Kritērijs:

Veids: Cena

Nosaukums: Price

Apraksts: Weighting: The award criteria is weighted 50%. Orientation: Tenderers shall fill in the attached price form in their cost calculations and submit it as an annex to the tender in Excel format. All fields in the attached price form marked with yellow shall be completed. Missing completion of price fields can cause difficulty in assessing the tender and the tender can then be rejected. All prices are in NOK, excluding VAT, including all direct or indirect expenses and duties that can be expected to be incurred for the delivery. Order fees and invoice fees are to be seen as expenses. The prices shall include all costs for the customer who is included in this competition. Costs that the tenderer knows will be included, but who is not specifically stated in the tender, will be seen as included in the stated costs. All prices can be price regulated. Evaluation: The total sum from the price form will form the basis of the price evaluation. When assessing the price, a hybrid model with break point 1 will be used. The attached template for evaluation model. The tenderer's total points for this award criteria is weighted with the award criterion's weighting percentage

Piešķiršanas kritērija skaitlis: 20

Kritērijs:

Veids: Kvalitāte

Nosaukums: Environment

Apraksts: Weighting: The award criteria is weighted 30%. Orientation: The contracting authority aims at the highest possible portion of wood in this agreement for recycling materials. Attvin sorts the wood into two fractions that are wood for material recovery and wood for energy recovery, cf. point: The Service. Experienced figures are approx. 70% for recycling

materials and 30% to energy recovery. Therefore, as part of the tender offer, the tenderer shall state which portions in tons of the contract waste of 70% for material recovery, which the tenderer's facility/treatment method will be able to sort out. for recycling materials, incineration with energy utilisation and burning without energy recovery. Tenderers are requested to fill in orange cells in the attached excel file "award criteria environment". Tenderers are requested to fill in the distribution in tons and treatment place for the different treatment methods.

Documentation of the figures that are filled in the form 'the award criterion environment' must be sent on request (both for evaluation and throughout the contract period). The evaluation:

This award criteria will be assessed based on the tenderer's response in orange cells in the annex. "Environmental award criteria". Treatment methods will be given points as follows:

•Material recovery 10 points •Energy recovery with burning 5 points •Energy recovery without burning 0 points The tenderer's completion of the number of tons will multiply by points per treatment method. Best solution will be awarded the highest score (10). Other solutions will be awarded a point score relative to the best solution. The tenderer's total points for this award criteria is weighted with the award criterion's percentage of weighting.
