2.1.4. Bendra informacija

Papildoma informacija: The Contracting Authority's requirements under the M400 Contracts are key components of the overall delivery programme for MetroLink. The M400 Contracts will each have a number of interfaces with the design, build, finance, operate and maintain (DBFOM) contract (the M500 Contract), the advance and enabling works contracts (the M100 Contracts) and other contracts. Any delay to the award of either or both of the M400 Contracts may result in significant delays to other contracts and to the delivery of MetroLink. The Contracting Authority reserves the right at its absolute discretion to omit, vary, reduce, extend or repackage its requirements or to do a combination of these to enable the delivery of its requirements under the M400 Contracts in a timely manner. This includes, without limitation, the right to procure directly from individual or groups of members from prequalified consortia, reducing or extending the duration of repackaged contracts and permitting changes to prequalified consortia and to take such steps as it considers appropriate in respect of the Competition subject to applicable law. MetroLink is a new metro railway to be built and operated in an integrated manner to provide a high speed, high capacity, high frequency, modern and efficient public transport service for passengers travelling along the Swords/ Dublin Airport to city centre corridor in Dublin, which will be capable of integration with other modes of public transport. MetroLink will be procured by TII through three main contracts (the M500, M401 and M402 contracts) as well as a series of smaller advance and enabling works contract packages addressing preparatory issues such as utility diversions. This contract notice relates to the M401 and M402 contracts (the M400 Contracts). The M400 Contracts civil engineering and infrastructure contracts use the NEC4 Engineering and Construction Contract (ECC), Option C form of contract. The M401 contract is designated for the southern section of MetroLink and the M402 contract is designated for the northern section of MetroLink. The M400 Contracts will be awarded in accordance with the provisions of the European Union (Award of Contracts by Utility Undertakings) Regulations 2016 (S.I. 286/2016). More information on the MetroLink project and scope of the M400 Contracts is available at www.metrolink.ie.
