Ftehim qafas:

Ftehim qafas, mingħajr ma terġa' tinfetaħ il-kompetizzjoni

Numru massimu ta' parteċipanti: 1

Ġustifikazzjoni tat-tul ta' żmien tal-ftehim qafas: The maximum duration of the framework agreement is determined to be six (6) years, based on a combined assessment of the market situation and the economic and technical prerequisites for the delivery. The contracting authority has documented through a market dialogue that the tenderer's business models are so adapted that it is not commercially appropriate to switch equipment suppliers without

switching the accompanying platform system. The delivery requires considerable investments, both in platform technology and the accompanying equipment. A supplier change across equipment and platform will incur disproportionately high costs connected to the change of equipment and/or establishment, integrations and any other transition costs. It is, therefore, scheduled to assess the supplier's replacement costs connected to the municipalities' existing equipment in the procurement. While technically it is possible to establish APIs or other integrations towards alternative solutions, the contracting authority's understanding will typically be growing and it will not represent a commercial or socio-economically effective approach. Based on this, a framework agreement will be assessed with a duration of six years as necessary and proportionate in order to ensure sufficient competition, cost efficiency and predictability in the delivery.
