Soláthairtí

### **II.1.4. Cur síos achomair**

Sykehusinnkjøp will, on behalf of Helse Sør-Øst RHF [the South-Eastern Norway Regional Health Authority], procure blood gas syringes for the health trusts in South-Eastern Norway Regional Health Authority

The objective of the procurement is to meet the health trusts' need for blood gas syringes for arterial sampling from arterial taps and at arterial puncture.

The total estimated scope of the procurement is 3.7 million syringes. The estimated scope is based on the procurements by the health trusts in 2022 and a maximum contract period of 4 years. The stated consumption/scope is an estimate for information to the tenderer, and is not binding for future contract volume. To take into account uncertainty in the statistics, an increase in the number of samples ordered, general population growth and similar conditions, the maximum scope of the procurement has been set at 4.3 million syringes.
