The Utilities Vendor Database (UVDB) scheme is a qualification system under Article 77 of Directive 2014/25/EU, which is operated by Achilles Information Ltd. The UVDB provides a common system for subscribing utility entities to select suppliers for invitation to participate in regulated procurement procedures. The utility entities which subscribe to the scheme are given at the following URL: https://pages.achilles.com/uvdb_qualification_system_notice?hs_preview=DSymNrgH-12157224232

The UVDB is based on a coding system for works, supplies and services against which suppliers are registered on the system. The full list of UVDB product codes is available at the following URL: https://pages.achilles.com/uvdb_qualification_system_notice?hs_preview=DSymNrgH-12157224232

Vendors not already registered on the UVDB should apply to Achilles using the contact details at Section I.1 in order to ensure that their details are available to subscribing utility entities.
