Pavadinimas: NRK 2026 - 178 Framework agreement for system integration services (SI) for NRK's new production platform and main office.

Aprašymas: Nrk is faced with historical technological and organisational transformation. We are preparing to move from our traditional main office at Marienlyst to a completely new and future oriented head office at Normannsløkka (Ensjø) in Oslo. As a central part of this, NRK is building a new, comprehensive IP based production platform (Modernised Production Platform - MPP) based on the SMPTE ST 2110 standard. In order to ensure a safe, precise and cost efficient transition, NRK invites tenderers to a competition for a framework agreement for professional system integration services (SI services). We are looking for strategic partners who can take full responsibility and who can demonstrate heavy experience from large, mission critical and IP based media production installations, or equivalent complex projects in other sectors.

Procedure and frameworks procurement procedure: Negotiated procedure after a prior notice. The competition will be held in two stages. In Stage

1 (the qualification phase), NRK will select 5 to 12 of the most suitable tenderers to be invited to Stage 2 (the tender phase and negotiations). Contract period: The framework agreement has a duration of two years, with a unilateral option for NRK to extend for up to 1+1 year (the maximum total length is 4 years). Maximum economic framework: To ensure flexibility in a complex project, the absolute maximum limit (the roof) for all call-offs under the framework agreement is set at NOK 1.4 billion, of which up to NOK 400 million is for products, systems and systems. NRK is looking forward to partnering with competent and forward leaning actors who will help build the future public broadcaster!
