2.1. Nós imeachta

Teideal: Consultancy services technical modernisation of the payment area in the Nav
Cur síos: Nav manages large amounts in society, and the payment of benefits is decisive for the welfare community functioning. The payment of services is a socially critical task for, among other things, ensuring subsistence and is a crucial part of the value chain for all services that nav provides. There is a need to carry out a technical modernisation of the systems in the payment area in order to support this part of nav's social mission. Nav shall establish a project that shall be responsible for the modernisation. The Norwegian Labour and Welfare Administration invites tenderers to a competition for consultancy agreements to cover Nav's need for competence and capacity to carry out the project. The deadline for abidance with the tender is 3 months after the tender deadline.
