2.1. Procedūra

Nosaukums: DoV Framework agreement Tunnel and rock protection 2026-2028

Apraksts: The Norwegian Public Roads Administration Operations and Maintenance invites tenderers to a competition for the following contract work: Framework agreement for tunnel and rock protection for Trøndelag, Møre og Romsdal. The contract includes cleaning and bolting protection, establishing of new and improving existing water and frost protection in tunnels, clearing and bolt protection in cuttings, establishing different types of meshes (ice nets, erosion network etc.), improvements and establishment of new security measures in the open air on European and national roads. in Trøndelag, Møre og Romsdal. The measures will vary in extent. Outside of general processes, a couple of concrete projects are described to be carried out: TR01: E6 Kvam – clearing and work protection cutting. Modification of the existing network TR02: E6 Cleansed - clearing and work securing cutting. Assembly of an ice network. TR03: E39 Søvassdalen - clearing and work securing cutting. Assembly of an ice network. MR01:E39 Brusdalen – clearing and work securing cutting. MR03: E136 Sørnes tunnel – Rensk and securing, establishment of a new water-frost protection vault. Consideration shall be given to set timetables for public transport. Routines must be established. for emergency emergency services. All traffic deviations/driving vehicles in tunnels shall be carried out for work. passing must be clarified by the traffic conductor with work teams in the tunnel before emergency services are released. through. There will be a lot of focus on the contract work notification as the work is ongoing on the existing road network. The location of the traffic conductor shall always be risk assessed in the contractor's work warning plan. The contracting authority would like parallel framework agreements with up to 3 contractors per area, based on which tender is best in accordance with the award criteria.

2.1.6. Izslēgšanas iemesli

Izslēgšanas iemeslu avoti: Paziņojums

Korupcija: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, by enforceable judgement been convicted of corruption by a verdict handed down not more than five years ago, or a rejection period determined directly in the judgement that still applies? Corruption as defined in Article 3 of the Convention on Combating Corruption, involving European Communities or European Union member states (EUT C 195 of 25.6.1997, s. 1), and in Article 2, point 1, in the Council's framework decision 2003/568/RIA of 22 July 2003 on combating corruption in the private sector (EUT L 192 of 31.7.2003, p. 54). This rejection reason also includes corruption as defined in national law for the contracting authority or supplier.

Krāpšana: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, at the time a legally convicted of fraud has been convicted of fraud by a verdict handed down not more than five years ago, or a rejection period determined directly in the judgement that still applies? Fraud included in Article 1 of the Convention on protection of the Financial Interests of the European Communities (EFT C 316 of 27.11.1995, p. 48).

Nelikumīgi iegūtu līdzekļu legalizēšana vai teroristu finansēšana: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, in the event a legal verdict has been convicted of money laundering or financing terrorism by a verdict handed down no more than five years ago, or a rejection period set out directly in the judgement that still applies? Money laundering or financing terrorism As defined in Article 1 of the European Parliament and Council Directive 2005/60/EF of 26 October 2005 on preventive

measures against the use of the financial system for money laundering and financing terrorism (EUT L 309 of 25.11.2005, p. 15).

Dalība noziedzīgā organizācijā: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, at the time a legally convicted verdict of participation in a criminal organisation by a verdict handed down no more than five years ago, or a rejection period set out directly in the judgement that still applies? Participation in a criminal organisation as defined in Article 2 of the Council's framework decision 2008/841/RIA of 24 October 2008 on control of organised crime (EUT L 300 of 11.11.2008, p. 42)

Teroristu nodarījumi vai nodarījumi, kas saistīti ar teroristu darbībām: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body, or has the competence to represent or control or make decisions in such bodies, in the event a legal verdict has been convicted of acts of terrorism or criminal acts connected to terrorist activities by a verdict handed down no more than five years ago, or a rejection period set directly in the judgement that still applies? Acts of terrorism or criminal acts relating to terrorist activity as defined in Article 1 and 3 of the Council's framework decision 2002/475/RIA of 13 June 2002 on combating terrorism (EFT L 164, af 22.6.2002, p. 3). This rejection reason also includes incitement to, participation or attempts to commit such actions as included in Article 4 in the mentioned framework decision.

Bērnu darbs un citi cilvēku tirdzniecības veidi: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, in the event a legal verdict has been convicted of child labour and other forms of human trafficking by a verdict handed down no more than five years ago, or a rejection period determined directly in the judgement that still applies? Child labour and other forms of human trafficking as defined in Article 2 of the European Parliament and council directive 2011/36/EU of 5. 1 April 2011 on the prevention and control of human trafficking and the protection of its victims and for compensation of the Council's framework decision 2002/629/RIA (EUT L 101 of 15.4.2011, p. 1).

Pienākumu neizpilde vides tiesību jomā: Is the tenderer aware of breaches of environmental provisions as stated in national law, the relevant notice or procurement documents or Article 18 (2) of Directive 2014/24/EU.

Pienākumu neizpilde darba tiesību jomā: Is the tenderer aware of breaches of provisions on working conditions as stated in national law, the relevant notice or procurement documents or Article 18 (2) of Directive 2014/24/EU.

Pienākumu neizpilde sociālo tiesību jomā: Is the tenderer aware of breaches of provisions on social conditions as stated in national law, the relevant notice or procurement documents or Article 18 (2) of Directive 2014/24/EU.

Nolīgumi ar citiem ekonomikas dalībniekiem, kuru mērķis ir izkropļot konkurenci: Has the tenderer entered into agreement(s) with other tenderers with the intention of turning the competition?

Smags pārkāpums saistībā ar profesionālo rīcību: Has the tenderer committed serious errors in professional practice? If relevant, see the definitions in national law, the relevant notice or procurement documents.

Nepatiesas informācijas sniegšana, informācijas noklusēšana, nespēja sniegt pieprasītos dokumentus vai iegūta konfidenciāla informācija šajā procedūrā: Have the tenderer: a) given grossly incorrect information when notifying the information required to verify that there is no basis for rejection, or of the qualification requirements being met, b) failed to provide such information, c) subject to immediately submitting the supporting documents requested by the Contracting Authority, or d) improperly affecting the Contracting Authority's decision process to

acquire confidential information that could give this an unlawful advantage in connection with competition, or negligently has given misleading information that can have a significant influence on decisions on rejection, selection or award?

Interesu konflikts saistībā ar tās dalību iepirkuma procedūrā: Are tenderers aware of a conflict of interest as stated in national law, the relevant notice or procurement documents?

Tieša vai netieša iesaistīšanās šīs iepirkuma procedūras sagatavošanā: Has the tenderer or an entity associated with the supplier advised the contracting authority or in another way been involved in the planning of the competition?

Pirmstermiņa izbeigšana, zaudējumu atlīdzināšana vai citas līdzīgas sankcijas: Has the tenderer committed significant breaches of contract in connection with the fulfilment of a previous public contract, a previous contract with a public contracting authority or a previous concession contract, where the breach has led to the cancellation of the contract, compensation or other similar sanctions?

Valsts tiesību aktos noteikto pienākumu neizpilde, kas izraisa izslēgšanu: Approved procedures for staffing conditions Does the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body, or has the competence to represent or control or make decisions in such bodies, approved procedures for some of the punishable conditions mentioned above, j.f. the Procurement Regulations § 24-2, (2) paragraph, a-f? Serious errors that cause doubt about his professional integrity Has the tenderer otherwise committed serious errors that cause doubt about his professional integrity, cf.f. the procurement regulations § 24-2, (3) letter in?

Sociālā nodrošinājuma iemaksu maksāšanas pienākuma pārkāpums: Have tenderers failed to fulfil all their social security obligations in the country where they are established and in their member state, if this is a different country than what he is established in?

Nodokļu maksāšanas pienākuma pārkāpums: Has the tenderer not fulfilled his tax and duty obligations in the country in which he is established, and in the contracting authority's member state, if this is a different country than what he is established in?

Uzņēmējdarbību aptur: Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Bankrots: Is the tenderer in a bankruptcy situation? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Vienoššanās ar kreditoriem: Is the supplier in a situation where he has been forced debt arrangement? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Maksātnespēja: Is the tenderer in an insolvency situation? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Aktīvi, kurus pārvalda likvidators: Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of

tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Līdzīga situācija kā bankrots saskaņā ar valsts tiesību aktiem: Is the supplier in a situation where he has been forced debt arrangement? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Dalība nav rezervēta.

Iepirkuma projekts, kas netiek finansēts no ES fondiem

Uz iepirkumu attiecas Nolīgums par valsts iepirkumu: jā

5.1.9. Atlases kritēriji

Atlases kritēriju avoti: Paziņojums

Kritērijs: Reģistrācija tirdzniecības reģistrā

Atlases kritērija apraksts: Tax certificates Tenderers shall, upon request by the contracting authority, submit a tax certificate for VAT and tax certificates issued by a competent body in the tenderer's home country or the country where the tenderer is established. The certificate shall document whether the tenderer has fulfilled his obligations to pay taxes, duties and social security contributions. The certificate must not be older than 6 months calculated from the deadline for submitting a request for participation in the competition or a tender.

Kritērijs: Autorizācija vai dalība konkrētā organizācijā, kas nepieciešama pakalpojumu līgumiem

Atlases kritērija apraksts: Requirements of the tenderer's organisational and legal position. Tenderers shall be a legally established company or consist of a community of suppliers who are legally established companies. The requirement also applies to entities that the tenderer will use. Documentation requirement Tenderers shall, upon request from the contracting authority, present a certificate from the Register of Business Enterprises or an equivalent certificate for statutory registration in the country where the tenderer or the entities that jointly constitute the tenderer are established, as well as certificates for all supporting entities.

Kritērijs: Finanšu rādītājs

Atlases kritērija apraksts: Requirements of the tenderer's economic and financial capacity. 1. Tenderers shall have sufficient economic and financial capacity to fulfil the contract. 2. Tenderers shall have an equity percentage of at least 10%. 3. The average annual turnover in the last three years shall as a minimum correspond to annual turnover for the contract. Documentation requirement Tenderers shall, upon request from the contracting authority or together with the request for participation in the competition, present the following documentation: 1. The tenderer's annual financial statement, annual report and auditor's report for the last three years and recent information (quarterly accounts) that is of importance to the tenderer's fiscal numbers. 2. A brief account of information about economic conditions or losses that are not documented elsewhere, and which is required to be documented in accordance with Norwegian and/or international accounting standards. 3. An overview of any recently executed, ongoing or pending tax or public reviews of the tenderer's activities. 4. An overview of any events of significance that have taken place after the publication of the last revised annual accounts. If a tenderer has a justifiable reason for not submitting the documentation that the contracting authority has required, he can document his economic and financial capacity by presenting any other document of relevance to the company's fiscal figures/economy. Tenderers shall justify why they cannot submit the documentation required by the contracting authority.

Kritērijs: Tehniķi vai tehniskās iestādes kvalitātes kontrolei

Atlases kritērija apraksts: The tenderer's technical and professional qualifications. Relevant experience: Tenderers shall have sufficient experience of a relevant nature and degree of difficulty from: • Work on ropes • Work connected to water-frost protection in the tunnel • Rock protection in tunnels and cutting/open air zones. Documentation requirement Tenderers shall present the following documentation if requested by the contracting authority: An overview of 3-5 contracts that the tenderer has carried out or executes during the last five years calculated from the tender deadline. The overview shall, cf. the form "Response Document for assessment of the tenderer's technical and professional qualifications - Operation and maintenance" (See "General contract documents the Norwegian Public Roads Administration, Various documents), including, among other things, the following for each of the contracts: •

Name of the recipient (contracting authority). • Contact person/reference person at the contracting authority with contact data (telephone number and email address) and a statement of the person's role at the contracting authority during the contract. • Date of the delivery. • The contract's value. • What work was carried out by the tenderer, including as the main contractor or sub-contractor, and what work was carried out by sub-contractors. • A description of what the contractual works were about, including relevance to the qualification requirement.

Kritērijs: Atbilstošas izglītības un profesionālās kvalifikācijas

Atlases kritērija apraksts: The tenderer shall: 1. Have technical and professional competence and relevant experience with the key personnel offered for fulfilling the contract.

Documentation requirement Tenderers shall present the following documentation if requested by the contracting authority: CVs and job descriptions for key personnel, c.f. chapter C, including the following resources: - Project Manager -Site manager - Quality management manager HSE manager Bas

Kritērijs: Piegādes drošība

Atlases kritērija apraksts: Support from other entities for fulfilment of the qualification requirements. The tenderer can, if necessary, rely on other companies' capacity to fulfil the requirements for economic and financial capacity and/or the requirements for technical and professional qualifications. Documentation requirement Tenderers shall confirm that they fulfil this requirement when submitting their tender. In addition, each individual entity that the tenderer will use to submit a separate ESPD form when submitting a tender. Tenderers shall, upon request from the contracting authority, present the following documentation proof: • Documentation that shows that the tenderer can use the necessary resources for the entities that they will use, for example, a commitment statement from these businesses. The template for the commitment statement is published on: <https://www.vegvesen.no/fag/veg-og-gate/konkurranse-og-kontraktsdokumenter/generelle-kontraktsdokumenter/>. • Documentation that shows that the company(s), that the tenderer will use, fulfil the qualification requirement 'the tenderer's organisational and legal position'. • Documentation that shows that the company(s), that the tenderer will use, fulfil the relevant qualification requirements. • If a tenderer will use the capacity of other companies to fulfil the requirements for economic and financial capacity, a signed joint and several liability statement must be enclosed. The template for a joint and several liability statement is published on: <https://www.vegvesen.no/fag/veg-og-gate/konkurranse-og-kontraktsdokumenter/generelle-kontraktsdokumenter/>. If a tenderer will use the capacity of other companies to fulfil the requirements of relevant experience, these entities shall carry out the services or the building and construction work that requires such qualifications.

Kritērijs: Autorizācija vai dalība konkrētā organizācijā, kas nepieciešama pakalpojumu līgumiem

Atlases kritērija apraksts: Suppliers who participate in a working partnership Several tenderers can participate in the competition jointly. The community must see to the necessary documentation that all the qualification requirements are met. The contracting authority will assess each individual supplier in the community against the provisions on rejection, cf. § 9-5 and § 24-2, this except the provision in § 9-5 (1) letter a) and § 24-2 (1) letter a) fulfilment of the qualification requirements, which will be applied to the jointly combined set. Tenderers who participate as a working partnership will be assessed collectively for the qualification requirements, with the exception of the requirements for the tenderer's organisational and legal position, documentation for absence of rejection reasons, tax certificates and authority for information on tax and duties (OSA). Documentation requirement Tenderers shall confirm

that they fulfil this requirement when submitting their tender. In addition, each individual entity in the (work) group shall submit separate ESPD forms when submitting a tender. Tenderers shall, upon request from the contracting authority, present the following documentation proof: • An account of the group (including each participant's role), each participant's organisation number, address and nationality. • The same documentation as individual tenderers shall be provided for each individual tenderer who participate in the group. • Declaration of joint and several liability to the contracting authority. The template for a joint and several liability statement is published on: <https://www.vegvesen.no/fag/veg-og-gate/konkurranse-og-kontraktsdokumenter/generelle-kontraktsdokumenter/>. The community of suppliers can, if necessary, rely on other entities to fulfil the qualification requirements, see the point on support from other companies to fulfil the qualification requirements. The contracting authority requires that the tenderer who fulfils the requirements for relevant experience shall carry out the services or the building and construction work that requires such qualifications.

Kritērijs: Reģistrācija attiecīgā profesionālā reģistrā

Atlases kritērija apraksts: Particularly on newly established tenderers A tenderer who is newly established and cannot present all the required documentation must be particularly careful to document and substantiate that they still have the prerequisites required to fulfil the contract. It is particularly important that such tenderers can document a sufficiently large workforce for the execution of the contract, including technical and professional qualifications. Newly established tenderers emphasise that it is the tenderer's ability as such to carry out the contract that is assessed, not individual persons' competence in isolation. If a newly established tenderer has experience from contracts, the most relevant contracts from which the tenderer has experience must be completed in accordance with the documentation requirements regarding relevant experience. This is even if the contracts are of such a nature that they do not fulfil the specified requirements. Missing or inadequate documentation in one or more of the requirements can result in the tenderer being rejected. Insufficient or incorrect completed response form can also lead to rejection. Tenderers who have established themselves within a new discipline can also be seen as newly established.

5.1.10. Piešķiršanas kritēriji

Kritērijs:

Veids: Cena

Nosaukums: Lowest price

Apraksts: The contracting authority will choose tenders on the basis of the lowest price.

Kategorija piešķiršanas kritērija svars: Svērums (precīza procentuālā attiecība)

Piešķiršanas kritērija skaitlis: 100

Kritērijs:

Veids: Kvalitāte

Nosaukums: Justification for the use of climate and environmental requirements in the requirement specifications.

Apraksts: Climate and environment has not been used as the award criterium in this procurement. In accordance with the Public Procurement Regulations (FOA) § 7-9 fourth paragraph, award criteria can be replaced with requirements if this gives a clearly better climate and environmental effect. It has been considered for this procurement that climate and environmental considerations are taken care of through concrete minimum requirements in the tender documentation and contract. The procurement is for a framework agreement where the work is ordered through call-offs. The extent, location and character of the individual works will vary and are to a limited degree known at the time of publication. This means that tenderers will, to a small degree, have sufficient basis for preparing and competing on relevant climate

and environmental measures in the tender phase. The climate and environment as the award criterion is therefore assessed to have a limited effect. The largest climate and environmental impacts in the contract are related to transport of personnel, emissions from machines and vehicles, rock protection work as well as waste management. The transport of personnel with light vehicles in particular makes up a significant part of the climate footprint. In order to ensure real climate and environmental effect, there are therefore concrete requirements in the contract, including:

- The requirement that the shotcrete shall have a maximum documented GWP-total value (A1-A3) that is not higher than 280 kg CO₂-ekv. /m³ for concrete specified in class M45 and 300 kg CO₂-ekv/m³ for concrete, specified in classification M40.
- Concrete and concrete elements are required to be cast on site as a minimum to have low carbon class 20 (NB37).
- A maximum emission factor of 1.4 kgCO₂e/kg will be required for rock bolts.
- Maximum emission factor of 2 kgCO₂e/kg will be required for the rock protection network.
- EPD shall be delivered and reports with added amounts for all input factors included in the contract work. Contract specific EPDs shall be provided for products covered by the minimum requirements.
- Requirement that 100% of light vehicles shall be carried out with zero emission vehicles or biogas.
- Requirement for an environmental management system (ISO 14001 or equivalent)
- Requirements regarding emission standards for vehicles and machines (minimum Euro 6 and Step 4).
- Requirement for contingency for handling pollution, including available absorption agent.
- Requirement for covering asphalt at risk of fallout to prevent replacement

· During mini-competitions, the builder can set stricter environment and climate requirements than what applies to the contract and processes today. There will be separate processes on this in a mini competition where relevant. A major focus here will be the transition to electricity or biogas for call-offs where suitable.

· Contractor shall at all times strive for further improvement influences on greenhouse gas emissions where this does not have a significant negative effect on price, progress and quality. Possibilities for this shall be lifted for the builder.

· Materials/matter shall as far as possible be reused in the project in cases where suitable. By setting these requirements, we ensure that all tenderers fulfil a defined level for climate and environmental performance, independent of variations in each call-off. This is considered to have a greater total climate and environmental effect than the use of award criteria in this procurement. Based on this, the exclusion provision is used in the Public Procurement Regulations § 7-9 fourth paragraph.

5.1. Daļa: LOT-0002

Nosaukums: DoV Framework agreement Tunnel and rock protection 2026-2028 TR: Trøndelag

Apraksts: The Norwegian Public Roads Administration Operations and Maintenance invites

tenderers to a competition for the following contract work: Framework agreement for tunnel

and rock protection for Trøndelag, Møre og Romsdal. The contract includes cleaning and

bolting protection, establishing new and improving existing water and frost protection in

tunnels, clearing and bolt protection in cuttings, establishing different types of meshes (ice

nets, erosion network etc.), improvements and establishment of new security measures in the

open air on European and national roads. in Trøndelag, Møre og Romsdal. The measures will

vary in extent. Outside of general processes, a couple of concrete projects are described to be

carried out: TR01: E6 Kvam – clearing and work protection cutting. Modification of the existing

network TR02: E6 Cleansed - clearing and work securing cutting. Assembly of an ice network.

TR03: E39 Søvassdalen - clearing and work securing cutting. Assembly of an ice network.

MR01:E39 Brusdalen – clearing and work securing cutting. MR03: E136 Sørnes tunnel –

Rensk and securing, establishment of a new water-frost protection vault. Consideration shall

be given to set timetables for public transport. Routines must be established. for emergency

emergency services. All traffic deviations/driving vehicles in tunnels shall be carried out for

work. passing must be clarified by the traffic conductor with work teams in the tunnel before

emergency services are released. through. There will be a lot of focus on the contract work

notification as the work is ongoing on the existing road network. The location of the traffic

conductor shall always be risk assessed in the contractor's work warning plan. The contracting

authority would like parallel framework agreements with up to 3 contractors per area, based on

which tender is best in accordance with the award criteria.

lekšējais identifikators: 3-2

5.1.9. Atlases kritēriji

Atlases kritēriju avoti: Paziņojums

Kritērijs: Reģistrācija attiecīgā profesionālā reģistrā

Atlases kritērija apraksts: Tax certificates Tenderers shall, upon request by the contracting authority, submit a tax certificate for VAT and tax certificates issued by a competent body in the tenderer's home country or the country where the tenderer is established. The certificate shall document whether the tenderer has fulfilled his obligations to pay taxes, duties and social security contributions. The certificate must not be older than 6 months calculated from the deadline for submitting a request for participation in the competition or a tender.

Kritērijs: Autorizācija vai dalība konkrētā organizācijā, kas nepieciešama pakalpojumu līgumiem

Atlases kritērija apraksts: Requirements of the tenderer's organisational and legal position. Tenderers shall be a legally established company or consist of a community of suppliers who are legally established companies. The requirement also applies to entities that the tenderer will use. Documentation requirement Tenderers shall, upon request from the contracting authority, present a certificate from the Register of Business Enterprises or an equivalent certificate for statutory registration in the country where the tenderer or the entities that jointly constitute the tenderer are established, as well as certificates for all supporting entities.

Kritērijs: Finanšu rādītājs

Atlases kritērija apraksts: Requirements of the tenderer's economic and financial capacity. 1.

Tenderers shall have sufficient economic and financial capacity to fulfil the contract. 2.

Tenderers shall have an equity percentage of at least 10%. 3. The average annual turnover in

the last three years shall as a minimum correspond to annual turnover for the contract. Documentation requirement Tenderers shall, upon request from the contracting authority or together with the request for participation in the competition, present the following documentation: 1. The tenderer's annual financial statement, annual report and auditor's report for the last three years and recent information (quarterly accounts) that is of importance to the tenderer's fiscal numbers. 2. A brief account of information about economic conditions or losses that are not documented elsewhere, and which is required to be documented in accordance with Norwegian and/or international accounting standards. 3. An overview of any recently executed, ongoing or pending tax or public reviews of the tenderer's activities. 4. An overview of any events of significance that have taken place after the publication of the last revised annual accounts. If a tenderer has a justifiable reason for not submitting the documentation that the contracting authority has required, he can document his economic and financial capacity by presenting any other document of relevance to the company's fiscal figures/economy. Tenderers shall justify why they cannot submit the documentation required by the contracting authority.

Kritērijs: Tehniķi vai tehniskās iestādes kvalitātes kontrolei

Atlases kritērija apraksts: The tenderer's technical and professional qualifications. Relevant experience: Tenderers shall have sufficient experience of a relevant nature and degree of difficulty from: • Work on ropes • Work connected to water-frost protection in the tunnel • Rock protection in tunnels and cutting/open air zones. Documentation requirement Tenderers shall present the following documentation if requested by the contracting authority: An overview of 3-5 contracts that the tenderer has carried out or executes during the last five years calculated from the tender deadline. The overview shall, cf. the form "Response Document for assessment of the tenderer's technical and professional qualifications - Operation and maintenance" (See "General contract documents the Norwegian Public Roads Administration, Various documents), including, among other things, the following for each of the contracts: • Name of the recipient (contracting authority). • Contact person/reference person at the contracting authority with contact data (telephone number and email address) and a statement of the person's role at the contracting authority during the contract. • Date of the delivery. • The contract's value. • What work was carried out by the tenderer, including as the main contractor or sub-contractor, and what work was carried out by sub-contractors. • A description of what the contractual works were about, including relevance to the qualification requirement.

Kritērijs: Atbilstošas izglītības un profesionālās kvalifikācijas

Atlases kritērija apraksts: The tenderer shall: 1. Have technical and professional competence and relevant experience with the key personnel offered for fulfilling the contract. Documentation requirement Tenderers shall present the following documentation if requested by the contracting authority: CVs and job descriptions for key personnel, c.f. chapter C, including the following resources: - Project Manager -Site manager - Quality management manager HSE manager Bas

Kritērijs: Piegādes drošība

Atlases kritērija apraksts: Support from other entities for fulfilment of the qualification requirements. The tenderer can, if necessary, rely on other companies' capacity to fulfil the requirements for economic and financial capacity and/or the requirements for technical and professional qualifications. Documentation requirement Tenderers shall confirm that they fulfil this requirement when submitting their tender. In addition, each individual entity that the tenderer will use to submit a separate ESPD form when submitting a tender. Tenderers shall, upon request from the contracting authority, present the following documentation proof: •

Documentation that shows that the tenderer can use the necessary resources for the entities that they will use, for example, a commitment statement from these businesses. The template for the commitment statement is published on: <https://www.vegvesen.no/fag/veg-og-gate/konkurranse-og-kontraktsdokumenter/generelle-kontraktsdokumenter/>. • Documentation that shows that the company(s), that the tenderer will use, fulfil the qualification requirement 'the tenderer's organisational and legal position'. • Documentation that shows that the company(s), that the tenderer will use, fulfil the relevant qualification requirements. • If a tenderer will use the capacity of other companies to fulfil the requirements for economic and financial capacity, a signed joint and several liability statement must be enclosed. The template for a joint and several liability statement is published on: <https://www.vegvesen.no/fag/veg-og-gate/konkurranse-og-kontraktsdokumenter/generelle-kontraktsdokumenter/>. If a tenderer will use the capacity of other companies to fulfil the requirements of relevant experience, these entities shall carry out the services or the building and construction work that requires such qualifications.

Kritērijs: Autorizācija vai dalība konkrētā organizācijā, kas nepieciešama pakalpojumu līgumiem

Atlases kritērija apraksts: Suppliers who participate in a working partnership Several tenderers can participate in the competition jointly. The community must see to the necessary documentation that all the qualification requirements are met. The contracting authority will assess each individual supplier in the community against the provisions on rejection, cf. § 9-5 and § 24-2, this except the provision in § 9-5 (1) letter a) and § 24-2 (1) letter a) fulfilment of the qualification requirements, which will be applied to the jointly combined set. Tenderers who participate as a working partnership will be assessed collectively for the qualification requirements, with the exception of the requirements for the tenderer's organisational and legal position, documentation for absence of rejection reasons, tax certificates and authority for information on tax and duties (OSA). Documentation requirement Tenderers shall confirm that they fulfil this requirement when submitting their tender. In addition, each individual entity in the (work) group shall submit separate ESPD forms when submitting a tender. Tenderers shall, upon request from the contracting authority, present the following documentation proof: • An account of the group (including each participant's role), each participant's organisation number, address and nationality. • The same documentation as individual tenderers shall be provided for each individual tenderer who participate in the group. • Declaration of joint and several liability to the contracting authority. The template for a joint and several liability statement is published on: <https://www.vegvesen.no/fag/veg-og-gate/konkurranse-og-kontraktsdokumenter/generelle-kontraktsdokumenter/>. The community of suppliers can, if necessary, rely on other entities to fulfil the qualification requirements, see the point on support from other companies to fulfil the qualification requirements. The contracting authority requires that the tenderer who fulfils the requirements for relevant experience shall carry out the services or the building and construction work that requires such qualifications.

Kritērijs: Reģistrācija attiecīgā profesionālā reģistrā

Atlases kritērija apraksts: Particularly on newly established tenderers A tenderer who is newly established and cannot present all the required documentation must be particularly careful to document and substantiate that they still have the prerequisites required to fulfil the contract. It is particularly important that such tenderers can document a sufficiently large workforce for the execution of the contract, including technical and professional qualifications. Newly established tenderers emphasise that it is the tenderer's ability as such to carry out the contract that is assessed, not individual persons' competence in isolation. If a newly established tenderer has experience from contracts, the most relevant contracts from which

the tenderer has experience must be completed in accordance with the documentation requirements regarding relevant experience. This is even if the contracts are of such a nature that they do not fulfil the specified requirements. Missing or inadequate documentation in one or more of the requirements can result in the tenderer being rejected. Insufficient or incorrect completed response form can also lead to rejection. Tenderers who have established themselves within a new discipline can also be seen as newly established.

5.1.10. Piešķiršanas kritēriji

Kritērijs:

Veids: Cena

Nosaukums: Lowest price

Apraksts: The contracting authority will choose tenders on the basis of the lowest price.

Kategorija piešķiršanas kritērija svars: Svērums (precīzs punktu skaits)

Piešķiršanas kritērija skaitlis: 100

Kritērijs:

Veids: Kvalitāte

Nosaukums: Justification for the use of climate and environmental requirements in the requirement specifications.

Apraksts: Climate and environment has not been used as the award criterium in this procurement. In accordance with the Public Procurement Regulations (FOA) § 7-9 fourth paragraph, award criteria can be replaced with requirements if this gives a clearly better climate and environmental effect. It has been considered for this procurement that climate and environmental considerations are taken care of through concrete minimum requirements in the tender documentation and contract. The procurement is for a framework agreement where the work is ordered through call-offs. The extent, location and character of the individual works will vary and are to a limited degree known at the time of publication. This means that tenderers will, to a small degree, have sufficient basis for preparing and competing on relevant climate and environmental measures in the tender phase. The climate and environment as the award criterion is therefore assessed to have a limited effect. The largest climate and environmental impacts in the contract are related to transport of personnel, emissions from machines and vehicles, rock protection work as well as waste management. The transport of personnel with light vehicles in particular makes up a significant part of the climate footprint. In order to ensure real climate and environmental effect, there are therefore concrete requirements in the contract, including:

- The requirement that the shotcrete shall have a maximum documented GWP-total value (A1-A3) that is not higher than 280 kg CO₂-ekv. /m³ for concrete specified in class M45 and 300 kg CO₂-ekv/m³ for concrete, specified in classification M40.
- Concrete and concrete elements are required to be cast on site as a minimum to have low carbon class 20 (NB37).
- A maximum emission factor of 1.4 kgCO₂e/kg will be required for rock bolts.
- Maximum emission factor of 2 kgCO₂e/kg will be required for the rock protection network.
- EPD shall be delivered and reports with added amounts for all input factors included in the contract work. Contract specific EPDs shall be provided for products covered by the minimum requirements.
- Requirement that 100% of light vehicles shall be carried out with zero emission vehicles or biogas.
- Requirement for an environmental management system (ISO 14001 or equivalent)
- Requirements regarding emission standards for vehicles and machines (minimum Euro 6 and Step 4).
- Requirement for contingency for handling pollution, including available absorption agent.
- Requirement for covering asphalt at risk of fallout to prevent replacement

· During mini-competitions, the builder can set stricter environment and climate requirements than what applies to the contract and processes today. There will be separate processes on this in a mini competition where relevant. A major focus here will be the transition to electricity or biogas for call-offs where suitable.

· Contractor shall at all times strive

for further improvement influences on greenhouse gas emissions where this does not have a significant negative effect on price, progress and quality. Possibilities for this shall be lifted for the builder. · Materials/matter shall as far as possible be reused in the project in cases where suitable. By setting these requirements, we ensure that all tenderers fulfil a defined level for climate and environmental performance, independent of variations in each call-off. This is considered to have a greater total climate and environmental effect than the use of award criteria in this procurement. Based on this, the exclusion provision is used in the Public Procurement Regulations § 7-9 fourth paragraph.
