5. Luchtóg

5.1. Luchtóg: LOT-0001

Teideal: Endoscopic bushing material for back surgery for Vestre Viken HF

Cur síos: Vestre Viken HF at Martina Hansen Hospital shall procure consumables for endoscopic back surgery against 1 endoscopy system for back surgery, 2 interlaminary instrument sets and 2 transforminel instrument sets being loaned free of charge for a period of 4 years, with the possibility for an extension for 1+1 year. Consumables for endoscopic back surgery shall be placed on a consignment warehouse in the contract period. The endoscopy equipment shall be used for prolapse interventions. Approx. 150 prolapse interventions are carried out annually. 2 transformers and 2 intralaminary interventions shall be carried out on the same day. In the long term it may be necessary to use the equipment for stenosis interventions. The department currently has 1 endoscopic system. The endoscopy system is used for arthroscopy and it shall continue to be used for artoscopy. If a tenderer can use all or parts of the existing equipment without losing the possibility of using it for artoscopy, the existing equipment can be used, if appropriate. The stated consumption/extent is an estimate for information to the tenderer and is not binding for the future contract volume. Increased need can occur with a general increase in procedures performed. Such conditions are expected to increase the need between 5 and 30% and the maximum extent of the procurement is therefore equal to the value of the estimated amount stated in the Price Form plus 30%. See the Requirement Specifications and the Price Form for further details.

Creat-chomhaontú:
Creat-chomhaontú, gan an iomaíocht a athoscailt
An t-uaslíon rannpháirtithe: 100
An bonn cirt atá le fad an chreat-chomhaontaithe: The contracting authority has chosen a longer duration than four years for the framework agreement, cf. the Public Procurement Regulations § 26-1 (4), as there are particular conditions as it is very resource and time consuming for the Contracting Authority to change suppliers every four years. The tenderer will have an endoscopy system and the instrument set free of charge and the cost of this must be divided over the contract period. The change of system also requires new training of operators in a technique with a significant learning curve, which affects patient safety and operational capacity.
