXCLUSION The tenderer must be able to document that it is not subject to the mandatory grounds for exclusion set out in Sections 135 (1), (2) and (3) of the Danish Public Procurement Act (Consolidation Act No. 1564 of 15

December 2015). Service Certificate (Serviceattest) For Danish applicants/tenderers, documentation is provided through a Service Certificate ("Serviceattest"), which may be

obtained from the Danish Business Authority (Erhvervsstyrelsen). The typical processing time for obtaining a Service Certificate is approximately two weeks. The certificate must be issued

no more than 12 months before the tender deadline. e-Certis (for foreign tenderers) For foreign applicants/tenderers, the contracting authority's experience is that the processing time

for such documentation varies significantly between Member States. The EU has launched e-CERTIS, a free, online database providing information to businesses and contracting

authorities about the types of documentary evidence commonly requested in public procurement procedures. Information about relevant certificates can be found at: <https://ec.europa.eu/tools/ecertis/#/search>

The contracting authority therefore strongly encourages foreign applicants/tenderers to obtain this documentation as early as possible. The

documentation must be issued no more than 12 months before the tender deadline. Where possible, such documentation should correspond to the type of evidence indicated in e-

CERTIS, cf. Section 152(3) of the Danish Public Procurement Act. Such documentation may include: An extract from the relevant register or an equivalent document issued by a

competent judicial or administrative authority confirming that the applicant or tenderer is not subject to any grounds for exclusion; A certificate issued by the competent authority in the

relevant country as proof that the applicant or tenderer is not subject to exclusion grounds; A declaration on oath or a solemn declaration made before a competent judicial or administrative

authority, a notary public, or a competent professional organisation in the country in which the applicant or tenderer is established.

5.1.9. Critéir roghnúcháin

Foinse na gcritéir roghnaithe: Fógra

Critéar: Cóimheas airgeadais

Cur síos ar an gcritéar roghnúcháin: The tenderer must fulfil the following minimum requirement for economic and financial capacity, cf. section 142 of the Danish Act on Tender Procedures (Udbudsloven): The tenderer shall demonstrate: o Positive equity in the three recent approved annual financial statements. o The average equity ratio for the last three financial years must be positive. (Equity ratio = equity / total assets × 100) o The average liquidity ratio for the last three financial years must be positive. (Liquidity ratio = current assets × 100 / short-term liabilities) As final documentation of the tenderer's compliance with the economic suitability requirements, the tenderer shall submit audited annual financial statements for the last three (3) completed financial years for which annual accounts exist, or equivalent auditor-certified documentation, such as an auditor's declaration.

Critéar: Tagairtí ar sheirbhísí sonraithe

Cur síos ar an gcritéar roghnúcháin: The tenderer must demonstrate experience in delivering digital map and wayfinding solutions of a similar nature to that stated in the tender. The tenderer shall therefore provide the two (2) most relevant references for deliveries made within the last three (3) years counted from the deadline for submission of tenders. This includes both deliveries with a contract or implementation of a new solution started within the past 3 years. If more than two references are provided in the ESPD and/or in Annex 7, the contracting authority will disregard any references beyond the first two listed, when evaluating who to prequalify. If references are stated in both the ESPD and Annex 7, the contract authority will disregard the ones in the ESPD, unless there isn't stated enough. A reference will be deemed relevant if it includes: – Development and/or implementation of a digital wayfinding solution, and – The applicant being the main contractor of the solution, and – Delivery to a public or private client with a level of complexity comparable to the contract being tendered (hereby meaning e.g. universities, hospitals or other educational institutions). For each reference, the following minimum information must be provided: – Name of reference/client (contracting authority) and contact details (name of a contact person, e-mail address for and/or phone number that contact person), – Brief description of the delivery, – Time of delivery (starting date for the contract or final date of implementation of a new solution), – The total indoor area (in square meters) covered by the mapping solution under each reference, – The overall number of rooms and POIs included in the reference. The references will be used to select the most relevant applicants in accordance with section 2.4.5. See the ESPD Part IV, section C and/or the Annex 7 - references. The tenderer's references stated in the ESPD or in the tenderers completed Annex 7 constitute the final documentation of the supplier's fulfilment of the suitability requirement. If the number of applicants who meet the qualification requirements exceed the number of applicants which the Contracting authority wants to prequalify, a selection will be made among the qualified applicants, so that only the correct number of applicants is prequalified. This selection is based on the following criteria: The selection of tenderers will be based on an overall assessment of which candidates have provided the most relevant references. Relevance will be evaluated regarding: - the total area (in square metres) covered by the mapping solution under each reference; - the overall number of rooms or premises included, where a higher number will be considered more advantageous. In the assessment of references, the overall size of the referenced solutions (measured in total area in square metres) will be considered. References demonstrating a high degree of spatial complexity — expressed as a greater density and POIs (including rooms) relative to total floor area — will be assessed more favourably. To determine the degree of spatial complexity, the following ratio is used: $\text{POI density Ratio} = (\text{Total floor area (m}^2\text{)}) / (\text{Total number of POI})$ This ratio expresses the average number of square metres per POI. A lower ratio indicates a higher density of POIs relative to the floor area, which is taken as an indication of a more complex and functionally demanding environment. On that basis, up to 5

applicants will be invited to submit a tender. The five applicants with lowest average POI density ratio will be selected.

Ainm: Quality 1: User friendliness of the digital wayfinding

Cur síos: The schedule in the tender specifications describes several user scenarios. Tenderer must for each user scenario in its tender include a video or a description for the specific scenario in accordance with the schedule. To evaluating the criterion, the contracting authority has submitted a committee of expected users and map editors for the system. Based on committee's experience from the videos and/or descriptions an appointed committee at SDU will assess the systems' user friendliness and intuitiveness. Positive weighting is placed on at system being intuitive and having a clear layout. With the system being intuitive, we mean e.g. by using common visual cues (e.g. such as colors and icons), and/or the System is designed in a way that makes it easy for users to learn and remember how the system works, to ensure an experience that feels intuitive. Features and navigation should - to the highest possible extent - be self-explanatory (e.g. by having support features such as mouse-over information, for further guidance), and the design should be consistent. In the absence of a video or description the grade 0 is given for the scenario in question.

Ainm: Quality 2: Functionality of the digital wayfinding

Cur síos: Annex 1 Specification of requirements, section 3.2. and 3.3 describes several wishes for functionality and the associated minimum requirements. The fulfilment of the requirements in sections 3.2 and 3.3 is generally evaluated by assessing whether each Wish has been met or not. If a Wish is met in the tenderer's offer, it is awarded 10 points in accordance with section 2.5.2. If the Wish is not met, it is awarded 0 points. Where the wishes in these two sections state "It will be viewed positively if...", the evaluation will be based on the extent to which the fulfilment is deemed to meet what is considered positive for the specific wish. The

evaluation will be carried out according to the method described in section 2.6.2 or after the scale stated in the wish, if one as such is to be found in the wish. All wishes carry equal weight. This means that the average score awarded for the fulfilment of the wishes will be included in the overall evaluation of the tender with the weighting assigned to “Quality 2 ...” in the table above.

(loven kan hentes på www.retsinformation.dk), gælder følgende frister for indgivelse af klage: Klage over ikke at være blevet udvalgt skal være indgivet til Klagenævnet for Udbud inden 20 kalenderdage, jf. lovens § 7, stk. 1, fra dagen efter afsendelse af en underretning til de berørte ansøgere om, hvem der er blevet udvalgt, når underretningen er ledsaget af en begrundelse for beslutningen i overensstemmelse med lovens §2, stk. 1, nr. 1, og udbudslovens § 171, stk. 2. I andre situationer skal klage over udbud, jf. lovens § 7, stk. 2, være indgivet til Klagenævnet for Udbud inden: 1) 45 kalenderdage efter at ordregiveren har offentliggjort en bekendtgørelse i Den Europæiske Unions Tidende om, at ordregiveren har indgået en kontrakt. Fristen regnes fra dagen efter den dag, hvor bekendtgørelsen er blevet offentliggjort. 2) 20 kalenderdage regnet fra dagen efter at ordregiveren har meddelt sin beslutning, jf. udbudslovens § 185, stk. 2. Senest samtidig med at en klage indgives til Klagenævnet for Udbud, skal klageren skriftligt underrette ordregiveren om, at klage indgives til Klagenævnet for Udbud, og om hvorvidt klagen er indgivet i standstill - perioden, jf. lovens § 6, stk. 4. I tilfælde hvor klagen ikke er indgivet i standstill - perioden, skal klageren tillige angive, hvorvidt der begæres opsættende virkning af klagen, jf. lovens § 12, stk. 1. Klagenævnet for Udbuds e-mailadresse er angivet i punkt VI.4.1). Klagenævnet for Udbuds klagevejledning kan findes på: www.erhvervsstyrelsen.dk.
