An Iorua – Prosthodontic and relining products – Technical dental goods and services

OJ S 185/2026 24/09/2026

Fógra maidir le conradh nó lamháltas — an gnáthchóras

Soláthairtí

1. Ceannaitheoir

1.1. Ceannaitheoir

Ainm oifigiúil: Innlandet fylkeskommune

R-phost: post@innlandetfylke.no

Cineál dlíthiúil an cheannaitheora: Comhlacht dlí phoiblí atá faoi rialú údaráis réigiúnaigh

Gníomhaíocht an údaráis chonarthaigh: Seirbhísí poiblí ginearálta

2. Nós imeachta

2.1. Nós imeachta

Teideal: Technical dental goods and services

Cur síos: Background and purpose The objective of the procurement Procurement of technical dental supplies and services for the county dental health service in Innlandet. This also includes the always cooperating dentists from the private sector with whom the county has a contract. Scope The county has previously had an agreement in this area. The turnover for the last couple of years has been as follows and on average excluding VAT: 2023: 4.700.000 2024: 4.800.000 2025: 5.800.000 Average per year: 5,100,000 It is possible that during the contract period the dental health service in Innlandet will start production of technical dental works itself. The estimated value over 4 years is approx. 22.000.000. The maximum amount for the total framework agreement in the next four years is NOK 30,000,000 excluding VAT. There are currently no special events expected in the coming period that affect the total volume, except that Gran municipality is transferred to Akershus County from 1.1.2028. This means that Innlandet county's entities in Gran are transferred. This will mainly be Hadeland sixth form college, local dental clinic and Randsfjord ferry. If the maximum call-off is reached before the contract period expires, the contracting authority reserves the right to cancel the contract, regardless of the contract's term. Competition Terms A separate Word document (annex 4) is attached that safeguards conditions that the Hyrr platform currently does not take care of well enough.

Aitheantóir an nós imeachta: 352ff86e-059e-412b-97d6-46b14843d7e1

Aitheantóir inmheánach: cmuceww33000v04l8ibfnb7kf

An cineál nós imeachta: Oscailte

Tá an nós imeachta á bhrostú: níl

Príomhghnéithe an nós imeachta: The procurement will be made in accordance with the Public Procurement Act dated 17 June 2016 no. 73 (LOA), and the public procurement regulations dated 12 August 2016 no. 974 (FOA), parts I and III. This procurement follows the procedure open tender contest, cf. the Public Procurement Regulations § 13-1 (1).

Negotiations are not allowed in this competition, and therefore the tenders cannot be amended after the tender deadline. Tenderers are therefore strongly encouraged to follow the instructions given in this document. An open tender contest is a procurement procedure that allows all interested tenderers to submit a tender.

5.1.10. Critéir dhámhachtana**Critéar:**

Cineál: Cáilíocht

Ainm: Guarantees, material and fabrication errors, claims and alterations.

Cur síos: Under this criteria, associated requirements will be assessed.

Catagóir an critéir dhámhachtana meáchain: Ualú (céatadán, beacht)

Uimhir an chritéir dhámhachtana: 20

Critéar:

Cineál: Cáilíocht

Ainm: Interaction, communication, courses etc.

Cur síos: Under this criteria, associated requirements will be assessed.

Catagóir an critéir dhámhachtana meáchain: Ualú (céatadán, beacht)

Uimhir an chritéir dhámhachtana: 30

Critéar:

Cineál: Praghas

Ainm: Price

Cur síos: Tenderers shall complete the price form. This shall be done in the Excel form and electronically enclosed with the tender. The form cannot be changed. It is the tenderer's responsibility to submit a correct and complete tender. Missing the completed price form and /or wrong quality can result in the tender being rejected. The prices shall be given excluding

VAT, but including all of the tenderer's other costs, but not freight (see the point on the logistics system). The offered discount on other products will not be included in the evaluation, but will be fixed on the contract. The contracting authority assumes that the discount level is representative of the tenderer's general price level and is not set significantly higher or lower than the discount level offered on the core assortment. If the contracting authority considers that the offered discount on other assortment is not in reasonable relation to the discount level of the core assortment, it may be assessed as a deviation or as a pricing model that is not suitable for identifying the economically most advantageous tender.

Catagóir an critéir dhámhachtana meáchain: Ualú (céatadán, beacht)

Uimhir an chritéir dhámhachtana: 50

Critéar:

Cineál: Cáilíocht

Ainm: Climate and environment

Cur síos: The Contracting Authority has assessed climate footprint and environmental impact connected to the procurement of dental prostheses (prostheses), in accordance with the Public Procurement Regulations §5b. The assessment is connected to the nature of the procurement, i.e. environmental impact that typically occurs when production and delivery of individually adapted prosthetics, including material use, production and transport, assessed in a lifetime perspective. The procurement is for the production of smaller, individually adapted medical-technical products with limited material volume per unit. The identified environmental drivers are mainly connected to the production location (global versus local/Norwegian) and the accompanying transport systems. The market is small, with few suppliers. The product shall be delivered with a short delivery time due to patient needs. At the same time, this is a product with special adaptation that often needs adjustments. The value chain in this market is often global, most suppliers have production in China or Thailand. Due to the need for a short delivery time, the goods will be sent by air transport. However, there is national production and production in Europe, and there is, in particular, little need for air transport by the former. A combination of production links in Asia and Europe or Norway also occurs for some of the products. Based on an expected annual volume of approx. 3,500 prostheses and an estimated climate footprint of 200-450 g CO₂ equivalents per work, the total annual climate footprint is estimated to approx. 0.7-1.6 tonnes of CO₂ equivalents at Norwegian/European production. Import-based production with air transport can double or triple this figure, giving 1.4 - 5 tonnes of CO₂ emissions per annum. A local value chain with exclusively production in Norway and therefore reduced air transport is the environmental measure that would reduce climate and environmental footprint the most. This will give a price increase of 2-300% for the different deliveries. The absolute maximum reduction in greenhouse gas emissions will be in the area of 0.7 – 2.5 tons CO₂ equivalents per annum. The contracting authority considers the climate impact and the possibility of a reduction as very low, both per unit and in total for the contract. Based on this, the contracting authority considers that climate footprint and environmental impact connected to the procurement, seen in light of the contract's extent and character, is of immaterial importance, cf. the Public Procurement Regulations §5c. The procurement is therefore exempted from the obligation to use climate and environmental considerations as the award criteria or set special climate and environmental requirements.
