Tip legali tax-xerrej: Impriża pubblika
Attività tal-entità kontraenti: Attivitajiet relatati mal-elettriku

2. Proċedura

2.1. Proċedura

Titlu: Installation of pipes with horizontal directional drilling (HDD) under Guldborgsund and Roskilde Fjord - 23/03722
Deskrizzjoni: The Contracting Authority wants to purchase horizontal directional drilling activities including installation of PE-pipes for establishing two sets of cable crossings for new 145 kV cable sys-tems and fiber connections across Guldborgsund (two pipe sets, two cable systems, LOT 1) and Roskilde Fjord (one pipe set, one cable system, LOT 2). The underground power cables will be installed by another Contractor by means of Watucab by utilizing the smaller pipes inside a bigger pipe. The Fibre Optical Cables (FOC) will be installed in dedicated pipes for this purpose. This tender concerns all pipes involved – both the smaller pipes and the bigger pipe on the outside. For further details regarding the purchase, reference is made to the tender documents. The value of the contracts is expected to amount to total 147 Mio. DKK The tender is divided into the following lots: Lot 1: Cable crossings for new 145 kV cable systems and fiber connections across Guldborgsund. Two pipe sets, two power cable systems oPipe #1 from Falster to Lolland. Estimated length 1,254 m oPipe #2 from Falster to Lolland. Estimated length 1,207 m Lot 2: Cable crossings for new 145 kV cable systems and fiber connections across Roskilde Fjord: One pipe set, one power cable system oPipe #1 from Roskilde Fjord West – East landings. Estimated length 1,755 m Tenders can be submitted for one or all partial agreements
Identifikatur tal-proċedura: a86d3fe7-db2e-4ab6-ba6d-545ed8de5c2e
Identifikatur intern: 716721
Tip ta' proċedura: Innegozjata bil-pubblikazzjoni minn qabel ta' sejħa għall-kompetizzjoni/għall-kompetizzjoni bin-negozjar
Il-proċedura hija aċċellerata: le

Pajjiż: Id-Danimarka
Ikun fejn ikun fil-pajjiż ikkonċernat
Informazzjoni addizzjonali: Roskilde Fjord: Denmark - Sjælland Guldborgsund: Denmark - Lolland/Falster

2.1.3. Valur

Valur stmat mingħajr VAT: 147 000 000,00 DKK

2.1.4. Informazzjoni ġenerali

Informazzjoni addizzjonali: It should be noted that this is a negotiated procedure. With the exception of basic elements, changes may be made to tender documents and their contents as a consequence as part of the negotiation process. The tenderer's legal form is not required. The tenders submitted must be valid for a period of 6 months from the specified time limit for the submission of tenders. If the tenderer during the negotiation phase, prepares and submits revised tenders, such tenders must also be valid for the period of 6 months from the specified time limit for these revised tenders If you wish to apply to participate in this tender process, the corresponding ESPD must be filled in. The ESPD for this tender process can be found in Comdia. The ESPD must be filled in in Comdia, after which it is submitted via "Save and Send". Guidelines for completing the ESPD can be found on the website of the Konkurrence- og Forbrugerstyrelsen, www.kfst.dk (The contracting entity does not take responsibility for the content of the guidance). Please note the following: - An applicant who participates alone, but relies on the capacity of one or more other entities (e.g. a parent company or sister company or subcontractor) shall ensure that the application is accompanied by both the applicant's own ESPD and a separate ESPD for each entity on which it wishes to rely, with a completed Part II "Information on the economic operator" and Part III "Grounds for exclusion" as well as relevant information concern-ing Part IV "Selection criteria" and Part V: "Limiting the number of qualified applicants". The attached ESPD from those other entities should be duly completed and signed. In addition, the submission of final evidence must also be accompanied by evidence of the commitment of these entities/subcontractors in this respect in the form of a statement of support. - Where groups of economic operators, including temporary associations, apply together, a full ESPD shall be filled in separately for each participating economic operator containing the required information. The final documentation must also be accompanied by a Consortium Declaration, by which the parties declare to be a consortium or other form of association jointly and severally, unconditionally, and directly liable for the fulfilment of the contract tendered.

2.1.6. Raġunijiet għall-esklużjoni

Sors tal-motivi għall-eżklussjoni: Avviż

Imġiba professjonali serjament ħażina: Is the economic operator guilty of grave professional misconduct? Where applicable, see definitions in national law, the relevant notice or the procurement documents.

Kunflitt ta’ interess minħabba l-parteċipazzjoni tiegħu fil-proċedura ta’ akkwist: Is the economic operator aware of any conflict of interest, as indicated in national law, the relevant notice or the procurement documents due to its participation in the procurement procedure?
Involviment dirett jew indirett fit-tħejjija ta’ din il-proċedura ta’ akkwist: Has the economic operator or an undertaking related to it advised the contracting authority or contracting entity or otherwise been involved in the preparation of the procurement procedure?
Dikjarazzjoni falza, informazzjoni moħbija, ma setgħux jiġu pprovduti d-dokumenti meħtieġa jew inkisbet informazzjoni kunfidenzjali ta’ din il-proċedura: Can the economic operator confirm that: a) It has been guilty of serious misrepresentation in supplying the information required for the verification of the absence of grounds for exclusion or the fulfilment of the selection criteria, b) It has withheld such information, c) It has not been able, without delay, to submit the supporting documents required by a contracting authority or contracting entity, and d) It has undertaken to unduly influence the decision making process of the contracting authority or contracting entity, to obtain confidential information that may confer upon it undue advantages in the procurement procedure or to negligently provide misleading information that may have a material influence on decisions concerning exclusion, selection or award?
Raġunijiet purament nazzjonali għall-esklużjoni: § 134 a. A contracting entity shall exclude a candidate or tenderer from participation in a procurement procedure if the candidate or tenderer is established in a country that is included on the EU list of non-cooperative jurisdictions for tax purposes and has not acceded to the WTO's Government Procurement Agreement or other trade agreements obliging Denmark to open the public procurement market to tenderers established in that country.
Reati terroristiċi jew reati marbuta ma’ attivitajiet terroristiċi: Has the economic operator itself or any person who is a member of its administrative, management or supervisory body or has powers of representation, decision or control therein been the subject of a conviction by final judgment for terrorist offences or offences linked to terrorist activities, by a conviction rendered at the most five years ago or in which an exclusion period set out directly in the conviction continues to be applicable? As defined in Articles 1 and 3 of Council Framework Decision of 13 June 2002 on combating terrorism (OJ L 164, 22.6.2002, p. 3). This exclusion ground also includes inciting or aiding or abetting or attempting to commit an offence, as referred to in Article 4 of that Framework Decision. For Danish applicants/tenderers the documentation is entailed in the “Serviceattest” which can be acquired from the Danish Business Authority. The time frame from request of a Serviceattest until receipt is usually two weeks. For foreign applicants/tenderers it is the experience of the Contracting Authority that the time frame for receipt of this documentation varies within the individual member states. As a result, The Contracting Authority strongly advises foreign applicants/tenderers to obtain this documentation as early as possible. Preferably the documentation should be ready and available already in connection with the prequalification. The EU Commission has launched e-CERTIS, a free, on-line source of information to help companies and contracting authorities to deal with different forms of documentary evidence required when tendering for public contracts. Information regarding relevant certificates can be obtained from: https://ec.europa.eu/tools/ecertis/#/search
Ksur tal-obbligu relatat mal-ħlas tal-kontribuzzjonijiet tas-sigurtà soċjali: Has the economic operator breached its obligations relating to the payment social security contributions, both in the country in which it is established and in Member State of the contracting authority or contracting entity if other than the country of establishment? For Danish applicants/tenderers the documentation is entailed in the “Serviceattest” which can be acquired from the Danish Business Authority. The time frame from request of a Serviceattest until receipt is usually two weeks. For foreign applicants/tenderers it is the experience of the Contracting Authority that the time frame for receipt of this documentation varies within the individual member states. As

a result, The Contracting Authority strongly advises foreign applicants/tenderers to obtain this documentation as early as possible. Preferably the documentation should be ready and available already in connection with the prequalification. The EU Commission has launched e-CERTIS, a free, on-line source of information to help companies and contracting authorities to deal with different forms of documentary evidence required when tendering for public contracts. Information regarding relevant certificates can be obtained from: https://ec.europa.eu/tools/ecertis/#/search

Ksur tal-obbligu relatat mal-ħlas tat-taxxi: The contracting entity shall exclude a candidate or tenderer who has unpaid overdue debts of DKK 100,000 or more to public authorities relating to taxes, duties or social security contributions under Danish law or the law of the country in which the applicant or tenderer is established. Documentation: in accordance with sections 152-153 of the Danish Public Procurement Act.

Parteċipazzjoni f'organizzazzjoni kriminali: Has the economic operator itself or any person who is a member of its administrative, management or supervisory body or has powers of representation, decision or control therein been the subject of a conviction by final judgment for participation in a criminal organisation, by a conviction rendered at the most five years ago or in which an exclusion period set out directly in the conviction continues to be applicable? As defined in Article 2 of Council Framework Decision 2008/841/JHA of 24 October 2008 on the fight against organised crime (OJ L 300, 11.11.2008, p. 42). For Danish applicants/tenderers the documentation is entailed in the "Serviceattest" which can be acquired from the Danish Business Authority. The time frame from request of a Serviceattest until receipt is usually two weeks. For foreign applicants/tenderers it is the experience of the Contracting Authority that the time frame for receipt of this documentation varies within the individual member states. As a result, The Contracting Authority strongly advises foreign applicants/tenderers to obtain this documentation as early as possible. Preferably the documentation should be ready and available already in connection with the prequalification. The EU Commission has launched e-CERTIS, a free, on-line source of information to help companies and contracting authorities to deal with different forms of documentary evidence required when tendering for public contracts. Information regarding relevant certificates can be obtained from: https://ec.europa.eu/tools/ecertis/#/search

Ħasil tal-flus jew finanzjament tat-terroriżmu: Has the economic operator itself or any person who is a member of its administrative, management or supervisory body or has powers of representation, decision or control therein been the subject of a conviction by final judgment for money laundering or terrorist financing, by a conviction rendered at the most five years ago or in which an exclusion period set out directly in the conviction continues to be applicable? As defined in Article 1 of Directive 2005/60/EC of the European Parliament and of the Council of 26 October 2005 on the prevention of the use of the financial system for the purpose of money laundering and terrorist financing (OJ L 309, 25.11.2005, p. 15). For Danish applicants /tenderers the documentation is entailed in the "Serviceattest" which can be acquired from the Danish Business Authority. The time frame from request of a Serviceattest until receipt is usually two weeks. For foreign applicants/tenderers it is the experience of the Contracting Authority that the time frame for receipt of this documentation varies within the individual member states. As a result, The Contracting Authority strongly advises foreign applicants /tenderers to obtain this documentation as early as possible. Preferably the documentation should be ready and available already in connection with the prequalification. The EU Commission has launched e-CERTIS, a free, on-line source of information to help companies and contracting authorities to deal with different forms of documentary evidence required when tendering for public contracts. Information regarding relevant certificates can be obtained from: https://ec.europa.eu/tools/ecertis/#/search

Frodi: Has the economic operator itself or any person who is a member of its administrative, management or supervisory body or has powers of representation, decision or control therein been the subject of a conviction by final judgment for fraud, by a conviction rendered at the most five years ago or in which an exclusion period set out directly in the conviction continues to be applicable? Within the meaning of Article 1 of the Convention on the protection of the European Communities' financial interests (OJ C 316, 27.11.1995, p. 48). For Danish applicants/tenderers the documentation is entailed in the “Serviceattest” which can be acquired from the Danish Business Authority. The time frame from request of a Serviceattest until receipt is usually two weeks. For foreign applicants/tenderers it is the experience of the Contracting Authority that the time frame for receipt of this documentation varies within the individual member states. As a result, The Contracting Authority strongly advises foreign applicants/tenderers to obtain this documentation as early as possible. Preferably the documentation should be ready and available already in connection with the prequalification. The EU Commission has launched e-CERTIS, a free, on-line source of information to help companies and contracting authorities to deal with different forms of documentary evidence required when tendering for public contracts. Information regarding relevant certificates can be obtained from: https://ec.europa.eu/tools/ecertis/#/search
Tħaddim tat-tfal u forom oħra ta’ traffikar tal-bnedmin: Has the economic operator itself or any person who is a member of its administrative, management or supervisory body or has powers of representation, decision or control therein been the subject of a conviction by final judgment for child labour and other forms of trafficking in human beings, by a conviction rendered at the most five years ago or in which an exclusion period set out directly in the conviction continues to be applicable? As defined in Article 2 of Directive 2011/36/EU of the European Parliament and of the Council of 5 April 2011 on preventing and combating trafficking in human beings and protecting its victims, and replacing Council Framework Decision 2002/629/JHA (OJ L 101, 15.4.2011, p. 1). For Danish applicants/tenderers the documentation is entailed in the “Serviceattest” which can be acquired from the Danish Business Authority. The time frame from request of a Serviceattest until receipt is usually two weeks. For foreign applicants /tenderers it is the experience of the Contracting Authority that the time frame for receipt of this documentation varies within the individual member states. As a result, The Contracting Authority strongly advises foreign applicants/tenderers to obtain this documentation as early as possible. Preferably the documentation should be ready and available already in connection with the prequalification. The EU Commission has launched e-CERTIS, a free, on-line source of information to help companies and contracting authorities to deal with different forms of documentary evidence required when tendering for public contracts. Information regarding relevant certificates can be obtained from: https://ec.europa.eu/tools/ecertis/#/search
Il-korruzzjoni: Has the economic operator itself or any person who is a member of its administrative, management or supervisory body or has powers of representation, decision or control therein been the subject of a conviction by final judgment for corruption, by a conviction rendered at the most five years ago or in which an exclusion period set out directly in the conviction continues to be applicable? As defined in Article 3 of the Convention on the fight against corruption involving officials of the European Communities or officials of Member States of the European Union, OJ C 195, 25.6.1997, p. 1, and in Article 2(1) of Council Framework Decision 2003/568/JHA of 22 July 2003 on combating corruption in the private sector (OJ L 192, 31.7.2003, p. 54). This exclusion ground also includes corruption as defined in the national law of the contracting authority (contracting entity) or the economic operator. "
For Danish applicants/tenderers the documentation is entailed in the “Serviceattest” which can be acquired from the Danish Business Authority. The time frame from request of a Serviceattest until receipt is usually two weeks. For foreign applicants/tenderers it is the experience of the Contracting Authority that the time frame for receipt of this documentation

varies within the individual member states. As a result, The Contracting Authority strongly advises foreign applicants/tenderers to obtain this documentation as early as possible. Preferably the documentation should be ready and available already in connection with the prequalification. Pajjiż: Id-Danimarka
Ikun fejn ikun fil-pajjiż ikkonċernat
Informazzjoni addizzjonali: Pipe #1 from Falster to Lolland. Estimated length 1254 m Pipe #2 from Falster to Lolland. Estimated length 1207 m

5.1.3. Tul ta' żmien stmat

Tul ta' żmien: 7 Xhur

5.1.4. Tiġdid

Numru massimu ta' tiġdid: 0

5.1.6. Informazzjoni ġenerali

Parteċipazzjoni riżervata:
Il-parteċipazzjoni mhijiex riżervata.
Iridu jingħataw l-ismijiet u l-kwalifiki professjonali tal-istaff assenjat biex iwettaq il-kuntratt: Ma hemmx għalfejn tingħata
Proġett ta' akkwist mhux iffinanzjat mill-Fondi tal-UE
L-akkwist huwa kopert mill-Ftehim dwar l-Akkwisti Pubbliċi (GPA): iva

5.1.9. Kriterji tal-għażla

Sors tal-kriterji ta' għażla: Avviż
Kriterju: Rapport finanzjarju
Deskrizzjoni tal-kriterju ta' selezzjoni: The applicant must confirm the economic ability in the ESPD part IV.B with information from the latest annual report regarding the following economic indicators: 1. Equity (total equity incl. share capital, reserves, revaluation, retained earning etc.) 2. Equity ratio (equity/total assets). This must be stated with two decimals. If the applicant relies on the capacities of other entities or the applicant is a group of economic operators the information for the ESPD part IV.B must also be given in a separate ESPD from each of these entities. It is the sole responsibility of the applicant to secure that the minimum requirements

are reached based on consolidation when the applicant is relying on the capacity of other entities or when the applicant is a group of economic operators. Minimum requirement: LOT 1: • Equity from the latest annual report must, at the time limit for receipt of tenders, be at least 28 mill. DKK/3,753 mill. EUR • Equity ratio from the latest annual report must, at the time of prequalification, be at least 20 pct. If the equity ratio is between 15 pct. and 20 pct. the tenderer can qualify if Equity exceeds 85,75 mill. DKK/ 11,494 mill. EUR
Il-kriterji se jintużaw biex jintgħażlu l-kandidati li għandhom jiġu mistiedna għat-tieni stadju tal-proċedura

Kriterju: Referenzi fuq xogħlijiet speċifiċi
Deskrizzjoni tal-kriterju ta' selezzjoni: The suitability of applicants fulfilling the minimum requirements to economic and financial standing will be assessed based on technical and professional ability. The ability will be assessed based on references which can be filled in ESPD part IV.C. The applicant is allowed to submit up to 3 most comparable and relevant references undertaken in the past 5 years as part of the application. By “com-parable” it is understood more than 800 m length of horizontal directional drilling involving 100 tons (Thrust /pull-back tension: 1000 kN) or bigger. By "undertaken in the past 5 years” implies that the reference must not have been completed prior to the date reached when counting 5 years backwards from the submission date for prequalification. Ref-erences older than this will not be taken into consideration. References which have not yet been fully completed can be included as part of the application, however the applicant must describe the parts which have not yet been delivered, and this may affect the evaluation of the application, cf. section 2.3. The references should describe horizontal directional drilling activities, and include: A specific description of deliveries, including: • Type and scope of HDD works o Length and diameter of pipe installed via HDD o Description of installed pipe/cable and/or casing solution o Size of drilling rig(s) involved • Hydro#geological and environmental conditions o Description of ground conditions encountered (e.g. clay, sand, moraine, rock, mixed soils) o Sensitivity of the surrounding environment (e.g. Natura 2000, pro-tected areas, environmental restrictions) • Quality, HSE and documentation o Applied quality assurance and control measures o Compliance with HSE requirements during drilling under marine waters o As#built documentation, drilling logs and completion reports • Contractual role and performance o Contractor’s role (main contractor / subcontractor) o Time schedule compliance and handling of unforeseen ground conditions o Reference contact details and year of completion • Contact information o Specification of buying organization, contact person and the asso-ciated contact information Contract value (if possible) Date of initiation and final delivery (day, month, year) Any ambiguities and/or incomprehensibilities may have a negative effect on the selection of applicants. Please note the “description” box in ESPD part IV.C. can contain more text than is visible and it is possible to copy paste text into the box. If the applicant is relying on the capacity of other entities or the applicant is a group of eco-nomic operators the maximum number of references to be submitted must still be respected and cannot exceed 3 when combined. If more are submitted, the Contracting Authority will only consider the most recent references determined by date of final delivery, in this case not yet finished references will not be included. If the applicant relies on other entities capacity or is part of a group of economic operators the information concerning ESPD part IV.C must be submitted in separate ESPD’s for each entity. Minimum requirement: • At least two references for horizontal directional drilling of a length of more than 800 meters installing Ø500 PE pipes or larger within the last 5 years. • Listing of drilling rigs of 100 tons (Thrust/pull-back tension: 1000 kN) and above that are relevant for the installation under tender • Proven record for work in nature preservation areas like Natura 2000, protected areas, environmentally restricted areas or similar. • Proven experience from previous projects with the use of Bentonite products, additives and other

drilling fluid products for HDD equivalent to the products listed in Appendix 2E-1 and Appendix 2E-2.
Il-kriterji se jintużaw biex jintgħażlu l-kandidati li għandhom jiġu mistiedna għat-tieni stadju tal-proċedura
Informazzjoni dwar it-tieni stadju ta' proċedura b'żewġ stadji:
Numru minimu ta' kandidati li għandhom jiġu mistiedna għat-tieni stadju tal-proċedura: 1
Numru massimu ta' kandidati li għandhom jiġu mistiedna għat-tieni stadju tal-proċedura: 5
Il-proċedura se ssir fi stadji suċċessivi. F'kull stadju, xi parteċipanti jistgħu jiġu eliminati

5.1.10. Kriterji tal-għoti

Kriterju:
Tip: Prezz
Deskrizzjoni: Price Prices must be stated in the attached Schedule of Prices and the defined price elements must be completed herein. Prices must be stated exclusive of VAT but inclu-sive of all other expenses associated with the purchase. Prices must be stated in EUR. When evaluating 'Price', the Contracting Authority will eval-uate the total cost - Total Tender Price, cf. Schedule of Prices.
Kategorija tal-kriterju tal-għoti piż: Fattur ta' ponderazzjoni (persentaġġ, eżatt)
Numru tal-kriterju għall-għoti: 50

Kriterju:
Tip: Kwalità
Deskrizzjoni: Technical solution Technical description The evaluation will be based on the submitted technical description, including method statements specifications and descriptions which demonstrate the technical level for executing the works specified in the tender documents. The work shall be based on a tender engineering ap-proach ensuring that that the proposed drilling setup is robust even if the soil characteristics differ from the expected. The tenderer must include Method Statements and engineering reports from the Pre-FEED covering all phas-es of the Works. Reference is made to Technical Requirements (doc. no. 23 /03722-1) The evaluation will be based on the degree of detail and the technical level of specifications and the level of content in the Method Statement(s). It will be evaluated positive if the tenderer submits detailed descriptions that in content and clarity demonstrate fulfil-ment of all technical requirements stated in the tender documents. Further, it will be evaluated positive that the approach and chosen solutions underline the tenderer's ability and use of competences to execute the works, es-pecially concerning: • Assessment of technical and environmental risks and proposed mitigations • Quality plan • Method statements • Engineering document proving that the proposed drilling setup is robust even if the soil characteris-tics differ from the expected • Contingency plans for handling blow-outs • Specification of specialized equipment and drilling rigs and drilling bits, including considerations con-cerning redundancy of key equipment • Specification of materials to be used • Specification of PE pipe configuration • Specification of the PE pipes proposed. • Specification of drilling mud • Specification of seals • State the anticipated amount of water for per-forming the drilling • Preliminary drawings of drilling profile • Specifications of working areas Specification of onshore spread
Kategorija tal-kriterju tal-għoti piż: Fattur ta' ponderazzjoni (persentaġġ, eżatt)
Numru tal-kriterju għall-għoti: 20

Kriterju:
Tip: Kwalità
Deskrizzjoni: Organization As the Works is of immense importance for the Client, the tenderer must enclose CVs of the key personnel who will be allocated to the Works. The following are considered as key personnel: • Project manager • Site staff foreman • HSE responsible • H&S

Coordinator (AMK-B) • Quality Manager The tenderer is encouraged to highlight only the expertise and experience for each key personnel relevant for the position in the respective CVs (e.g. educational back-ground, experience within that position, experience with similar assignments etc.). Further, the tenderer should submit an Organization Plan. The Organization Plan should include a detailed description of the project specific organizational struc-ture down to site staff foreman level which will be allocated to the Works during all phases of the Works. The Organization Plan description should describe: • The overall structure, including hierarchy and procedures for escalation. • Lines of communication, internally and external-ly • Interfaces towards the Contracting Authority. • How the tenderer will secure coverage of all po-sitions at all time The Organization Plan must be described in detail as well as visualized in a project specific organization chart. The evaluation of key personnel will be based on the degree to which the experience and professional qualifications of the individual key personnel is up to date, relevant in respect of the performance and position of the specific assignment. As such a relevant educational background combined with relevant roles in recent projects of similar characteristics will be evaluated positively. Further, the evaluation will focus on to which degree the individual key personnel will be involved in the fulfilment of the assignment and how the key personnel complement each other. The evaluation of the Organization Plan will be based on the degree of detail and • On whether the proposed plan is project specific, operational, efficient, robust and with clear lines of communication. • On whether the organization is well-structured with coverage for all interfaces taking into consid-eration the complexity of the Works • On the coverage of all positions and possibility to scall in manpower during execution in order to ful-fil the project time schedule An overall evaluation will be made of this sub-criterion.
Kategorija tal-kriterju tal-għoti piż: Fattur ta’ ponderazzjoni (persentaġġ, eżatt)
Numru tal-kriterju għall-għoti: 10

Kriterju:

Tip: Kwalità
Deskrizzjoni: Time Schedule for the Works The tenderer should include the Project Time Schedule in the tender. The Project Time Schedule must be project specific and include all activities executed by the tenderer concerning the Works. The tenderer should as part of the sub-criteria include a detailed and robust time schedule for each lot which outlines how the works will be structured through FEED and Detailed Engineering, construction and pipe installation phases, and delivery of as-built documentation. Delays associated with inspections and verifications shall be made clear, if known. The time schedule should contain relevant project milestones including the milestones outlined in the tender documents. Reference is made to the Time Schedule for the relevant LOT (LOT 1: 23/03722-34 or LOT 2: 23/03722-35). The time schedule should be included both in the form of a chart (GANTT-diagram) with clarifications as needed, in a supporting and elaborate description. The evaluation of the Time Schedule will be based on the level of detail and robustness/timeliness for all phases of the Works. The evaluation of the detailed Project Time Schedule pre-pared by the tenderer and included in the tender will be based on the degree of detail and division into sub-tasks to prove for the Employer, that the Contractor has the capacity to do the Works in accordance within the time frame specified in the Clients Time Schedule(s). The Contracting Authority will evaluate the degree to which the tender demonstrates a well-planned, realistic and ro-bust time schedule, which allows sufficient time for potential schedule contingencies, but still provides evidence of a high level of security for delivery within the timeframe as set out in the Tender Documents. In this context it will be evaluated positive that: - the description and schedule reflect a realistic, but front-loaded schedule for the critical activities - hazardous activities are not performed concurrently in the same location - the division into sub-sections ensures that the ten-derer has the capacity to perform in accordance with the overall project

time schedule. the description and schedule reflect the tenderer's ability to catch-up on delays and shows activities to activate

Kriterju:
Tip: Kwalità
Deskrizzjoni: Contract terms For the evaluation of the sub-criteria the tenderer is allowed to propose deviations to the elements of the contract identified as competitive elements in the contract terms. The contract terms consist of: • Contract Agreement for Guldborgsund, doc.no. 23/03722-15 (lot 1) • Contract Agreement for Roskilde Fjord, doc.no. 23/03722-38 (lot 2) • Appendix 1 [General Conditions based on AB18], doc.no. 23/03722-16 (both lots) The deviations should be enclosed in the clarification list c.f. doc.no. 23/03722-6 and be included in the spreadsheet marked "Legal clarification". The submitted clarification list should be clearly marked "Lot 1" or "Lot 2". The proposed deviations should be explicit and with explanation as to why they are made. The tendered contract must be performed on the basis of the contract terms. The tenderer is allowed to propose explicit and well-explained deviations to the following listed competitive elements: - In the Contract Agreements, doc.no. 23/03722-15 (lot 1) and doc.no. 23/03722-38 (lot 2): • Section 5 [Contract Data] In terms of: Liquidated damages and maximum liquidated damages (Clause 40, subclause (2)) under [Clause 40. The contractor's liability in case of delay] - In Appendix 1 [General Conditions based on AB18], doc. no. 23/03722-16 (both lots): • Clause 12 [Services to be provided by the contractor] • Clause 26 [Obstacles] • Clause 31. Construction meetings • Chapter E [Extension of time and delay] • Chapter F [Handover] • Chapter G [Defects] • Clause 59 [The client's right to terminate the contract] Deviations to these elements will be included in the evaluation and it is noted that any deviations may lead to a reduction of the score depending on the content, clarity, and consequence of the deviation. In this regard it is explicitly noted that deviations which are intended to limit liability and shift the financial risk in favour of the tenderer will be of particular importance in the evaluation. If the tenderer has no deviations to the contract terms, the maximum score of 10 will be awarded. An overall evaluation for each lot will be made of this sub-criterion.

Organizzazzjoni tar-rieżami: Danish Complaints Board for Public Procurement
Informazzjoni dwar l-iskadenzi tar-rieżami: According to the Danish Complaints Board for Public Procurement Act etc. (the Act can be downloaded at www.retsinformation.dk), the following deadlines for filing a complaint apply: Complaints about not having been selected must be submitted to the Danish Complaints Board for Public Procurement within 20 calendar days, cf. Section 7(1) of the Act, from the day after sending a notification to the candidates concerned about who has been selected, when the notification is accompanied by a statement of reasons for the decision in accordance with Section 2(1)(1) of the Act and Section 171(2) of the Public Procurement Act. In other situations, complaints about tenders, cf. Section 7(2) of the Act, must be submitted to the Complaints Board for Public Procurement within: 1) 45 calendar days after the contracting entity has published a notice in the Official Journal of the European Union that it has entered into a contract. The deadline is calculated from the day after the date on which the announcement has been published. 2) 20 calendar days from the day after the contracting entity has announced its decision, cf. Section 185(2) of the Public Procurement Act. No later than the same time that a complaint is submitted to the Complaints Board for Public Procurement, the complainant must inform the contracting entity in writing that a complaint is submitted to the Complaints Board for Public Procurement and whether the complaint has been submitted during the standstill period, cf. Section 6(4) of the Act. In cases where the complaint has not been submitted during the standstill period, the complainant must also state whether the complaint is to be given suspensive effect, cf. Section 12(1) of the Act. The Complaints Board for Public Procurement's e-mail address is stated in Section VI.4.1). The Complaints Board for Public Procurement's complaint guide can be found at: www.erhvervsstyrelsen.dk.

5.1.6. Informazzjoni ġenerali

Parteċipazzjoni riżervata:
Il-parteċipazzjoni mhijiex riżervata.
Iridu jingħataw l-ismijiet u l-kwalifiki professjonali tal-istaff assenjat biex iwettaq il-kuntratt: Ma hemmx għalfejn tingħata
Proġett ta' akkwist mhux iffinanzjat mill-Fondi tal-UE
L-akkwist huwa kopert mill-Ftehim dwar l-Akkwisti Pubbliċi (GPA): iva

5.1.9. Kriterji tal-għażla

Sors tal-kriterji ta' għażla: Avviż
Kriterju: Rapport finanzjarju
Deskrizzjoni tal-kriterju ta' selezzjoni: The applicant must confirm the economic ability in the ESPD part IV.B with information from the latest annual report regarding the following economic indicators: 1. Equity (total equity incl. share capital, reserves, revaluation, retained earning etc.) 2. Equity ratio (equity/total assets). This must be stated with two decimals. If the applicant relies on the capacities of other entities or the applicant is a group of economic operators the information for the ESPD part IV.B must also be given in a separate ESPD from each of these entities. It is the sole responsibility of the applicant to secure that the minimum requirements are reached based on consolidation when the applicant is relying on the capacity of other entities or when the applicant is a group of economic operators. Minimum requirement: LOT 2:
• Equity from the latest annual report must, at the time limit for receipt of tenders, be at least

20 mill. DKK/2,681 mill. EUR • Equity ratio from the latest annual report must, at the time of prequalification, be at least 20 pct. If the equity ratio is between 15 pct. and 20 pct. the tenderer can qualify if Equity exceeds 61,25 mill. DKK/8,210 mill. EUR
Il-kriterji se jintużaw biex jintgħażlu l-kandidati li għandhom jiġu mistiedna għat-tieni stadju tal-proċedura

Kriterju: Referenzi fuq xogħlijiet speċifiċi
Deskrizzjoni tal-kriterju ta' selezzjoni: The suitability of applicants fulfilling the minimum requirements to economic and financial standing will be assessed based on technical and professional ability. The ability will be assessed based on references which can be filled in ESPD part IV.C. The applicant is allowed to submit up to 3 most comparable and relevant references undertaken in the past 5 years as part of the application. By “com-parable” it is understood more than 800 m length of horizontal directional drilling involving 100 tons (Thrust /pull-back tension: 1000 kN) or bigger. By "undertaken in the past 5 years” implies that the reference must not have been completed prior to the date reached when counting 5 years backwards from the submission date for prequalification. Ref-erences older than this will not be taken into consideration. References which have not yet been fully completed can be included as part of the application, however the applicant must describe the parts which have not yet been delivered, and this may affect the evaluation of the application, cf. section 2.3. The references should describe horizontal directional drilling activities, and include: A specific description of deliveries, including: • Type and scope of HDD works o Length and diameter of pipe installed via HDD o Description of installed pipe/cable and/or casing solution o Size of drilling rig(s) involved • Hydro#geological and environmental conditions o Description of ground conditions encountered (e.g. clay, sand, mo-raine, rock, mixed soils) o Sensitivity of the surrounding environment (e.g. Natura 2000, pro-tected areas, environmental restrictions) • Quality, HSE and documentation o Applied quality assurance and control measures o Compliance with HSE requirements during drilling under marine waters o As#built documentation, drilling logs and completion reports • Contractual role and performance o Contractor’s role (main contractor / subcontractor) o Time schedule compliance and handling of unforeseen ground conditions o Reference contact details and year of completion • Contact information o Specification of buying organization, contact person and the asso-ciated contact information Contract value (if possible) Date of initiation and final delivery (day, month, year) Any ambiguities and/or incomprehensibilities may have a negative effect on the selection of applicants. Please note the “description” box in ESPD part IV.C. can contain more text than is visible and it is possible to copy paste text into the box. If the applicant is relying on the capacity of other entities or the applicant is a group of eco-nomic operators the maximum number of references to be submitted must still be respected and cannot exceed 3 when combined. If more are submitted, the Contracting Authority will only consider the most recent references determined by date of final delivery, in this case not yet finished references will not be included. If the applicant relies on other entities capacity or is part of a group of economic operators the information concerning ESPD part IV.C must be submitted in separate ESPD’s for each entity. Minimum requirement: • At least two references for horizontal directional drilling of a length of more than 800 meters installing Ø500 PE pipes or larger within the last 5 years. • Listing of drilling rigs of 100 tons (Thrust/pull-back tension: 1000 kN) and above that are relevant for the installation under tender • Proven record for work in nature preservation areas like Natura 2000, protected are-as, environmentally restricted areas or similar. • Proven experience from previous projects with the use of Bentonite products, addi-tives and other drilling fluid products for HDD equivalent to the products listed in Ap-pendix 2E-1 and Appendix 2E-2.

Il-kriterji se jintużaw biex jintgħażlu l-kandidati li għandhom jiġu mistiedna għat-tieni stadju tal-proċedura

Informazzjoni dwar it-tieni stadju ta' proċedura b'żewġ stadji:

Numru minimu ta' kandidati li għandhom jiġu mistiedna għat-tieni stadju tal-proċedura: 1

Numru massimu ta' kandidati li għandhom jiġu mistiedna għat-tieni stadju tal-proċedura: 5

Il-proċedura se ssir fi stadji suċċessivi. F'kull stadju, xi parteċipanti jistgħu jiġu eliminati

5.1.10. Kriterji tal-għoti

Kriterju:

Tip: Prezz

Deskrizzjoni: Price Prices must be stated in the attached Schedule of Prices and the defined price elements must be completed herein. Prices must be stated exclusive of VAT but inclu-sive of all other expenses associated with the purchase. Prices must be stated in EUR. When evaluating 'Price', the Contracting Authority will eval-uate the total cost - Total Tender Price, cf. Schedule of Prices.

Kategorija tal-kriterju tal-għoti piż: Fattur ta' ponderazzjoni (persentaġġ, eżatt)

Numru tal-kriterju għall-għoti: 50

Kriterju:

Tip: Kwalità

Deskrizzjoni: Technical solution The evaluation will be based on the submitted technical description, including method statements specifications and descriptions which demonstrate the technical level for executing the works specified in the tender docu-ments. The work shall be based on a tender engineering ap-proach ensuring that that the proposed drilling setup is robust even if the soil characteristics differ from the expected. The tenderer must include Method Statements and engineering reports from the Pre-FEED covering all phas-es of the Works. Reference is made to Technical Requirements (doc. no. 23/03722-1) The evaluation will be based on the degree of detail and the technical level of specifications and the level of content in the Method Statement(s). It will be evaluated positive if the tenderer submits detailed descriptions that in content and clarity demonstrate fulfil-ment of all technical requirements stated in the tender documents. Further, it will be evaluated positive that the approach and chosen solutions underline the tenderer's ability and use of competences to execute the works, es-pecially concerning: • Assessment of technical and environmental risks and proposed mitigations • Quality plan • Method statements • Engineering document proving that the proposed drilling setup is robust even if the soil characteris-tics differ from the expected • Contingency plans for handling blow-outs • Specification of specialized equipment and drilling rigs and drilling bits, including considerations con-cerning redundancy of key equipment • Specification of materials to be used • Specification of PE pipe configuration • Specification of the PE pipes proposed. • Specification of drilling mud • Specification of seals • State the anticipated amount of water for per-forming the drilling • Preliminary drawings of drilling profile • Specifications of working areas Specification of onshore spread

Kategorija tal-kriterju tal-għoti piż: Fattur ta' ponderazzjoni (persentaġġ, eżatt)

Numru tal-kriterju għall-għoti: 20

Kriterju:

Tip: Kwalità

Deskrizzjoni: Organization As the Works is of immense importance for the Client , the tenderer must enclose CVs of the key personnel who will be allocated to the Works. The following are considered as key personnel: • Project manager • Site staff foreman • HSE responsible • H&S Coordinator (AMK-B) • Quality Manager The tenderer is encouraged to highlight only the expertise and experience for each key personnel relevant for the position in the respective CVs (e.g. educational back-ground, experience within that position, experience with similar

assignments etc.). Further, the tenderer should submit an Organization Plan. The Organization Plan should include a detailed description of the project specific organizational structure down to site staff foreman level which will be allocated to the Works during all phases of the Works. The Organization Plan description should describe: • The overall structure, including hierarchy and procedures for escalation. • Lines of communication, internally and external-ly • Interfaces towards the Contracting Authority. • How the tenderer will secure coverage of all po-sitions at all time The Organization Plan must be described in detail as well as visualized in a project specific organization chart. The evaluation of key personnel will be based on the degree to which the experience and professional qualifications of the individual key personnel is up to date, relevant in respect of the performance and position of the specific assignment. As such a relevant educational background combined with relevant roles in recent projects of similar char-acteristics will be evaluated positively. Further, the evaluation will focus on to which degree the individual key personnel will be involved in the fulfilment of the assignment and how the key personnel complement each other. The evaluation of the Organization Plan will be based on the degree of detail and • On whether the proposed plan is project specific, operational, efficient, robust and with clear lines of communication. • On whether the organization is well-structured with coverage for all interfaces taking into consideration the complexity of the Works • On the coverage of all positions and possibility to scall in manpower during execution in order to fulfil the project time schedule An overall evaluation will be made of this sub-criterion
Kategorija tal-kriterju tal-għoti piż: Fattur ta' ponderazzjoni (persentaġġ, eżatt)
Numru tal-kriterju għall-għoti: 10

Kriterju:

Tip: Kwalità
Deskrizzjoni: Time Schedule for the Works The tenderer should include the Project Time Schedule in the tender. The Project Time Schedule must be project specific and include all activities executed by the tenderer concerning the Works. The tenderer should as part of the sub-criteria include a detailed and robust time schedule for each lot which outlines how the works will be structured through FEED and Detailed Engineering, construction and pipe installation phases, and delivery of as-built documentation. Delays associated with inspections and verifications shall be made clear, if known. The time schedule should contain relevant project milestones including the milestones outlined in the tender documents. Reference is made to the Time Schedule for the relevant LOT (LOT 1: 23/03722-34 or LOT 2: 23/03722-35). The time schedule should be included both in the form of a chart (GANTT-diagram) with clarifications as needed, in a supporting and elaborate description. The evaluation of the Time Schedule will be based on the level of detail and robustness/timeliness for all phases of the Works. The evaluation of the detailed Project Time Schedule prepared by the tenderer and included in the tender will be based on the degree of detail and division into sub-tasks to prove for the Employer, that the Contractor has the capacity to do the Works in accordance within the time frame specified in the Clients Time Schedule(s). The Contracting Authority will evaluate the degree to which the tender demonstrates a well-planned, realistic and robust time schedule, which allows sufficient time for potential schedule contingencies, but still provides evidence of a high level of security for delivery within the timeframe as set out in the Tender Documents. In this context it will be evaluated positive that: - the description and schedule reflect a realistic, but front-loaded schedule for the critical activities - hazardous activities are not performed concurrently in the same location - the division into sub-sections ensures that the tenderer has the capacity to perform in accordance with the overall project time schedule. the description and schedule reflect the tenderer's ability to catch-up on delays and shows activities to activate

10. Bidla

Verżjoni tal-avviż preċedenti li għandu jinbidel: 335420-2026
Raġuni ewlenija għall-bidla: Korrezzjoni tax-xerrej
Deskrizzjoni: Energinet has decided to extend the period of validity for references from 5 to 10 years. The change has been made to ensure a sufficiently broad and competitive pool of applicants, without compromising the requirements regarding the applicants' relevant experience. The validity of references has been changed in the tender conditions as well as in the ESPD. The extension of the period of validity for references from 5 to 10 years applies for both LOTS (LOT 1 and LOT 2) Furthermore, Energinet has decided to accept references concerning the installation of steel pipes as equivalent to references concerning horizontal directional drilling involving the installation of PE pipes. Section 2.2.2 concerning the minimum requirements has been amended accordingly. Due to the above changes regarding the validity of references, deadline for submission of prequalification has been extended. The new date for submission of prequalification is 10 July 2026, at 12:00 (noon)Danish local time.

Informazzjoni dwar l-avviż

Identifikatur/verżjoni tal-avviż: 16e54f80-aedc-4ec2-9421-bf3e8928ba28 - 01
