2. Nós imeachta

2.1. Nós imeachta

Teideal: ATU SFWA for Student Work Placement Software System.

Cur síos: The Contracting Authority proposes to engage in a competitive process for the establishment of a framework agreement. A single operator framework agreement for supply, implementation, and support of a Student Work Placement Software System. The system will optimise student placement management, streamline placement provider engagement, and enhance compliance and reporting. The system must handle end-to-end placement processes, for student applications and must support rules-based allocation and support configurable recommendation/matching criteria, real-time tracking, feedback collection, and reporting. It should integrate seamlessly with existing MIS/CRM systems like Student Record System - Banner or similar, support multi-tenant access for academic partners, and ensure WCAG 2.2 AA accessibility with GDPR compliance. The initial contract relates to a pilot implementation for the School of Education, St Angela's, Sligo. Please refer to attached documentation for further information.

ATU has decided to cancel the procurement process for the Work Placement Software System and will not be proceeding with an award of contract. The decision has been taken following organisational changes arising from the restructuring of academic faculties, together with ongoing uncertainty regarding the budget available for the project. These recent developments have materially impacted the scope, requirements and overall affordability of the proposed solution. Consequently, it has been determined that it would not be appropriate to proceed with the procurement process at this time. In accordance with Clause 6.6 of the Request for Tender, the Contracting Authority reserves the right not to award a contract and is under no obligation to conclude this procurement process.
