2.1. Nós imeachta

Teideal: Internal control and operation/maintenance electro - RK2026

Cur síos: The aim of the procurement is to establish two framework agreements that shall ensure good and substantiate internal control of ELECTRICAL and it shall cover the municipality's supplementary need for electrical services including materials beyond the use of our labour. We shall have different tenderers for these two service areas. The contract shall ensure stability and quality in the service provision by increasing the capacity and competence for these types of services. The municipality is therefore seeking contractual partners who are efficient and competent, with positive cooperation qualities. The tenderer shall secure the municipality's documentation via digital logging. The municipality uses Facilit FDVU. Call-offs on services, materials for the management, operation and maintenance of property, buildings and plants occurring with the use of this electronic system. The contract will be valid for 2 years, with the right to extend for one year + one year. The value of the competition is estimated to be NOK 14 million for sub-contract 1, operation and maintenance, respectively, with a maximum value of NOK 15.1 million. And NOK 1.8 million, with a maximum value of NOK 2.3 million over four years for sub-contract 2, internal control. The need can be greater or smaller during the contract period, e.g. as a result of the municipality acquiring new or encumbering buildings. If the procurement is defined as a project (over NOK 500,000), the municipality is free to request tenders with several tenderers. This applies to both heavy and low voltage installations. A comprehensive description of the delivery is given in the contract drafts for each of the two sub-contracts.
