For each reference, the following information is requested: Name of client (or if confidential, this should be stated), Delivery location (Country), Year in which delivery was made (in case of framework agreements please provide break down of total deliveries per year), Quantity delivered (in metric tons), Type of product delivered (Ammonia / Ammonia Water). The most recent references will be determined based on year in which delivery was made. No additional documentation for the selection criterion for experience will be required from the Applicant. However, the Contracting Entity reserves the right to contact the Applicant or relevant third parties for verification of the information stated in the description(s). The Applicant's experience will be based on the information submitted and will be an overall assessment of the track record regarding supply of Ammonia (>99,5%) and Ammonia Water (approx. 24,5%), the more total quantities (in metric tons) delivered the better. Submission of a reference list showing compliance with the minimum requirement for "experience" will be considered documentation. If the Applicant has submitted references as part of the information under the selection criteria for "Experience", and these references show fulfilment of the minimum requirement for experience, these references will be considered documentation for fulfilment of the minimum requirement for experience. If the references submitted as part of the information under the selection criterion for "Experience" does not show fulfilment of the minimum requirement for experience, then the Applicant will be requested to submit documentation at a later stage of the Tender Procedure that shows that the Applicant fulfils the minimum requirement for experience.
