2.1. Nós imeachta

Teideal: Framework agreement for assistance with recruitment, etc. for management positions.
Cur síos: The Norwegian Public Roads Administration, HR and Development (hereafter called the Contracting Authority), would like to enter into a framework agreement for assistance in connection with recruitment of directors, department director and other central management positions. The Norwegian Public Roads Administration is faced with tighter economic frameworks and increased requirements for prioritising, efficiency and restructuring, as a result of economic development, a more demanding security policy situation and demographic changes. This also affects the road sector and sets high requirements for clear, competent and responsible management. Top managers and other central managers in the Norwegian Public Roads Administration are responsible for leading a complex and socially critical activity in a period of uncertainty and restructuring. The choice of right leaders is therefore decisive for the agency's ability to solve its social mission. Procurement of external assistance for the selection of management candidates is an important means for: • ensure a professional, objective and quality assured recruitment process. • reduce the risk of wrong recruitment • ensure a good decision basis for employment in positions of great strategic and organisational importance. The framework agreement shall be signed with up to 6 tenderers, divided as follows: Sub-contract 1: Full recruitment process (up to 2 tenderers) Sub-contract 2: Executive search and candidate selection (up to 2 tenderers) Sub-contract 3: Candidate testing (up to two tenderers)

Emphasis will particularly be put on: • the tenderer's understanding of the purpose of testing as decision support in the recruitment process. • how the tenderer plans to carry out testing, including selection of methods and tools. • how test results shall be interpreted and assessed against the requirement profile. • how the tenderer will ensure professional quality, objectivity and verifiability in the assessments. • how the results are communicated to the Contracting Authority in an understandable and applicable way. It will also be assessed: • to what degree the methodology is relevant and suitable for management recruitment • To what degree the delivery provides a good and decision relevant basis for the Contracting Authority. Documentation requirement: Tenderers shall describe their understanding of the assignment and give an account of how the assignment will be carried out. The description shall as a minimum contain: • proposal for an implementation model • A description of central activities in the assignment's phases. • A short account of quality assurance and documentation. General and small concrete descriptions will be weighted less than concrete and assignment specific descriptions.

Cur síos: The procurement is for recruitment assistance and the accompanying services, and is considered, in its nature, to have an immaterial climate footprint and environmental impact. It is therefore considered that it is not appropriate to set award criteria connected to climate and the environment in this procurement. It is also assumed that: the procurement to a limited degree carries direct environmental impact. climate and environmental considerations are not suitable as a differentiating award criteria in this procurement use of such criteria will not give a real climate or environmental effect. Based on this, the exception is used for procurements with immaterial climate footprint and environmental impact.
