2.1. Nós imeachta

Teideal: National drone platform

Cur síos: The object of the tender process is to award a single contract to a supplier capable of providing a configurable digital platform, together with the associated implementation, operation and maintenance services, supporting drone flight notification and digital authority services in Denmark (hereafter referred to as the "System"). The initial implementation (DL1) shall enable drone operators to digitally notify planned flights and provide relevant authorities with a shared operational overview of notified drone operations and the digital services required to support the exercise of regulatory authority. The procurement is based on a phased implementation model. In addition to the initial implementation, the contract includes capabilities to be introduced over time through configuration of standard product functionality. Such capabilities may include enhanced digital authority services regarding the management of operators, remote pilots, geographical drone zones, flight permissions, deeper integration with adjacent systems, U-space services under Regulation (EU) 2021/664, CISP capabilities, enhanced situational awareness, integration with ATM/UTM environments and other capabilities supporting the evolving Danish drone ecosystem. The System shall comply with applicable Danish and European legislation, including Regulation (EU) 2019/947, Regulation (EU) 2019/945, Regulation (EU) 2021/664 where applicable, relevant Danish legislation governing drone operations and public administration, and Regulation (EU) 2016/679 (GDPR). The System is furthermore expected to comply with relevant standards and guidance issued by organisations such as EASA, EUROCONTROL, EUROCAE, ICAO and JARUS, together with recognised standards for software quality, information security and accessibility. The System is further described in Appendix 8 in the Tender Material.

An cineál nós imeachta: Idirbheartaíocht lena mbaineann foilsiú roimh ré glao ar iomaíocht / iomaíocht lena mbaineann idirbheartaíocht

Tá an nós imeachta á bhrostú: níl

Príomhghnéithe an nós imeachta: Naviair is entitled to limit the number of candidates who are prequalified. If Naviair receives 3 or fewer applications that meet the minimum requirements for financial, technical and professional capacity and are not subject to grounds of exclusion,

all 3 applicants will be prequalified without selection. If Naviair receives 3 applications or more, selection will be made based on the applicant's references as described in section 5.1.9. For selection purposes, the applicant can provide the most significant comparable references (a maximum of 3) that the applicant has performed in the last 3 years, meaning to what extent the references demonstrate experience in delivering services that are comparable - in terms of requirements - to the services covered by the contract, cf. the descriptions in section 2 and Appendix 8 including the options. When assessing which applicants have provided the most relevant references, all references are evaluated to determine whether, collectively, they demonstrate a high level of relevant experience, cf. above. The evaluation will be based on the information listed in the European Single Procurement Document (ESPD). The candidates may where necessary rely on the capacity of other entities in relation to the fulfilment of requirements relating to the economic and financial capacity, or to its technical and professional abilities. If a candidate wants to rely on the capacities of other entities, it shall prove to the contracting authority (Naviair) that it will have at its disposal the capacities necessary. The candidate (or the entity whose capacities the candidate relies on) is automatically excluded from the prequalification phase if the candidate (or the entity) is subject to any of the exclusion grounds listed in articles 57(1), 57(2) and 57(4) in directive 2014/24/EU. Each candidate, including entities whose capacity the candidate relies on, and all members of a consortium (if relevant) must fulfill these exclusion grounds. A contract cannot be awarded to companies with Russian affiliation, cf. Council Regulation (EU) 2022/1269 of 21 July 2022 amending Regulation (EU) No 833/2014 concerning restrictive measures in view of Russia's actions destabilising the situation in Ukraine. In connection with submitting an application, the tenderer must therefore complete a declaration of honour to this effect. A declaration template is part of the Tender Material. The applicant must submit an ESPD as its application as preliminary proof of the conditions mentioned in Section 148, paragraph 1, numbers 1-3 of the Public Procurement Act, cf. the regulation on procedures for entering into contracts within water and energy supply, transport, and postal services Section 11. It is not necessary for the applicant to sign its ESPD document. If the applicant is a consortium then the applicant must submit a consortium declaration. In the case of a consortium, a separate ESPD must be submitted for each participating economic operator. If the applicant is a consortium, each participant's ESPD document must be signed by the respective participant. It is not necessary for the leading applicant submitting the application to sign its ESPD document. If the applicant relies on the capacity of other entities, an ESPD must be submitted for each entity on which it relies, and the ESPD document must be signed by the supporting entity. The applicant must also submit a support declaration in which the entity or entities on which the applicant relies declare to be jointly and severally liable with the applicant if awarded the contract. The template is attached as an appendix to the Tender Material. Before the award decision, the tenderer to whom the Contracting Entity intends to award the contract must provide documentation for the information given in the ESPD in accordance with Sections 151 and 152, paragraph 3 of the Public Procurement Act, cf. the implementation regulation Section 11. This documentation will consist of a Service Certificate "Serviceattest" (issued no earlier than six months before the tender deadline) and annual accounts/auditor's statement for Danish tenderers. Equivalent documentation shall be provided for foreign tenderers. If the application is submitted by a consortium, a correctly completed consortium declaration must also be submitted for the consortium as a whole. If the applicant relies on the economic and financial or technical and professional capacity of supporting entities, the applicant must also submit a correctly completed support declaration in which the supporting entity/entities legally commit to making their resources available. A template is part of the Tender Material. In the event of changes to the composition of the tenderer, the rules in Section 147 of the Public Procurement Act apply in full. Please note that Tender material

normally shall be delivered in English language, but in exceptional cases Naviair may accept individual documents in other major languages.

5.1.7. Soláthar straitéiseach

Critéir maidir le soláthar glas: Gan aon chritéir maidir le Soláthar Poiblí Glas

5.1.9. Critéir roghnúcháin

Foinse na gcritéir roghnaithe: Fógra, Doiciméad Aonair Eorpach maidir le Soláthar (ESPD)

Critéar: Cóimheas airgeadais

Cur síos ar an gcritéar roghnúcháin: The candidate’s economic and financial capacity must be sufficient to manage the financial risk and undertakings throughout the contract period. The applicant must confirm the economic ability in the ESPD part IV.B with information from the latest annual report regarding the following economic indicators: 1. Equity (total equity incl. share capital, reserves, revaluation, retained earning etc.) 2. Equity ratio (equity/total assets). This must be stated with two decimals. If the applicant relies on the capacities of other entities or the applicant is a group of economic operators the information for the ESPD part IV.B must also be given in a separate ESPD from each of these entities. It is the sole responsibility of the applicant to secure that the minimum requirements are reached based on consolidation when the applicant is relying on the capacity of other entities or when the applicant is a group of economic operators. Minimum requirement: Equity from the latest annual report must, at the time of prequalification, be at least EUR 25.000.000. Equity ratio from the latest annual report must, at the time of prequalification, be at least 20 pct. If the equity ratio is between 15 pct. and 20 pct. the applicant can qualify if equity exceeds EUR 80.000.000. The ESPD serves as preliminary proof that the applicant meets the minimum requirements in relation to economic and financial capacity. The tenderer who is to be awarded the contract must, upon request, submit the tenderer’s latest approved annual accounts or an auditor’s statement of the requested financial key figures, unless the information is freely available to the Contracting Authority.

Critéar: Sábháilteacht chun faisnéis rangaíochta a phróiseáil, a stóráil agus a sheoladh

Cur síos ar an gcritéar roghnúcháin: A structured work with information security is important for Naviar. It is a prerequisite to be prequalified (minimum requirement) that the candidate is working in accordance with an Information security management system such as ISO 27001 or equivalent. In the ESPD the candidate shall provide a description of its security management system. The description shall demonstrate that the program applies to deliveries similar to the system covered by this tender, cf. Appendix 8 in the tender material. If the candidate is composed of a group of entities (e.g. consortium), including temporary joint

ventures, each consortium member must comply with the minimum requirement above. Upon request the applicant/tenderer shall deliver a copy of a valid ISO 27001 certificate or equivalent as documentation.

Critéar: Beartha a chinntíonn cáilíocht

Cur síos ar an gcritéar roghnúcháin: In the ESPD the candidate must deliver: A description of the technical facilities and measures used by the candidate for ensuring quality in relation to delivering similar systems; including information on all relevant certifications and standards. It is a minimum requirement for prequalification that the applicant can provide evidence for organized company structure and systematic work processes as, demonstrated by: (a) Certification by recognized standards such as ISO 9001 or equivalent (b) Ample justification for non-adherence to acceptable standard and practices as mentioned in a). If the candidate is composed of a group of entities (e.g. consortium), including temporary joint ventures, each member of the consortium must comply with the minimum requirement above. Upon request the applicant/tenderer shall deliver a copy of a valid ISO 9001 certificate or equivalent as documentation.

Critéar: Cáilíochtaí oideachasúla agus gairmiúla ábhartha

Cur síos ar an gcritéar roghnúcháin: It is a minimum requirement for prequalification that the applicant can provide references to experienced employees considered experts in comparable systems (see Appendix 8) in terms of functionality, complexity and integrations, have knowledge of (EU) 2019/947, (EU) 2019/945 and (EU) 2021/664 and experience from ATM and UTM. If the candidate is composed of a group of entities (e.g. consortium), including temporary joint ventures, the consortium (as a whole) must comply with the minimum requirement above. Relevant information regarding relevant experience may be provided in the form of either a description or a declaration. Professional qualifications may also be documented by submitting a list of the works, supplies, or services that employees have helped to carry out. In this context, the list may include work, supplies, or services performed by the employee during previous employment.

Critéar: Tagairtí ar sheirbhísí sonraithe

Cur síos ar an gcritéar roghnúcháin: In the ESPD the economic operator must deliver information of (maximum 3) references regarding delivery of the principal similar systems as covered by this tender for the past 3 years (specified by contract amount, contract period, description of the system - with focus on a description of the architecture, interoperability mechanisms, supported standards, external system integrations, and operational use of each reference system, including information on recipients, location, subcontractors and date of approved Acceptance Test and/or date of operational use). By similar system means a system as described in Appendix 8 with the following main functions: 1) Digital notification of drone flights 2) Digital support of applications, approvals and regulatory workflows 3) UTM capabilities supporting planning, coordination, monitoring and awareness/surveillance. 4) Integration with information services, authority systems, external information services, geozone data and data exchange. The reference systems shall therefore be operationally deployed and demonstrate proven experience in delivering interoperable digital platforms supporting information exchange between aviation stakeholders in a regulated operational environment and in compliance with recognized aviation standards. Naviar reserves the right to contact the candidate and/or the recipients of the reference systems in order to verify the information of references. It is a prerequisite for prequalification (minimum requirement) that the candidate can deliver a minimum of one (1) reference demonstrating delivery of a similar system as described above, which have an approved by Acceptance Test and/or have been

put into operational use. A maximum of 3 references can be provided, regardless of whether the applicant is a single company, relies on the technical capacity of other entities, or is a consortium. If the applicant relies on the professional qualifications or professional experience of other entities regarding the execution of specific parts of the deliveries covered by the contract, see the description under "Subject" and "Description of the tender," the specific parts of the services under the contract must be performed by the entity on which the applicant relies. The ESPD serves as preliminary evidence of how the applicant meets the selection criterion. Before the award decision, the tenderer to whom the contracting authority intends to award the contract must provide documentation that the information in the ESPD is correct. The applicant will not be required to provide additional documentation for technical and professional capacity besides what is mentioned in this notice. However, the contracting authority reserves the right to contact the applicant, or the customer specified in the reference to verify the information about the reference.
