2.1. Nós imeachta

Teideal: Competition for the delivery of a joint system for a generative KI-assistant to DFØ
Cur síos: DFØ needs a joint system for generative artificial intelligence (KI) that shall support the company's employees in daily work and contribute to increased quality, efficiency and productivity. The procurement includes the establishment and delivery of a KI work surface with access to KI assistants and simpler KI-agents, including access to underlying language models, the necessary platform and infrastructure, as well as functionality for managing security, privacy and costs. The system shall be able to use relevant data sources in DFØ's activities as a basis for search, analysis and content generation, as well as support safe and controlled use of KI in accordance with the current regulations. The procurement also includes establishment, implementation and any training support. DFØ would like a flexible and future orientated system that can be further developed in line with the business's needs and technological developments in the market. Further requirements regarding the delivery are stated in the tender documents.
