2. Nós imeachta

2.1. Nós imeachta

Teideal: Welfare technology in Lofoten

Cur síos: The procurement concerns welfare technology as described in the tender documentation and annexes. The aim of this procurement is to establish a joint, future orientated and integrated welfare technological platform for the municipalities in the Lofoten ICT cooperation (Vågan, Vestvågøy, Flakstad, Moskenes and Værøy), including an option for the purchase/hire of welfare technological equipment. The procurement shall simplify work processes for employees and users, as well as facilitate efficient use of resources, innovation and further development. The procurement comprises the following three main areas: Welfare technological platform - Joint platform for all the municipalities in Lofoten ICT. Welfare technological systems for persons living at home - Systems for users who live at home. Options for the expansion of the patient signalling system at institutions and manned residences - Expansion of the current patient signalling system with marking in place and colleague notification.

Aitheantóir inmheánach: 2026/796

An cineál nós imeachta: Idirbheartaíocht lena mbaineann foilsiú roimh ré glao ar iomaíocht / iomaíocht lena mbaineann idirbheartaíocht

Tá an nós imeachta á bhrostú: níl

Príomhghnéithe an nós imeachta: The platform (main area 1) shall form the core of the municipalities' digital health and care services and ensure that all relevant health technological systems can be integrated in a seamless, secure and user friendly way. The regional, common welfare technological platform must be operative by 1 September 2026. The contract will be signed by all the municipalities in the Lofoten ICT cooperation for the procurement/hire of equipment for persons living at home (cf. the main area 2) as well as an option for equipment for an institution and manned residence (cf. main area 3), this shall be regulated through a separate framework agreement (SSA-R + SSA-K) with two sub areas, where each municipality is given the right to make call-offs and possibly utilise options. Tenderers are requested to note that options in accordance with point 3 presuppose a prior competition for upgrading the ICT infrastructure in each municipality. Upgrading of the ICT infrastructure is, for these reasons, not included as a separate point in this procurement. See Annexes 1 and 2 for further details on the procurement and the requirement specifications.

Creat-chomhaontú:

Creat-chomhaontú, gan an iomaíocht a athoscailt

An t-uaslíon rannpháirtithe: 1

An bonn cirt atá le fad an chreat-chomhaontaithe: The maximum duration of the framework agreement is determined to be six (6) years, based on a combined assessment of the market situation and the economic and technical prerequisites for the delivery. The contracting authority has documented through a market dialogue that the tenderer's business models are so adapted that it is not commercially appropriate to switch equipment suppliers without switching the accompanying platform system. The delivery requires considerable investments,

both in platform technology and the accompanying equipment. A supplier change across equipment and platform will incur disproportionately high costs connected to the change of equipment and/or establishment, integrations and any other transition costs. It is, therefore, scheduled to assess the supplier's replacement costs connected to the municipalities' existing equipment in the procurement. While technically it is possible to establish APIs or other integrations towards alternative solutions, the contracting authority's understanding will typically be growing and it will not represent a commercial or socio-economically effective approach. Based on this, a framework agreement will be assessed with a duration of six years as necessary and proportionate in order to ensure sufficient competition, cost efficiency and predictability in the delivery.
