2.1. Procedūra

Pavadinimas: Monitoring and press service

Aprašymas: The procurement consists of two (2) delivery areas. Delivery area 1: Media monitoring and analysis. The procurement is for media monitoring and media analysis for Norsk Tipping. The aim is to ensure access to a comprehensive system for monitoring, collection and analysis of editorial and other relevant content across a broad spectrum of media channels, including printed and digital media, radio, TV, podcasts, blogs, vloggers as well as publications from political parties, organisations and other relevant interest groups. Norsk Tipping needs an analysis tool that can measure and analyse media coverage, including scope, thematic and denominations. The system shall support simple reporting and extracting data in a user friendly and visually accessible format. Delivery area 2: Press release service. The procurement includes press service and a press portal for Norsk Tipping. The system shall facilitate the distribution of press releases and other information to the media through updated address lists and subscriber systems, as well as provide an opportunity to measure the response and range of sent materials. Furthermore, the solution shall include a press portal adapted to Norsk Tipping's website, where press releases, pictures, documents and other relevant press material can be collected, published and made available to the press and other interested parties.

Aprašymas: Norsk Tipping shall implement a procurement of Media Monitoring and Analysis.

The nature of the procurement is services, i.e. implementation of quantitative and qualitative assistance, typical desk work both at the supplier and at the contracting authority. The contracting authority estimates that the work to be carried out does not involve travel activities.

The main service is the consultant's work effort. In order to map the climate footprint and other forms of environmental impact from the nature of consultancy services, the contracting authority expects that a consultant's climate footprint and environmental impact will be equal to the load from an average permanent employee. It is the employee's need for office space and equipment, the energy consumption in the building that the consultant/consultant works in, travel for work, and waste generation that contributes to the employee's climate footprint and environmental impact. The contracting authority, however, estimates that none of the above elements fall within the nature of the procurement, which is a consultancy service/consultancy service. The elements that are related to the species, i.e. the assistance provided and the report to be produced, lead to an immaterial climate footprint and an immaterial environmental impact. Based on the above, the contracting authority will use the exclusion provision in the procurement regulations § 7-9 fifth section, as the procurement is justified in accordance with nature to have a climate footprint and an environmental impact that is immaterial. The contracting authority is therefore exempt from the obligations to weight the environment 30% or to prioritise the environment among the three highest prioritised award criteria.
