VI.3. Informazzjoni addizzjonali

Commissioners may wish to expand services during the lifetime of the contract potentially resulting in a significantly wider network of integrated services being delivered than set out in the Services Specification at the time of contract award. Such modifications will be contemplated where such services are similar/complementary to the services already included in the PB19 model at any given time. Such expansion would be by the addition of services provided and/or commissioned by other ECC departments and/or other contracting authorities. ECC /any contracting authority under the PB19 contracts may also add grant funding to the PB19 contracts where such grants are awarded to the contracting authority and relate to the services and outcomes required under the Services Specification. The PB19 Contract may therefore collectively have a contract value of up to 800 260 000 GBP over the 10 years depending on the further addition and integration of services, as advertised in the Contract Notice.
