Aprašymas: In this procurement, the environmental award criteria is not weighted by 30%.

This is in accordance with the exclusionary provision in the Public Procurement Regulations § 7-9 fifth paragraph. The reason is that the procurement concerns the establishment of a digital system that shall be operated internally in the Contracting Authority's environments and that has a climate footprint and an environmental impact that is considered immaterial. The system itself is not physical and does not involve any considerable use of resources beyond normal IT infrastructure. It is, therefore, not appropriate to set separate environmental criteria for the award.
