Aprašymas

:

A recurrence of the experience requirement has been discovered in the ESPD form under the qualification requirements. Point C "Technical and professional qualifications" requires a description of experience, both in the field "Only for services" and under a separate point for "Experience Requirements". This was because a boilerplate text was not removed when setting up the competition by an error. The default text has now been removed. Experience is therefore only required: C: Technical and professional qualifications Services only Only for services: In the reference period, the tenderer has carried out the following important goods deliveries of the requested type, or the following important services of the requested type. The contracting authority can require up to three years experience and allow experience from the previous three years to be taken into consideration. Minimum qualification requirements The tenderer is required to have experience from assignments of equivalent complexity and scope to the assignment in question. The tenderer's experience must be verified by the contracting authority. A minimum of three relevant reference assignments must therefore be given that the tenderer has carried out. The reference assignments shall not be older than five years from the tender deadline. The contracting authority's name as well as contact information (telephone number and email address).
