2.1. Postupak

Naslov: Appointment of a Client Side Support Team for Göng og brú ohf.
Opis: Göng og brú ohf. is a State-owned public limited company established under the Infrastructure Company Act No. 70/2026. The company's purpose is to deliver large transport infrastructure projects of national economic importance in Iceland and to secure their financing and faster delivery. Its role is to own, finance, build, maintain and operate the transport infrastructure it takes on, to collect road tolls, to ensure the financial sustainability of its projects, and to ensure professional preparation and risk management of its investment decisions. As its first major appointment, Göng og brú seeks to appoint a Client Side Support Team (CSST) to act as its client-side advisory partner across the full lifecycle of its programme, from early development and feasibility through construction, commissioning, maintenance and operations. The initial portfolio comprises Sundabraut, the Hvalfjarðargöng second bore and the Ölfusárbrú project, which involves a forward financing arrangement for a new bridge already under construction. Further projects may be added to the portfolio over time. The CSST will provide the breadth and depth of expertise required for Göng og brú to act as an informed and capable client, including support for the programme's digital strategy and an understanding of Icelandic geological and geotechnical conditions. The CSST must maintain an exclusive client-side position, free from participation in the programme's supply chain, during the contract term. Key personnel may be required to be based in Iceland. The contract has an initial term of five years, extendable by up to five further periods of three years each, giving a maximum total term of 20 years. The scope of services of the CSST includes, but is not limited to, design and planning support, programme and project management, procurement and contract management support, cost, schedule and risk management, technical oversight, and related commercial, financial, digital, environmental and safety advisory services. The full description of the indicative scope of services is set out in the "CSST Scope of Services" in Appendix D to the PIM document. Regarding the Programme: Candidates should note that it is not anticipated that the Consultant will have a significant role in Ölfusárbrú. The Purchaser may choose to include further projects in the Contract by giving written notice to the Consultant.

Interna identifikacijska oznaka: GB-26-001
Vrsta postupka: Pregovarački s prethodnom objavom poziva na nadmetanje / natjecateljski uz pregovore
Postupak je ubrzan: ne
Glavna obilježja postupka: Göng og brú ohf. invites interested parties to participate in its procurement of a Client Side Support Team (CSST). The procurement is conducted as a competitive procedure with negotiation under Articles 33 and 36 of the Icelandic Public Procurement Act No. 120/2016 and consists of two phases. Phase 1: Pre qualification phase and Phase 2: Tenders phase. During the Tender phase the Tenderers submit Initial Tenders, followed by negotiations, site visits and Final Tenders. No shortlisting is anticipated after Initial Tenders. Further details will be set out in the ISIT and ISFT. SMEs are encouraged to participate as candidates, consortium members or sub consultants.

2.1.1. Svrha

Priroda ugovora: Usluge
Glavna klasifikacija (cpv): 72224000 Usluge savjetovanja na području vođenja projekta
Dodatna klasifikacija (cpv): 71244000 Kalkulacija troškova, praćenje troškova, 71310000 Savjetodavne tehničke usluge i savjetodavne usluge u građevinarstvu, 71311200 Savjetodavne usluge u području transportnih sustava, 71311300 Savjetodavne usluge u području radova na infrastrukturi, 71321100 Usluge u području ekonomike građenja, 71520000 Usluge građevinskog nadzora, 71530000 Usluge građevinskog savjetovanja, 71541000 Usluge vođenja projekta u građevinarstvu, 79411000 Usluge općeg savjetovanja na području poslovanja, 79415200 Usluge savjetovanja pri projektiranju

2.1.2. Mjesto izvršenja

Zemlja: Island
Bilo gdje u određenoj zemlji
Dodatne informacije: The estimated value of the contract is based on the full potential duration of the contract (20 years). The contract is not divided into lots as Göng og brú intends to operate as a lean organisation and requires integrated support across the programme. Resultingly, the CSST must act as a single trusted adviser, providing a consistent and coordinated service across all workstreams. Dividing the contract into separate lots would create additional interfaces between consultants, which in turn would increase complexity as well as the risk of fragmented advice. The intention is for the CSST to be established and operational in Iceland during the second half of 2027.
