Paslaugos

1. Pirkėjas

1.1. Pirkėjas

Oficialus pavadinimas: National Transport Authority_1149

E. paštas: procurement@nationaltransport.ie

Pirkėjo teisinė forma: Centrinės valdžios institucija

Perkančiosios organizacijos veiklos sritis: Bendrosios viešosios paslaugos

Perkančiojo subjekto veiklos sritis: Miesto geležinkelio, tramvajų, troleibusų ar autobusų paslaugos

2. Procedūra

2.1. Procedūra

Pavadinimas: Near Field Communications System

Aprašymas: The Authority has awarded the contract entitled “Provision of Near Field Communications System” to Vix Technologies UK Ltd, with Snapper Services Ltd as a subcontractor for a period of four years. The Authority requires ongoing maintenance, support and development of the existing Near Field Communications system supplied since 2014 by Vix Technologies UK Ltd. The scope of the Near Field Communications contract covers development of mobile apps, the development and provision of back-end systems, integration with the Leap Card system, integration with NTA’s payment gateway provider, integration with NTA’s mobile analytics provider, reporting, and ongoing support and maintenance for the overall solution. The Authority requires a continued delivery of Near Field Communication services to enable Leap Card customers to install and use a mobile phone app to check and top-up their Leap Card balance. Continuation of the current services requires a highly-specialised combination of skills encompassing: • mobile app development, with Near Field Communications expertise, • Amazon Web Services development and support, • Smart card ticketing including MIFARE DESFire commands, • Leap-specific encryption, which is necessary in order to maintain the required • interoperability of the System with the existing Leap environment. The services envisaged by this notice are intended as an interim solution, as the Authority has separately concluded a contract for Next Generation Ticketing, which ticketing approach will ultimately render the Near Field Communication-based ticketing obsolete.

Procedūros identifikatorius: b274af46-0416-4d27-9e21-6cff37bbe8be

Vidaus identifikatorius: NTA-001

Pirkimo būdas: Derybos be išankstinio skelbimo apie pirkimą

Pagrindiniai procedūros ypatumai: The Authority has awarded the contract entitled “Provision of Near Field Communications System” to Vix Technologies UK Ltd, with Snapper Services Ltd as a subcontractor for a period of four years. The Authority requires ongoing maintenance, support and development of the existing Near Field Communications system supplied since 2014 by Vix Technologies UK Ltd. The scope of the Near Field Communications contract covers development of mobile apps, the development and provision of back-end systems,

integration with the Leap Card system, integration with NTA's payment gateway provider, integration with NTA's mobile analytics provider, reporting, and ongoing support and maintenance for the overall solution. The Authority requires a continued delivery of Near Field Communication services to enable Leap Card customers to install and use a mobile phone app to check and top-up their Leap Card balance. Continuation of the current services requires a highly-specialised combination of skills encompassing: • mobile app development, with Near Field Communications expertise, • Amazon Web Services development and support, • Smart card ticketing including MIFARE DESFire commands, • Leap-specific encryption, which is necessary in order to maintain the required • interoperability of the System with the existing Leap environment. The services envisaged by this notice are intended as an interim solution, as the Authority has separately concluded a contract for Next Generation Ticketing, which ticketing approach will ultimately render the Near Field Communication-based ticketing obsolete. Service provision by the original supplier under the strict conditions stated in Regulation 32 - Use of negotiated procedure without prior publication in the 2016 Public Authority Contracts Regulations. The current contract for the Provision of the Near Field Communications System is comprised of elements that are proprietary to Vix Technologies UK Ltd integrated with elements that are bespoke to, and owned by, NTA. Vix Technologies UK Ltd specifically designed and implemented the system, including a back-end processing system, integrated with NTA's bespoke Leap card format, card data structures, transaction format and data encryption algorithm. Vix Technologies UK Ltd has also maintained the system throughout the entire term of the contract. As Vix Technologies Ltd has designed and maintained the system, and owns a substantial portion of its intellectual property, only they have the necessary expertise and ability to continue to provide the services, including the current and the additional services, that will be required under the new Direct Award contract. A procurement process to appoint a supplier other than Vix Technologies UK Ltd would require commissioning of a new system and result in both significant inconvenience to the Authority, potential disruption to Leap Card customers, as well as a substantial duplication of costs to replicate previously achieved Leap and third party supplier integrations

2.1.1. Tikslas

Sutarties objektas: Paslaugos

Pagrindinis klasifikacijos kodas (cpv): 64212000 Viešojo judriojo telefono ryšio paslaugos

Kiti klasifikacijos kodai (cpv): 30144200 Bilietu išdavimo mašinos, 32573000 Ryšių valdymo sistema, 34980000 Transporto bilietai, 72416000 Taikomųjų programų paslaugų teikėjai

2.1.2. Sutarties vykdymo vieta

Šalies administracinis vienetas (NUTS): Dublin (IE061)

Šalis: Airija

Papildoma informacija: The Authority has awarded the contract entitled "Provision of Near Field Communications System" to Vix Technologies UK Ltd, with Snapper Services Ltd as a subcontractor for a period of four years. The Authority requires ongoing maintenance, support and development of the existing Near Field Communications system supplied since 2014 by Vix Technologies UK Ltd.
