NUTS kods: NO082 Viken

#### **II.2.4. Iepirkuma apraksts**

The purpose of the system; system organisation

The dynamic purchasing system that is entered into shall be used in cases where the contracting authority needs assistance in carrying out procurements or other purchasing activities. There may also be a need to hire resources in the longer term in the event of, e.g., sickness, increased demand from the entities in the organisation.

Possible assignments that can be relevant within this purchasing system:

Assistance with procurement analyses and professional procurement methodology

Manage/participate in tender groups

Implementation of all phases of procurement processes:

needs mapping

preparing tender documentation

market dialogue

evaluation of tenders

negotiations

contract awards

managing complaints and requests for access

ensuring the formalities in the contracts

Preparation of change orders

Adjustments

Options:

Incitement description

Assignment Description

Guarantees

Manage the preliminary process/preliminary work

Manage the start-up process/start-up project

The contracting authority envisages that the providers can cover the fields described in the DPS.

The complexity and scope of the consultancy service will depend on each individual need.

Scope of the system:

The contracts in the Dynamic Purchasing System (DPS) shall normally be based on the standard templates SSA-O (the Norwegian Government's Standard Terms and Conditions for Consultancy Services) and SSA-B (the Norwegian Government's Standard Terms and Conditions for Consultancy Assistance). The contracts will follow each individual contest in the system.

Ordering authorities at the contracting authority

The dynamic purchasing system shall apply for Fredrikstad municipality and all entities in Fredrikstad municipality.

All interested tenderers can apply to be qualified and included in the dynamic purchasing system.

The suppliers who are included in the dynamic purchasing system there will be little risk and little work involved in seeking inclusion in the system. At the same time, one will be notified when contests are held in the system. Therefore, Fredrikstad Municipality advises interested suppliers to apply for inclusion in the system.

The contracting authority envisions that the providers can cover the different fields in the published DPS. However, there will not be a need for all of the providers who qualify for the system to cover all fields. This means that not all who are qualified in a DPS can expect to be invited to submit tenders in a tender contest.

Each contest in the system will contain information on what type of services/assistance are to be delivered, and tenderers must themselves assess whether they can meet the requirements in the procurement in such a way that they can submit a tender. The contracting authority can choose to split the procurement in each competition into groups/categories if it is deemed appropriate.

Examples of this may be that a tender contest in DPS may include requests for assistance with several specific procurements within the same category, regulations, etc.
