NUTS kod: UK United Kingdom

Glavna lokacija ili mjesto izvršenja: United Kingdom.

### **II.2.4. Opis nabave**

IGMR PT, part of the UK Ministry of Defence, intends to award a contract for the supply of 12 30mm Calibre Gun Systems to MSI Defence Systems Ltd (MSI-DSL). This is because the MDI-DSL 30 mm Calibre Gun System has been in service (in different variants) since the 1980s, installed on a range of different platforms and the additional Gun Systems are now required for installation on new platforms (HMS Queen Elizabeth and the MARS tankers). A change of supplier would result in incompatibility with the existing fleet of 72 fielded systems, including the associated support (spare components and services) and training arrangements. It would also result in disproportionate technical difficulties in operation and maintenance since both the new platforms have been designed to accommodate the installation of this tried and tested Gun System. The contract will be for a period of less than 5 years.

Objašnjenje:

IGMR PT, part of the UK Ministry of Defence, intends to award a contract for the supply of 12 30mm Calibre Gun Systems to MSI Defence Systems Ltd (MSI-DSL). It is considered that this contract can be placed using the negotiated procedure without prior publication pursuant to Article 28(3)(a) Directive 2009/81/EC of the European Parliament and of the Council (Regulation 16 (1) (b) (i) of the UK Defence and Security Public Contracts Regulations 2011). This is because the MDI-DSL 30 mm Calibre Gun System has been in service (in different variants) since the 1980s, installed on a range of different platforms (including, currently, Type 23 Frigates, HMS Ocean, RFA Wave Ruler (ASCG), Type 45 Destroyers and Minesweepers

(MCMV)), and the additional Gun Systems are now required for installation on new platforms (HMS Queen Elizabeth and the MARS tankers). A change of supplier would result in incompatibility with the existing fleet of 72 fielded systems, including the associated support (spare components and services) and training arrangements. It would also result in disproportionate technical difficulties in operation and maintenance since both the new platforms have been designed to accommodate the installation of this tried and tested Gun System. The contract will be for a period of less than 5 years.

Suppliers interested in working with the Ministry of Defence should register on the MOD Supplier Information Database (SID) Register, available at [www.contracts.mod.uk](http://www.contracts.mod.uk) The MOD SID is a database of active and potential suppliers available to all MOD and UK Defence procurement personnel, and is the main supplier database of MOD Procurement organisations. Please note: the registration and publication of a company profile on the MOD SID does not mean or imply that the supplier has in any way been vetted or approved by the

MOD. Suppliers wishing to compete for advertised MOD contracts must respond to any specific call for competition by submitting a separate expression of interest in accordance with the instructions of the purchasing organisation.

From 2.4.2014 the Government is introducing its new Government Security Classifications Policy (GSC) to replace the current Government Protective Marking Scheme. A key aspect of this is the reduction in the number of security classifications used. All suppliers to the Department are encouraged to make themselves aware of the changes as it may impact on this Requirement. The link below to the Gov.uk website provides information on the new GSC. <https://www.gov.uk/government/publications/government-security-classifications>

The Authority reserves the right to amend any condition related to security of information to reflect any changes in national law or government policy. If any contract documents are accompanied by instructions on safeguarding classified information (e.g. a Security Aspects Letter), the Authority reserves the right to amend the terms of these instructions to reflect any changes in national law or government policy, whether in respect of the applicable protective marking scheme, specific protective markings given, the aspects to which any protective marking applies, or otherwise.
