Nosaukums: Evaluation of the African Guarantee Fund and Denmark's contribution

Apraksts: The African Guarantee Fund - for Small and Medium-sized Enterprises Ltd (AGF) is a non-bank financial institution established to enhance access to finance for small and medium-sized enterprises (SMEs) across Africa. Its activities include the provision of guarantees to financial institutions and capacity development support to both lenders and SMEs. AGF was one of five concrete initiatives recommended by the Commission on Effective Development Cooperation with Africa in 2010, and has now been in operation for almost 15 years. Denmark was a founding shareholder and has supported the AGF through a combination of shareholder capital, grant financing, and representation on the board. A 2016 evaluation of the results of the Africa Commission included an early assessment of AGF, which found the AGF to be relevant, innovative, and on a promising path, with rapid portfolio growth, strong interest from partner banks, and early indications that participating banks had increased the SME lending portfolio. At the same time, the evaluation noted that AGF was still at an early stage of implementation, and that systematic data on SME-level outcomes, employment effects, financial additionality, and long-term sustainability were not yet available, limiting the scope for assessing broader impacts. It also highlighted a key strategic challenge going forward: balancing the goal of becoming a self-sustaining, market-oriented guarantee fund with the need to expand into higher-risk markets and partner with lower-tier banks in order to maximise development impact. Since then, the AGF has expanded significantly in scale and geographical reach, and has progressively developed its monitoring and evaluation systems, while a longer operational time horizon now provides a much stronger basis for assessing outcomes, additionality, sustainability and longer-term impacts. To document results and draw lessons from AGF's experience and the Danish support hereto, the Department for Evaluation, Learning and Quality (LEARNING) of the Danish Ministry of Foreign Affairs (MFA) has therefore decided to commission an evaluation. The overall purposes of the evaluation are to document and assess: (1) The contribution of the AGF to improving access to finance for SMEs in Africa and to generating associated development outcomes; and (2) The contribution and added value of Danish support to the AGF. And, based on this, draw lessons for AGF's future strategy and operations, for future Danish support to the AGF specifically, and for future Danish support to SME development in Africa through blended finance instruments. The

objectives of the evaluation are to: (1) Establish a structured and analytically grounded mapping and characterisation of AGF's institutional model, blended finance architecture, portfolio evolution and positioning within the broader SME finance ecosystem as well as of Danish support to the AGF; (2) Assess, across time and geographical contexts, AGF's relevance in addressing SME financing constraints; coherence with other initiatives in the SME finance space; success in mobilising private capital to support SME finance; and financial sustainability; (3) Assess the contribution and added value of Danish support, including capital, concessional grant funding, and governance engagement; (4) Generate credible quantitative evidence on the results of AGF-supported guarantees and capacity development in two country contexts, considering both financial and development additionality, and outcomes at both SME, PFI and broader SME finance market level; (5) Identify contextual, institutional, and design factors that explain observed results and variation across countries, instruments, and institutional settings; (6) Formulate lessons learned and forward-looking, evidence-based recommendations to inform AGF's future strategy and Denmark's future engagement with the AGF and guarantee-based blended finance instruments more broadly.

Procedūras galvenās iezīmes: Access to the procurement procedure requires online registration. Guidance (in Danish and English) on the use of the tendering system can be found at: <https://mercell.atlassian.net/servicedesk/customer/portal/3/article/177996038?src=1869524006> Economic operators may only submit one application (request to Participate) or tender. Economic operators must submit a European Single Procurement Document (ESPD) as preliminary evidence, that the economic operator is not subject to exclusion grounds and that the economic operator fulfils the requirements for economic and financial standing and technical and professional ability. When the economic operator is participating together with others or if the economic operator relies on the capacity of other entities, each participating economic operator must provide a separate ESPD. In Part III.A-C of the ESPD, economic operators must answer whether they are subject to exclusion grounds, listed in section 2.1.6 of this contract notice. An economic operator is not required to answer whether it is subject to purely national exclusion grounds, cf. Part III.D of the ESPD. The contracting authority has a maximum budget of DKK 4,500,000 net of VAT in relation to the procurement. Tenders will be rejected if they exceed the contracting authority's maximum budget. The assignment will include evaluation of Danida-funded projects/programmes. Therefore, economic operators must submit declarations of prior and ongoing involvement from the economic operator and each involved Key Staff. Decisions on whether a conflict of interest or unfair competition exists rest with the contracting authority and are made on a case-by-case basis. Economic operators will not receive remuneration for their participation in the procedure.

Papildu informācija: The evaluation will include country-level analyses, designed to assess the results of AGF-supported guarantees and capacity development in terms of access to finance, enterprise performance, employment, and related outcomes which address the OECD-DAC criteria of effectiveness and impact. This will include an examination of how AGF's specific blended finance model influences results. The other case country is expected to be in West Africa, and shall be determined during the inception phase (tenderers should budget for Côte d'Ivoire).

2.1.3. Vērtība

Paredzamā vērtība bez PVN: 4 500 000,00 DKK

2.1.4. Vispārīga informācija

Papildu informācija: In the tender, economic operators must submit a completed and signed statement regarding Article 5k(1) of Council Regulation (EU) No 833/2014 of 31 July 2014 concerning restrictive measures in view of Russia's actions destabilising the situation in Ukraine, as amended by Council Regulation (EU) No 2023/1214 of 23 June 2023. The contract cannot be awarded to a tenderer subject to Article 5k(1) of Council Regulation (EU) No 833/2014 of 31 July 2014, as amended by Council Regulation (EU) No 2023/1214 of 23 June 2023. Before the time limit for receipt of tenders, the candidates, which the contracting authority has invited to tender, must present documentation of the information provided in the ESPD. The contracting authority can accept the following documentation in relation to the exclusion grounds in sections 135(1), 135(3) and 137(1)(2) of the Danish Public Procurement Act (in order of priority): (1) Extracts from the relevant register or similar documents issued by a competent judicial or administrative authority or certificates issued by the competent authority in the country referred to as documentation that the tenderer is not subject to the grounds for exclusion stipulated in sections 135(1), 135(3) and 137(1)(2); (2) A declaration on oath (only if such extracts, certificates or similar documents are not issued in the country where the economic operator is established, or where the documentation does not cover all the grounds for exclusion stipulated in sections 135(1), 135(3) and 137(1)(2) entirely); (3) A solemn declaration made by the person concerned before a competent judicial or administrative authority, a notary or a competent professional or trade body, in the country of origin or in the country where the economic operator is established (only if there is no provision for declarations on oath in the country where the economic operator is established). Thus, the contracting authority cannot accept e.g. a solemn declaration made before a notary if there can be issued a certificate by the competent authority in the country where the economic operator is established. Moreover, the contracting authority cannot accept self-declarations or similar declarations issued by the economic operator or the person concerned as documentation in relation to the exclusion grounds. Economic operators can identify the relevant documentation using the online platform e-Certis: <https://ec.europa.eu/tools/ecertis>. If an economic operator is entered on an official list of approved economic operators or has an

equivalent certificate (e.g. under a national (pre)qualification system), the economic operator may refer to the list in question or present a certificate issued by the competent authority instead of documentation of the information provided in the ESPD. When an economic operator is participating in the procurement procedure together with others, the economic operator must present a joint statement from all the participating economic operators which identifies the member of the group who can act as an agent on behalf of the group with mandate to establish a legal obligation on behalf of the group in relation to the contracting authority. Economic operators are encouraged to submit all necessary documentation as early as possible. Prior to the signing of the contract, the tenderer, which the contracting authority has awarded the contract to, must present statements of availability from all non-permanent staff (e.g. project specific consultants or freelance consultants). This contract has not been divided into lots, cf. section II.1.6), due to market and economic considerations.

Šis iepirkums ir piemērots arī maziem un vidējiem uzņēmumiem (MVU): jā

Papildu informācija: In the tender, economic operators must submit a completed and signed statement regarding Article 5k(1) of Council Regulation (EU) No 833/2014 of 31 July 2014 concerning restrictive measures in view of Russia's actions destabilising the situation in Ukraine, as amended by Council Regulation (EU) No 2023/1214 of 23 June 2023. The contract cannot be awarded to a tenderer subject to Article 5k(1) of Council Regulation (EU) No 833/2014 of 31 July 2014, as amended by Council Regulation (EU) No 2023/1214 of 23 June 2023. Before the time limit for receipt of tenders, the candidates, which the contracting authority has invited to tender, must present documentation of the information provided in the ESPD. The contracting authority can accept the following documentation in relation to the exclusion grounds in sections 135(1), 135(3) and 137(1)(2) of the Danish Public Procurement Act (in order of priority): (1) Extracts from the relevant register or similar documents issued by a competent judicial or administrative authority or certificates issued by the competent authority in the country referred to as documentation that the tenderer is not subject to the grounds for exclusion stipulated in sections 135(1), 135(3) and 137(1)(2); (2) A declaration on oath (only if such extracts, certificates or similar documents are not issued in the country where the economic operator is established, or where the documentation does not cover all the grounds for exclusion stipulated in sections 135(1), 135(3) and 137(1)(2) entirely); (3) A solemn declaration made by the person concerned before a competent judicial or administrative authority, a notary or a competent professional or trade body, in the country of origin or in the country where the economic operator is established (only if there is no provision for declarations on oath in the country where the economic operator is established). Thus, the contracting authority cannot accept e.g. a solemn declaration made before a notary if there can be issued a certificate by the competent authority in the country where the economic operator is established. Moreover, the contracting authority cannot accept self-declarations or similar declarations issued by the economic operator or the person concerned as documentation in relation to the exclusion grounds. Economic operators can identify the relevant documentation using the online platform e-Certis: <https://ec.europa.eu/tools/ecertis>. If an economic operator is entered on an official list of approved economic operators or has an equivalent certificate (e.g. under a national (pre)qualification system), the economic operator may refer to the list in question or present a certificate issued by the competent authority instead of documentation of the information provided in the ESPD. When an economic operator is participating in the procurement procedure together with others, the economic operator must present a joint statement from all the participating economic operators which identifies the member of the group who can act as an agent on behalf of the group with mandate to establish a legal obligation on behalf of the group in relation to the contracting authority. Economic operators are encouraged to submit all necessary documentation as early as possible. Prior to the signing of the contract, the tenderer, which the contracting authority has awarded the contract to, must present statements of availability from all non-permanent

staff (e.g. project specific consultants or freelance consultants). This contract has not been divided into lots, cf. section II.1.6), due to market and economic considerations.

5.1.9. Atlases kritēriji

Atlases kritēriju avoti: Paziņojums

Kritērijs: Vidējais gada apgrozījums

Atlases kritērija apraksts: The economic operator is required to have an average yearly turnover of minimum DKK 9,000,000 for the last 2 financial years available (where the economic operator can present annual reports). When the economic operator is participating in the procurement procedure together with others (e.g a consortia or joint venture) or if the economic operator relies on the capacity of other entities, it is required that the participating economic operators or the economic operator and the entities referred to altogether meet the selection criteria. Each involved economic operator or entity must submit a completed ESPD and the participating economic operators or the entities referred to are subject to joint and several liability for the performance of the contract. The contracting authority can accept annual reports or excerpts hereof or relevant statements from a bank or certified accountant as documentation in relation to the economic and financial standing. When an economic operator is participating in the procurement procedure together with others or when an economic operator relies on the economic and financial standing of other entities, the economic operator must also provide statements of support or other documentation proving that the economic operator has access to the necessary economic and financial standing. The statements of support must establish a legal obligation for the party concerned and state that the involved economic operators or entities are subject to joint and several liability for the performance of the contract.

Kritērijs: Atsauksmes par noteiktām pakalpojumiem

Atlases kritērija apraksts: The economic operator is required to have performed (entered into, ongoing or finalized) minimum 1 contract regarding an evaluation or assessment of development cooperation using a quasi-experimental design or other rigorous quantitative causal identification strategies within the last 5 years. When the economic operator is participating in the procurement procedure together with others (e.g. a consortia or joint venture) or if the economic operator relies on the capacity of other entities, it is required that the participating economic operators or the economic operator and the entities referred to altogether meet the selection criteria, that each involved economic operator or entity submits a completed ESPD and that the specific parts of the contract must be performed by the economic operators or entities with the required technical and professional abilities. The economic operator must fill in a list of maximum 5 contracts (i.e. from all involved economic operators in a group of economic operators and/or other supporting entities). If an economic operator has listed more than 5 contracts, the contracting authority will only read and assess the 5 most recent contracts listed (first based on end date, and then based on start date). Each listed contract should include the following information: (1) a description of the contract (nature and quantity of services from the economic operator and how they compare to the description of this procurement), (2) amount (remuneration received by the economic operator for the performance of the services), (3) start date (date of conclusion of the contract), (4) end date (date of completion of services), and (5) recipient (name and contact information). The contracting authority reserves the right to contact the recipients of services or require statements from the recipients, confirming that the economic operator has performed the listed contracts, as documentation in relation to the technical and professional ability. When an economic operator is formed by a group of economic operators or relies on the technical and professional abilities of other entities, the economic operator must also provide statements of

support or other documentation proving that the economic operator has access to the necessary technical and professional abilities. The statements of support must establish a legal obligation for the party concerned and state the parts of the contract to be performed by the party concerned.

Kritērijs: Atsauksmes par noteiktām pakalpojumiem

Atlases kritērija apraksts: If more than 5 economic operators fulfil the minimum requirements to economic and financial standing and technical and professional ability, the candidates will be selected on the basis of the information concerning technical and professional ability. In the selection, the contracting authority will specifically emphasise: (1) The number of relevant contracts (i.e., contracts that fulfil the minimum requirements to technical and professional ability); (2) The extent to which the performed contracts compare to the description of this procurement, including: (a) the extent to which the performed contracts concern evaluations or other assessments of SME finance or credit markets in Africa, including analysis of market functioning, constraints or effects of interventions; (b) the extent to which the performed contracts concern evaluations or assessments of guarantee instruments or other credit market instruments in developing country contexts; (c) the extent to which the performed contracts concern evaluations or assessments using administrative financial and SME sector data in an African context.
