Naslov: MetroLink, Dublin – M120 Heavy Civils Enabling Works Framework Agreement

Opis: The M120 Heavy Civils Enabling Works Framework Agreement (the M120 Framework) will provide heavy civils engineering works and ancillary works for the MetroLink programme. The procurement of the M120 Framework (the Competition) will be conducted under the European Union (Award of Contracts by Utility Undertakings) Regulations 2016 (as amended) (SI 286/2016), and will be managed by TII, acting as the contracting authority. The M120 Framework will consist of two (2) separate value-based lots. Both lots will be procured using the negotiated procedure with prior call for competition (per Regulation 46 of the Utilities Regulations) leading to a multi-party Framework Agreement (per Regulation 50 of the Utilities Regulations). Applicants may apply for one (1) lot only. The lots are as follows: M120 Framework Lot 1 – Heavy Civils Enabling Works (Call-off contracts with an estimated value of €50 million or more (excluding VAT) and those determined by the Contracting Authority to be complex call-off contracts of any value which may require specific technical or specialist resources. Lot 1 will consist of call-off contracts for large elements of civils works, which may include station boxes, tunnel portals, single or multi span viaducts, as well as other heavy civils contract packages; M120 Framework Lot 2 – Heavy Civils Enabling Works (Call-off contracts with an estimated value of less than €50 million (excluding VAT) except those to be included in Lot 1. Lot 2 will consist of call-off contracts for elements of civils works, which may include retaining walls, other foundation/support works, as well as other heavy civils contract packages. Conduct of the Competition: Stage 1: The Selection Stage will commence with the publication of a Pre-Qualification Questionnaire (PQQ). Provided that there is a sufficient number of applicants for each lot, five (5) applicants for each of the two (2) lots will be shortlisted. If less than five (5) applicants meet the minimum requirements for a lot, TII reserves the right to proceed with those applicants to the second stage of the procurement for that lot. Stage 2: The Tender Stage for each call-off contract will commence with TII issuing the Invitation to Negotiate (ITN) to each tenderer for that lot. Following the conclusion of the Tender Stage, the three (3) highest ranked tenderers under each lot will be appointed to the M120 Framework and will be eligible to compete for future call-off contracts and also the

highest ranked tenderer for each of the first call-off contracts will be awarded those contracts. The 4th and 5th ranked tenderers under each lot will be reserve tenderers, TII reserves the right to appoint one of the reserve tenderers to the M120 Framework under certain specified conditions. The M120 Framework may also be used by Iarnród Éireann-Irish Rail to procure call-off contracts for heavy civil engineering works at or adjacent to Glasnevin station that fall within the scope of works for the M120 Framework. TII has the right at any time and without notice to (i) terminate the Competition (or part of it), (ii) change the Competition's basis or procedures, (iii) procure the works by other means, (iv) negotiate or engage with one or more parties at any time, or (v) to do any combination of the foregoing or anything else deemed appropriate. To participate in this procurement please register at Metrolink e-Sourcing Portal <https://metrolink.app.jaggaer.com/>, after registration navigate to PQQs/ITTs Open to All Suppliers tab on the Main Dashboard, locate "Lot 1 Heavy Civils Enabling Works (Call off contracts with an estimated value of €50 million or more (excluding VAT)/ complex works" or, "Lot 2 Heavy Civils Enabling Works (Call off contracts with an estimated value of less than €50 million (excluding VAT)", express an interest and submit a response.

Procijenjena vrijednost bez PDV-a: 1 200 000 000,00 EUR

Maksimalna vrijednost okvirnog sporazuma: 1 200 000 000,00 EUR

2.1.4. Opće informacije

Dodatne informacije: This contract notice relates to the M120 Framework which is sub-divided into two separate lots. Applicants may participate in One (1) lot ONLY under the M120 Framework. The M120 Framework will be used for the award of heavy civils enabling works using Design and Build contracts for elements of work which would otherwise be delivered under the M401, M402 contracts or other contract packages of the wider MetroLink programme. The M120 Framework will be awarded in accordance with the provisions of the European Union (Award of Contracts by Utility Undertakings) Regulations 2016 (S.I. 286 /2016). As the total estimated value of the lots under this Framework Agreement is equal to or greater than EUR 250 million and the value of each lot is above EUR 125 million, applicants invited to participate in the Tender Stage will be required as part of their tender submission to notify all foreign financial contributions as defined in Article 28(1), point (b) of Regulation (EU) 2022/2560 on foreign subsidies distorting the internal market. If no such financial contributions have been received, the economic operator will instead be required to submit a declaration confirming that it has not received such financial contributions from countries outside the EU. TII may, if appropriate and necessary, adopt the procedure detailed in Regulation 49(1)(f) of the European Union (Award of Contracts by Utility Undertakings) Regulations 2016 to award new services consisting of the repetition of similar services entrusted to the successful tenderers under this competition. More information on the MetroLink project and scope of the M120 Framework is available at www.metrolink.ie and in the PQQ documents. The works under the M120 Framework will each have a number of interfaces with the MetroLink M401 and M402 contracts and with the design, build, finance, operate and maintain (DBFOM) contract (the M500 Contract), the advance and enabling works contracts (the M100 Contracts) and other contracts. Most of the heavy civil engineering works will be delivered under the larger M401/M402 packages. The NEC4 engineering and construction contract ('ECC') framework contract will be the form of contract used for the M120 framework agreement. Call-off contracts awarded under Lot 1 and under Lot 2 will use the NEC4 ECC Option C form of contract, with TII reserving the right to use the NEC4 Option A or Option E forms of contract for call-offs under the M120 Framework. Option C will be the contract form used for the first call-offs under each Lot. TII reserves the right to novate or assign call-off contracts awarded under the M120 framework to the M401 contractor, M402 contractor, M500 contractor, or another State/State-owned entity following the award of the call-off contracts. TII reserves the right at its absolute discretion to omit, vary, reduce, extend or repackage its requirements and /or amend contracts post award or to do a combination of these to enable the delivery of its requirements under the M120 Framework in a timely manner. This includes, without limitation, the right to procure directly from individual or groups of members from pre-qualified consortia, reducing or extending the duration of repackaged contracts and permitting changes to pre-qualified consortia and to take such steps as it considers appropriate in respect of the Competition subject to applicable law. TII has the right at any time and without notice to (i) terminate the Competition (or part of it), (ii) change the Competition's basis or procedures, (iii) procure the works by other means, (iv) negotiate or engage with one or more parties at any time, or (v) to do any combination of the foregoing or anything else deemed appropriate. In line

with the Irish Government's climate action legislation and MetroLink's sustainability and carbon management commitments outlined in the Railway Order, each of the M120 call-off contracts will include a structured framework for managing carbon performance to ensure alignment with carbon. This approach aims to encourage innovation in low carbon construction methods, materials, and logistics, and will form part of the overall contract performance assessment. Refer to the PQQ documents for further information. The Framework value stated in section 2.1.3 represents TII's best estimate of the anticipated total value of contracts that may be procured under the framework including risk and inflation and for works required by TII and/or Irish Rail and should not be taken as a definitive indication or guarantee of the volume of heavy civils engineering works that may be required by TII due to the variable demand for these works, and therefore the value may be significantly lower, or indeed higher than this estimate.

Naslov: Heavy Civils Enabling Works (Call off contracts with an estimated value of less than €50 million (excluding VAT))

Opis: The M120 Heavy Civils Enabling Works Framework Agreement (the M120 Framework) will provide heavy civils engineering works and ancillary works for the MetroLink programme. The procurement of the M120 Framework (the Competition) will be conducted under the European Union (Award of Contracts by Utility Undertakings) Regulations 2016 (as amended) (SI 286/2016), and will be managed by TII, acting as the contracting authority. The M120 Framework will consist of two (2) separate value-based lots. Both lots will be procured using the negotiated procedure with prior call for competition (per Regulation 46 of the Utilities Regulations) leading to a multi-party Framework Agreement (per Regulation 50 of the Utilities Regulations). Applicants may apply for one (1) lot only. The lots are as follows: M120 Framework Lot 1 – Heavy Civils Enabling Works (Call-off contracts with an estimated value of €50 million or more (excluding VAT) and those determined by the Contracting Authority to be complex call-off contracts of any value which may require specific technical or specialist

resources. Lot 1 will consist of call-off contracts for large elements of civils works, which may include station boxes, tunnel portals, single or multi span viaducts, as well as other heavy civils contract packages; M120 Framework Lot 2 – Heavy Civils Enabling Works (Call-off contracts with an estimated value of less than €50 million (excluding VAT) except those to be included in Lot 1. Lot 2 will consist of call-off contracts for elements of civils works, which may include retaining walls, other foundation/support works, as well as other heavy civils contract packages. Conduct of the Competition: Stage 1: The Selection Stage will commence with the publication of a Pre-Qualification Questionnaire (PQQ). Provided that there is a sufficient number of applicants for each lot, five (5) applicants for each of the two (2) lots will be shortlisted. If less than five (5) applicants meet the minimum requirements for a lot, TII reserves the right to proceed with those applicants to the second stage of the procurement for that lot. Stage 2: The Tender Stage for each call-off contract will commence with TII issuing the Invitation to Negotiate (ITN) to each tenderer for that lot. Following the conclusion of the Tender Stage, the three (3) highest ranked tenderers under each lot will be appointed to the M120 Framework and will be eligible to compete for future call-off contracts and also the highest ranked tenderer for each of the first call-off contracts will be awarded those contracts. The 4th and 5th ranked tenderers under each lot will be reserve tenderers, TII reserves the right to appoint one of the reserve tenderers to the M120 Framework under certain specified conditions. The M120 Framework may also be used by Iarnród Éireann-Irish Rail to procure call-off contracts for heavy civil engineering works at or adjacent to Glasnevin station that fall within the scope of works for the M120 Framework.
