Aprašymas: Climate and environment are not used as an award criterion. Zero-emission vehicles are required as an absolute minimum requirement in Appendix 1 Annex 1 Customer's Requirements Specification, requirement A33, cf. section 5b second paragraph of the Norwegian Public Procurement Act. An absolute minimum requirement secures the climate and environmental effect regardless of which supplier is awarded the contract, whereas a weighted criterion could be outweighed by price. In addition, the procurement by its nature has an insignificant climate footprint and environmental impact, cf. section 5b third paragraph, as the services are personnel-intensive and vehicle use is limited to mobile guarding, escort services and call-outs.
