Cineál: Cáilíocht

Ainm: Climate and environment

Cur síos: Cf. the Public Procurement Regulations § 7-9 Climate and environmental considerations in public procurements, the requirements and criteria shall aim at reducing the procurement's total climate footprint or environmental impact. In this procurement, it is the

contracting authority's assessment that the goal is achieved best by setting requirements for the tenderer's qualifications and minimum requirements for the delivery's performance. Tenderers must have an environmental management system. The requirement for the tractor's environmental properties gives itself, as all newer tractors shall fulfil the last emission standard for this type of machinery. In this case it is step 5 motor that applies. Therefore we do not envisage that there is a basis for achieving better environmental qualities by evaluating the environment.
