Norvegija – Akvakultūros paslaugos – Hire and operation of an educational licence in aquaculture.

OJ S 173/2026 08/09/2026

Skelbimas apie pirkimą arba koncesiją. Įprasta tvarka
Paslaugos

1. Pirkėjas

1.1. Pirkėjas

Oficialus pavadinimas: Troms Fylkeskommune

E. paštas: postmottak@tromsfylke.no

Pirkėjo teisinė forma: Viešosios teisės reglamentuojama įstaiga, kontroliuojama regioninės valdžios institucijos

Perkančiosios organizacijos veiklos sritis: Bendrosios viešosios paslaugos

2. Procedūra

2.1. Procedūra

Pavadinimas: Hire and operation of an educational licence in aquaculture.

Aprašymas: Background Troms county is the school owner responsible for providing sixth form education that is relevant for working life's competence needs. The aquaculture industry is an important industry in the region and has a continual need for qualified labour. The contracting authority would therefore like to strengthen recruitment to the industry through a comprehensive and practical training offer at Stangnes Rå sixth form college. For pupils in their education in nature use, it is decisive that education gives a good connection between joint subjects, programme subjects and vocational in-depth studies. The contracting authority sees a need for a significant part of the practical training to be carried out in real-world operational environments, so that pupils have experience with work assignments, equipment and framework terms that are representative of the aquaculture industry. The contracting authority would like to apply for a permit for the farming of fish and trout farming as a central instrument. If a licence is granted, it shall be rented out to and operated by the chosen tenderer on behalf of the Contracting Authority. The procurement shall allow the school from the school year 2026-2027 to offer training of high professional quality, relevant practice and close connection between school and work life. The contracting authority has overall responsibility for the pupils' training. To achieve the objective of the procurement, close interaction between the school and the tenderer is necessary, so that education, practice and operation are seen in connection with and support the current curriculum goals. Description of the assignment The procurement concerns the choice of tenderer who, if granted a teaching permit, shall hire and operate the educational permit for the farming of fish from salmon and trout on behalf of the Contracting Authority. At the same time, the tenderer shall contribute to implementing practical training for pupils at Stangnes Rå sixth form college. The assignment includes access to fish farming facilities, necessary equipment, relevant operational arenas and instructors with competence in aquaculture. The tenderer shall, in cooperation with the contracting authority, facilitate practical training that supports the current curriculum goals and the school's educational system. A close and binding cooperation shall be established between the tenderer and the Contracting Authority on planning, implementing and coordinating the training. The aim is to ensure general training where pupils' learning in

schools and practice are seen in context, and where the training is carried out within proper professional and operative frameworks. The assignment initially includes assistance with training for Vg1 Nature use from the school year 2026-2027. In addition an option is included on equivalent assistance for Sixth Form College, provided that political clarification of the organisation of this tender is later clarified.

Vidaus identifikatorius: cmolepqr3000004js1v9ezne6

Pirkimo būdas: Atviras

Procedūra pagreitinta: ne

Pagrindiniai procedūros ypatumai: This procurement is for the Public Procurement Act dated 17 June 2016 (LOA) and the concession contract regulations dated 12 August 2016 (the concession contract regulations) parts I and II. The Concession Contract Regulations' parts I and II give the contracting authority a scope of action for how the procurement shall be carried out. Within the framework of this scope of action, the contracting authority shall itself set rules for the execution of the procurement. The procurement will be carried out in accordance with the Public Procurement Act of 17 June 2016 (LOA) and the Public Procurement Regulations (FOA) FOR 2016-08-12-974, parts I and part III. All interested suppliers can submit tender offers through Hyrr. The competition does not have a prequalification phase. The tenders will be evaluated directly, and dialogues or negotiations will not be allowed beyond minor clarifications and corrections of the tenders. Tenderers are strongly encouraged to follow the instructions given in this tender documentation with annexes and possibly ask questions about uncertainties in the communication module in Hyrr.

Kriterijus:

Rūšis: Kokybė

Pavadinimas: Quality

Aprašymas: Under this criteria, associated requirements will be assessed.

Kategorija skyrimo kriterijaus svoris: Lyginamasis svoris (procentinė dalis, tikslus skaičius)
Skyrimo kriterijus: skaičius: 60

Kriterijus:

Rūšis: Kokybės

Pavadinimas: Climate and environment

Aprašymas: The procurement is under the CPV code on main level 80 Services for training and education. This procurement category has been assessed by the Norwegian Directorate for Management and Financial Management (DFØ) to have a low climate intensity with less than 20 tonnes of CO2-ekv. per million NOK, ref. The climate and environmental risk list | Anskaffelser.no. DfØ has carried out a general mapping of procurements with low climate intensity and, as a result of this work, have assessed vocational and vocational training to be a procurement that, according to its nature, has climate footprint and environmental impact that is immaterial, ref. Guidelines for rules on climate and environmental considerations in public procurements - 7. Procurements that are of their nature have immaterial climate footprint and environmental impact | Anskaffelser.no. A written market dialogue carried out at the end of 2025 did not identify elements that had sufficient connection to deliveries or that were suitable for separating tenderers at the award of contract. The procurement is assessed in a lifetime perspective. It is considered that none of the elements where any climate footprint and environmental impacts are associated will fall within the procurement nature that is vocational education in sixth form colleges. The significant climate and environmental impacts from a fish farm are assessed not to be connected to the teaching objective. These climate footprints and environmental impacts are assessed to be outside what can be connected to the nature of the procurement. Based on the above sections, it is estimated that the procurement has a climate footprint and an environmental impact that is immaterial and the obligation to set requirements or criteria does not apply, cf. the Public Procurement Regulations §7-9 (5).
