5.1.9. Alkalmassági követelmények

Selekciós kritériumok forrásai: Hirdetmény

Kritérium: Pénzügyi mutató

Kiválasztási kritérium leírása: This requirement only applies to Norwegian tenderers.

Requirement: Tenderers must have their tax, payroll tax and VAT payments in order in accordance with the legal provisions and the tenderer must not have significant arrears. Any arrears or other irregularities must be justified. Documentation requirement: Tenderers shall document the requirement through the certificate "Information on tax and duties". The certificate shall be of the type "RF-1507" and not "RF-1316". Tenderers can order such a certificate from the Norwegian Tax Administration on behalf of their activities. Tenderers are asked to enclose the certificate in the tender or submit it on request. The tax certificate must not be older than six months calculated from the deadline for receipt of tenders. Read about the certificate here: <https://www.skatteetaten.no/skjema/opplysninger-om-skatt-og-avgift/>

Kritérium: Egyéb gazdasági vagy pénzügyi követelmények

Kiválasztási kritérium leírása: Requirement: Tenderers must have the financial capacity to execute the contract. The tenderer is required to be credit worthy, minimum A, in accordance with Dun & Bradstreet's service riskguardian suite (<https://riskguardian.bisnode.no/>), or have the financial capacity to execute the contract based on the contracting authority's discretion. Documentation requirement: The Contracting Authority will carry out their own assessment of the supplier's finances through RiskGuardian Suite. Tenderers can enclose other necessary information if they believe that RiskGuardian Suite does not provide a correct picture of the financial situation. The RiskGuardian Suite service includes all Nordic countries. As a general rule, the Contracting Authority will not accept credit ratings from other company and accounting information systems than RiskGuardian Suite due to equal treatment of the tenderers. Foreign tenderers outside the Nordic countries will, however, use and accept credit appraisal through Dun & Bradstreet's service Credit (<https://credit.dnb.com/>). Tenderers that the contracting authority cannot find a RiskGuardian Suite (or Credit for suppliers outside the Nordic countries), e.g. newly established tenderers who have not built up a basis for a credit rating, must enclose a declaration/guarantee from a parent company/owner/bank or similar financing institutions, regarding the company's financial and economic position.

Kritérium: Hivatkozások a meghatározott szolgáltatásokra

Kiválasztási kritérium leírása: Requirement: Tenderers are required to have experience from at least 1 delivery of KI Rota tool to a comparable public or private company of comparable size in the last two (2) years. Documentation requirement: Complete the annex "The Tenderer's experience" or other document with equivalent information. If another document is used, the response shall be maximum 1 A4 page. The response shall not include a cover page or table of contents. Any pages after page 1 will not be considered. Any links etc. in the reply will not be considered.

Kritérium: Engedély vagy tagság szükséges egy adott szervezetben a szolgáltatási szerződésekhez

Kiválasztási kritérium leírása: Is it necessary to have a particular membership in a particular organisation in order to provide the service in the tenderer's home country?

Kritérium: Minőségbiztosítási intézkedések

Kiválasztási kritérium leírása: For goods or services that are complicated or that in exceptional cases shall be used for a particular purpose: Will the tenderer allow checks of the tenderer's production capacity or technical capacity and, where necessary, of the survey and research

facilities that the tenderer has at its disposal and of quality control measures? The inspections shall be undertaken by the contracting authority or the contracting authority can leave it to a competent public body in the country where the tenderer is established.

Kritérium: Minták, leírások vagy fényképek hitelesítő tanúsítvány nélkül

Kiválasztási kritérium leírása: Procurement of goods: The tenderer presents supplies that shall be delivered, requested samples, descriptions or photographs, which do not need to be accompanied by certificates that they are genuine.

Kritérium: Minták, leírások vagy fényképek hitelesítő tanúsítvánnyal a szállítási szerződésekhez

Kiválasztási kritérium leírása: When procurement of goods: If requested, the tenderer further declares that they will deliver the requested certificates that they are genuine.

Kritérium: Minőségellenőrző intézetek által kiadott tanúsítványok

Kiválasztási kritérium leírása: Can tenderers submit the requested certificates issued by official bodies for quality control, and who can confirm that the goods, which are clearly identified by reference to technical specifications or standards, as determined in the notice or in the procurement documents, are in accordance with these?

Kritérium: Független szervezetek által kiadott tanúsítványok a minőségbiztosítási szabványokról

Kiválasztási kritérium leírása: Can tenderers submit certificates issued by independent bodies that document that the tenderer fulfils the stated quality assurance standards, including universal design requirements?

Kritérium: Független szervezetek által kiadott tanúsítványok a környezetmenedzsment rendszerekről vagy szabványokról

Kiválasztási kritérium leírása: Is the tenderer able to submit certificates issued by independent bodies as documentation that the tenderer fulfils the stated environmental management systems or standards?

5.1.10. Odaitélési szempontok

Kritérium:

Típus: Ár

Megnevezés: Price

Leírás: Orientation: Tenderers shall fill in the attached price form in their cost calculations and submit it as an annex to the tender in Excel format. All fields in the attached price form marked with yellow shall be completed. Missing the price fields can cause difficulties in assessing the tender and the tender can then be rejected. All prices are in NOK, excluding VAT, including all direct or indirect expenses and duties that could be incurred in connection with the delivery. Order fees and invoice fees are to be seen as expenses. The prices shall include all costs for the customer who is included in this competition. Costs that the tenderer knows will be incurred, but that are not specifically stated in the tender, will be seen as included in the stated costs. The implementation of licence users will be gradually and is estimated to include approx. 3,500 users. The stated volume is only used as a calculation basis in the evaluation and does not involve any obligation to buy. Evaluation: The evaluation sum over 5 years from the price form will form the basis of the evaluation of price. When assessing the price, a hybrid

model with break point 1 will be used. The attached template for the evaluation model is attached. The tenderer's total points for this award criteria is weighted with the award criteria's weighting percentage.

Értékelési szempont száma: 40

Kritérium:

Típus: Minőség

Megnevezés: The tenderer's offered system

Leírás: Orientation: Under this award criteria, an evaluation will be made on the tenderer's offered system via a digital presentation in real time where the customer can provide a selection of managers and elected representatives. This presentation must include the possibility for a customer to ask questions. During the evaluation phase the tenderer will be contacted by the customer and a team meeting will be agreed where the presentation will take place. Tenderers must be able to provide a team meeting on just a few days' notice. Tenderers shall present the following: Set up and start up how rota rules and working hours rules are recorded, administered and maintained in the system. how local agreements, special agreements and exemptions can be registered and managed how the solution handles individual exceptions or adaptations in the regulations for individual employees how the system signals deviations, breaches or risks of breaches connected to the Working Environment Act and other relevant rules. Work flow and user interface how employees register inputs, preferences and wishes in the system. how the manager or rota planner workflow is what steps must be taken before the generation of rota can be initiated how long the solution takes to generate a rota with approx. 25 lines how the system presents proposals, deviations and signals how the system takes individual requests and facilitation needs into account, for example, varying weekend frequencies. how the system prioritises between relevant considerations, including legislation and agreements, competence need, staffing plan, continuity for users or patients, fair distribution of shifts, employees' any wishes and cost efficiency. which functions or assessments must be dealt with or controlled manually. Explainability and control how the solution explains the basis for the generated rota proposal how the user can see which rules, considerations, and priorities form the basis for how proposals can be adjusted or overridden how consequences of changes are highlighted. how the system shows what requirements or considerations might not be fully fulfilled Evaluation: An overall assessment of the offered system will be carried out during the evaluation. The award criteria will be evaluated on the basis of the tenderer's presentation of the 3 above points. The contracting authority will particularly emphasise the evaluation: Set-up and rule handling A positive assessment will be made if the solution provides a simple, structured and secure way to register, administer and maintain rota rules, working hours rules, local agreements, special agreements, exemptions and individual exceptions. A positive assessment will also be made if the system clearly warns of deviations, fractures or risk of breaches and if such signals are understandable and easy to follow-up. Work flow and user friendliness An assessment will be made positive if the system has an intuitive and efficient work flow for employees, managers and rota planners. The contracting authority will emphasise how easy it is to register inputs and preferences, prepare the basis for rota generation, generate rotos, understand the proposals that are presented, and follow up deviations and signals. A positive assessment will also be made if the system greatly reduces the need for manual assessments and inspections. Prioritising, explainability and control A positive assessment will be made if the system, in a clear and verifiable manner, shows how it priorities between legislation and contracts, competence needs, manpower plan, continuity, fair distribution of shifts, employees' wishes, individual facilitation needs and cost efficiency. Furthermore, a positive assessment will be made if the solution explains why a rota proposal

has been generated, what rules and considerations form the basis, what conditions could not be completely fulfilled, and what consequences changes or overrides have. Best solution will be awarded 10 points. Other tenders will be awarded points based on a judgement of relevant quality differences compared to the best system. The tenderer's point score for the award criteria is weighted with the award criteria's stated weighting percentage. The tenderer's total points for this award criteria is weighted with the award criteria's weighting percentage.

Kategória az odaítélési szempont súlya: Súlyozás (százalék, pontos)

Értékelési szempont száma: 60

Kritérium:

Típus: Minőség

Megnevezés: Environment

Leírás: The contracting authority uses the exclusion provisions in loa § 5b third section and does not weight climate and environmental considerations in accordance with the second paragraph. The contract is assessed to have a climate footprint and an immaterial environmental impact, and this is justified below. The nature of the procurement in this case is the procurement of a KI based rota tool that shall assist with rota planning. Furthermore, the procurement involves maintenance and further development of such a tool, operation and use of the tool. The work on maintenance and further development of the tool can be compared with a consultancy service without particular travel activities and is therefore considered to have immaterial climate footprint and environmental impact. The energy consumption and any environmental impact of this system is very limited and it is aimless for the contracting authority to emphasise or set requirements in the environmental requirement specifications in this procurement. Based on this, the procurement of KI-based rota tools is assessed in accordance with immaterial climate footprint and environmental impact, and thus falls under the exception rule in loa § 5b (3).
