II.1.2. Codice CPV principale

75211200 Servizi connessi agli aiuti economici destinati a paesi terzi

II.1.3. Tipo di appalto

Servizi

II.1.4. Breve descrizione

This is a prior information notice (PIN) only: publication and call for competition will be conducted once scope of work is fully defined and approved by DFID.

The UK's Department for International Development (DFID) is preparing a new business case, climate, livelihoods and resilience, which includes LIFT and Climate and Resilience Programme (CLEAR) in Myanmar with a total value of 80 000 000 GBP over a 4-year period (2021-2024) to improve the income, nutrition and resilience of poor people in Myanmar. The BC is under design.

A partners/suppliers early market engagement workshop is planned for 12.3.2020, 3.30 p.m. at the British Embassy 80 Strand Road, Yangon, Myanmar and remotely by Skype/dial in details to follow for partners who may not be able to attend in person in Yangon.

The workshop has 2 objectives:

(i) for DFID to present the design concept of the new programme to potential partners so as to explore possible approaches and increase DFID's knowledge to finalise the BC; and
(ii) for the market to be familiar with pipeline programme and procurement; have a direct dialogue with the DFID programme and procurement team, improve understanding of DFID expectations from partners, the procurement process and forge networks amongst a range of partners.

1) LIFT. Building on the success of the existing LIFT programme DFID Myanmar aims to provide 50 000 000 GBP delivered over 4 years. LIFT is a multi-donor fund established in 2009 with the overall aim of reducing by half the number of people living in poverty that we seek to continue funding with UNOPS;

2) CLEAR. 30 000 000 GBP delivered over 4 years. This component will contribute 100 % of results to the International Climate Fund. It is being designed as a UK mechanism to test novel and innovative approaches which improve household resilience from the impacts of changing climate and environment. It will seek to provide technical assistance, grants, innovative green financing mechanisms, capacity building and systems strengthening in the areas of climate adaptation and mitigation. This will include, but not limited to climate smart agriculture, land, green finance, research and development, along with climate and environmental reforms. The programme will engage global research institutions, private sector, the Government of Myanmar, relevant parliamentary committees and civil society. The programme seeks to also provide assistance to help the Myanmar government achieve the global COP commitments, ease global warming temperatures below 2C and reduce emissions of CO2 to acceptable levels.

Following the EME DFID Myanmar's design team will finalise and submit the BC for UK ministerial approval in London. Once approved DFID plan to proceed quickly with the procurement process. On CLEAR, DFID will be seeking for interested partners and suppliers from the market to participate in the tender for programme implementation.

The partner/supplier will be expected to deliver directly through a combination of long and short term technical assistance, manage sub-grants with international and national non-governmental organisations and provide a secretariat role for donor coordination in these areas. The partner/supplier will also be required to collaborate with multilateral institutions including collaboration with the LIFT component to maximise value for money.

DFID have provided additional supporting document — a 2-pager — to provide some background of the business case design for information in advance of the workshop.

Partners/suppliers are encouraged to register on the DFID portal by 11 March latest and use the 'Dialogue/Clarification' function on the DFID Portal in advance of this meeting to raise initial questions or recommendations.

II.1.5. Valore totale stimato

Valore, IVA esclusa: 45 000 000,00 GBP

II.1.6. Informazioni relative ai lotti

Questo appalto è suddiviso in lotti: no

II.2. Descrizione

II.2.3. Luogo di esecuzione

Codice NUTS: UKM95 South Lanarkshire

II.2.4. Descrizione dell'appalto

This is a prior information notice (PIN) only: publication and a call for competition will be conducted once the scope of work is fully defined and approved.

Please register on the DFID supplier portal for this opportunity (PROJ10102) to receive all communication and updates: <https://dfid.proactisportal.com/Account/Login>

There will be an early market engagement event held on 12.3.2020. For all information regarding times and venues please ensure to access these details within the additional information provided for PROJ10102 on the DFID supplier portal. Note, there are 2 elements to registration which must not be confused with each other.

- 1) Suppliers must register their interest to PROJ10102 on the DFID supplier portal to ensure they receive all communications and updates (this is not registration to attend the event);
- 2) Within the profile of PROJ10102 on the portal, there are attachments containing additional documents which contain the link to register for the EME event.

II.2.14. Informazioni complementari
