2.1. Procedura

Titolo: Framework Agreement Medals

Descrizione: Danish Ministry of Defence Acquisition and Logistics Organisation (DALO) is putting acquisition of medals up for a coming tender. The Danish National Police and other buyers will also be able to buy medals etc. on the coming Framework Agreement. DALO will be the contracting authority on behalf of DALO, the Danish National Police and other buyers. Medals and accessories are awarded to both military personnel and civilians as recognition for their achievements and/or for their excellent service record. A medal usually consists of a metal disc featuring a die-struck design on both sides and a ribbon or loop attached to the metal disc. The medals shall be used on the uniforms, during (military) service, for parades, ceremony events, etc. The accessories for medals are as following, but differs according to needs for the buyer: Medal Boxes Miniature Oak Leafs and miniature Arabic Numbers that can be attached to the medal ribbon Ribbon Bars Medal Holder Medals and accessories shall be produces in accordance with the buyer's technical requirements and drawings. The technical requirement(s) stipulates the use of precious metal in the form of e.g. 999 fine silver and 24-carat gold plating. The supplier shall enter into a lending contract governing its use of the buyer's production tools. The buyer shall be entitled to order the production of new production tools. The Agreement shall also cover design of new medals.

Identificativo interno: 2024/001728

Tipo di procedura: Ristretta

La procedura è accelerata: no

Caratteristiche principali della procedura: The procedure is conducted in two phases: Phase 1: Request for prequalification. Phase 2: Tender phase. This contract notice describes the requirements applicable to Phase 1. Further information regarding the procurement, including Phase 2, is set out in the tender documents. The description under the headline "successive reduction" and "that in each stage some participants may be eliminated" shall be understood as the selection of candidate to be prequalified for phase 2. Please note that each candidate may only submit one request for prequalification. As the request for prequalification the candidate must submit the European Single Procurement Document (ESPD) and Enclosure C. The candidate may rely on the capacity of other entities (e.g. a parent or sister company or a subcontractor), irrespective of the legal nature of the relations between the candidate and the

entity or entities on which the candidate relies. In this case, the candidate must ensure that an ESPD from the entity or entities on which the candidate relies is submitted along with the candidate's own ESPD. The ESPD of the entity or entities in question must include equivalent information. The candidate and, if relevant, the participants in the group of entities and/or entities on which the candidate relies, must use the ESPD, see section 148 of the Danish Public Procurement Act, as preliminary evidence that the participants are not subject to any of the mandatory exclusion grounds set out in sections 135 and 136 of the Danish Public Procurement Act, or the exclusion grounds set out in section 137(1) no. 2 [(Article 57(4) of Directive 2014/24/EU)] of the Danish Public Procurement Act, and that the candidate fulfils the suitability requirements and the selection criteria. It is not necessary for the tenderer to sign the ESPD document. If the tenderer is a group of entities (consortiums), the participants not submitting the offer must sign their ESPD document. Any entities relied on must also sign the ESPD. If a candidate relies on the capacity of other entities, the candidate shall upon request provide statements of support or other documentation proving that the candidate has access to the necessary economic and financial standing and/or technical and professional capacity, and that the entity referred to has a legal obligation to the candidate. If such documentation is not provided, DALO cannot take into account the economic and financial standing and/or the technical and professional capacity of such entity or entities. DALO has prepared a template (available in the electronic tender system) to be used to confirm the legal obligation. DALO does not pay a fee to the participants in the tender procedure.

2.1.4. Informazioni generali

Informazioni supplementari: Regarding the selection of candidates it is specified that DALO will select 5 candidates by applying the criteria stated in this contract notice, unless DALO receives no more than 5 compliant requests for participation. As part of the request to

participate, the candidate must submit a self-declaration on compliance with labour clauses, CSR obligations and international sanctions. In this connection, DALO reserves the right, at any time during the tender process, to let the candidate rectify a missing or inadequately completed self-declaration. DALO has uploaded a template (available in the electronic tender system) which must be used as declaration (see Enclosure C). Where groups of entities (e.g. consortiums), including temporary joint ventures, participate jointly in the tender procedure, the self-declaration must be submitted separately for each of the participating entities. It is pointed out that this procedure is subject to Article 5k of Regulation (EU) no. 833/2014, as amended. The provision contains a prohibition against award of contracts to Russian companies and Russian-controlled companies etc. (reference is made to Article 5k, section 1 for the exact delimitation of the operators that are subject to the prohibition). DALO reserves the right at any time during the tender process to require tenderers to prove that they are not subject to the prohibition, for example by requiring documentation regarding the tenderers' and any subcontractors' place of establishment and ownership. DALO reserves the right – but is not obliged – to use the remedies provided for in section 159(5) of the Danish Public Procurement Act if requests to participate or offers do not fulfil the requirements of the tender documents. It should be noted that irrespective of the wording of the requirements of the tender documents to the effect that information, declarations and documentation must be submitted, e.g. concerning a description of the deliverables put up for tender, DALO is not prevented from obtaining additional information, etc., pursuant to section 159(5), cf. section 159(6) of the Danish Public Procurement Act. Any questions regarding the request to participate must be submitted through the electronic tender system. Questions will be anonymised, and the answers will be posted in the electronic tender system. Questions received within the deadline stated in this contract notice, will be answered by DALO no later than 6 days before the deadline for request to participate. However, questions received later than this deadline will be answered unless the nature of the question makes it disproportionately onerous for DALO to answer six days before the deadline for request to participate. Answers to questions received later than 6 days before the deadline of the request to participate cannot be expected. Prior to decision on award of the agreement, DALO requires that the tenderer to whom DALO intends to award the agreement presents documentation for the information stated in the ESPD, see sections 151-155 of the Danish Public Procurement Act. DALO demands that the tenderer, including a group of entities, and each of the legal entities on whose economic and financial capacities the tenderer relies undertake joint and several liability for the performance of the agreement. The estimated value of the framework agreement is 5.5 mio. dkk, and the maximum value of the agreement is 16.5 mio. dkk. The reason for the difference between the stated values is the uncertainty regarding the final value of the agreement, see below. Hence, the estimated value constitutes DALO's most qualified estimate of the value of the agreement at the present moment, while the maximum value constitutes the maximum value of purchases under the agreement in its duration. Prequalified candidates will be obliged to enclose an updated notification/declaration together with the submission of their tender. The agreement is not divided into lots since a division of the agreement will undermine the economies of scale obtainable by one agreement.

5.1.9. Criteri di selezione

Fonti dei criteri di selezione: Documento di gara unico europeo (DGUE), Avviso

Criterio: Altri requisiti economici o finanziari

Descrizione del criterio di selezione: The candidate shall fulfil the following minimum

requirement: The candidate must have had positive equity in the latest financial year available.

The candidate and other entities, if any, must state the equity as a key figure in the ESPD. If the candidate is composed of a group of entities (e.g. consortium), including temporary joint

ventures, each participating entity must have had positive equity in the last financial year available. If the candidate relies on the economic and financial standing of an entity or entities (e.g. a parent or sister company or a subcontractor), each such entity or entities must have had positive equity in the last financial year available. Upon request from DALO, the candidate must submit the following documentation: Annual report or excerpts thereof stating the candidate's equity at the end of the last financial year available if publication of annual reports is required under the law of the country in which the candidate is established, and the information can be deduced from such an annual report. If not, the equity must be documented by a self-declaration from the candidate. Where groups of entities (e.g. consortiums), including temporary joint ventures, participate jointly in the tender procedure, the documentation must be provided for each of the participating entities. If the candidate relies on the economic and financial standing of another entity or other entities (e.g. a parent or sister company or a subcontractor), the documentation must also be provided for each such entity or entities. I criteri saranno utilizzati per selezionare i candidati da invitare alla seconda fase della procedura

Criterio: Riferenze su forniture specifiche

Descrizione del criterio di selezione: The selection of candidates will be based on an evaluation of which candidates have documented the most relevant previous deliveries in relation to the current agreement/procurement described in this contract notice. The candidate must use the European Single Procurement Document (ESPD) and provide the following information: A list of maximum 5 most important similar deliveries (references) carried out prior to the deadline for the request to participate. In the evaluation, DALO will take into account the nature of the previous deliveries and the time of delivery so that more recent deliveries will be deemed more relevant than older deliveries. Furthermore, DALO will take into account that the Candidates demonstrate experience with (1) massive silver materials and gold plating, and (2) hallmark stamped products (in Danish: holdighedsstempel) or similar processes. In relation to material (no. 1 above) silver 999 and 24 carat gold plating will be deemed more relevant than working with other materials (e.g. silver 925). The evaluation will be an overall assessment of the submitted references. The evaluation will be based on the list submitted by the Candidates in the European Single Procurement Document (ESPD). Please note that any ambiguities and /or incomprehensibilities in the information submitted may be regarded negatively in the evaluation when selecting the limited numbers of Candidates. The list of previous deliveries should preferably include a short description of each delivery. The description should include a clear indication of which specific parts of the deliveries that are similar to the supplies as described in this Contract Notice. The description should also include a description of the Candidates participation/role in the performance of the deliveries. The description should contain information on the date of the deliveries, the size/materials/quantity/volume and value of the deliveries, the recipients of the deliveries (specific names/countries are preferred, but not necessary, the Candidate is asked to provide as much generic information as possible). Please also indicate which materials the deliveries include, for example silver 925, silver 999 and/or 24 carat gold and also include, if the products have been hallmark stamped (in Danish: holdighedsstemplet) or stamped pursuant to similar processes. When specifying the date for the deliveries, the Candidate should state the date of commencement and completion. If this is not possible, e.g. because the delivery in question is performed on an ongoing basis according to a framework agreement, the description of the deliveries should nonetheless contain information on how the date is set. Only the deliveries (references) performed at the time of the deadline for the request to participate will be considered when assessing which candidate has documented the most relevant previous deliveries. If the delivery in question is ongoing, it is only the part of the supplies completed at the time of the deadline for the request to

participate which will be included in the assessment of the delivery (reference). Consequently, if a part of the supplies has not been completed at the time of the deadline for the request to participate, this particular part will not be included in the assessment of the delivery (reference). Therefore, it is important that the Candidate clearly states which part of an ongoing delivery (reference) that has been carried out. A Candidate may rely on the technical and professional capacity of other entities (e.g. a parent or sister company or a sub supplier), irrespective of the legal nature of the relations between the Candidate and the entity or entities on which the Candidate relies. In this case, the Candidate shall ensure that an ESPD from the entity or entities on which the Candidate relies is submitted along with the Candidates own ESPD. The entity or entities' ESPD must equally provide the information listed above. However, no more than 5 references may be stated, irrespective of whether the candidate is a single operator, whether the candidate relies on the technical capacity of other entities, or is a group of operators (e.g., a consortium). Where more than 5 references are stated, only the most recent 5 references will be taken into account. Any additional references will be disregarded. If it is not possible to decide which references are the most recent 5 references, the references will be selected by drawing lots. The Candidate will not be required to present further documentation for the technical and professional capacity (i.e. the information stated in the ESPD is considered sufficient). However, DALO reserves the right to contact the Candidate and/or the recipients of the deliveries in order to verify the information stated in Part IV, section C in the ESPD, including details on the specified dates of the performance of the deliveries.
