Attività tal-awtorità kontraenti: Servizzi publiċi ġenerali

Attività tal-entità kontraenti: Attivitàjiet relatati mal-ilma

2. Proċedura

2.1. Proċedura

Titlu: 1000864 General Contract For Gravsbecken Stage 2

Deskrizzjoni: The project Gravsbecken stage 2 includes upgrading and separation of the pipeline network in the upper part of the catchment area of Gravsbecken in Bærum municipality. In the current situation, wastewater and surface water are transported in a joint pipeline in the previous bekkleie, which mostly functions as a property border between private properties. The background for the project is the need to separate the pipeline network in order to reduce the supply of foreign water to the municipal sewage system and onwards to VEAS. The measure shall also contribute to reducing the risk of basement flooding as a result of capacity challenges in the downstream pipeline network. The contract work includes the establishment of a separate system for wastewater and surface water in the upper part of the catchment area for Gravsbecken, upstream of the contract border to Gravsbecken stage 1. including the establishment of a joint ditch for several types of pipelines, where appropriate Connection to the existing pipeline network and the necessary adaptations to the completed installations in Gravsbecken stage 1 Re-establishment of affected areas, including private garden areas. W-drawings showing an overview of the site belt for the entire project are attached as part of annex V02. Detailed W-drawings for each property will be submitted after the contract has been signed. Site inspection: Nadderudveien 25B Date and date: 29.06.2026, 12.00 Registration by 26.06.2026, with the number of participants.

Elementi prinċipali tal-proċedura: The project Gravsbecken stage 2 includes upgrading and separation of the pipeline network in the upper part of the catchment area of Gravsbecken in Bærum municipality. In the current situation, wastewater and surface water are transported in a joint pipeline in the previous bekkleie, which mostly functions as a property border between private properties. The background for the project is the need to separate the pipeline network in order to reduce the supply of foreign water to the municipal sewage system and onwards to VEAS. The measure shall also contribute to reducing the risk of basement flooding as a result

of capacity challenges in the downstream pipeline network. The works mainly include: The establishment of new separate pipelines for wastewater and surface water Replacement of municipal water pipelines where these are located in the same route or appropriate, can be coordinated in a joint ditch Replacement of the existing water pipelines for trenches, including the establishment of a joint ditch for several types of pipelines, where this is expedient Connection to the existing pipeline network and the necessary adaptations to the completed installations in Gravsbecken stage 1 Reestablishment of affected areas, including private garden areas. W-drawings showing an overview of the site belt for the entire project are attached as part of annex V02. Detailed W-drawings for each property will be submitted after the contract has been signed. Site inspection: Nadderudveien 25B Date and date: 29.06.2026, 12.00 Registration by 26.06.2026, with the number of participants.

Dan l-akkwist huwa adattat ukoll għall-intrapriżi żgħira u ta' daqs medju (SMEs): iva

5.1.9. Kriterji tal-għażla

Sors tal-kriterji ta' għażla: Avviż, Dokument tal-Akkwist

Kriterju: Reġistrazzjoni f'reġistru tal-kummerċ

Deskrizzjoni tal-kriterju ta' selezzjoni: The tenderer is registered in a company register or a trade register in the member state in which the tenderer is established. As described in annex XI of directive 2014/24/EU; suppliers from certain member states may have to fulfil other requirements in the mentioned annex. Minimum qualification requirements 4.2 The tenderer's registration, authorisations, etc. Requirement: Tenderers shall be registered in a company register, professional register or a commerce register in the country where the tenderer is established. Documentation requirement: • Norwegian companies: Company Registration Certificate. • Foreign companies: Verification that the tenderer is registered in a company register, professional register or a commerce register in the country where the tenderer is established.

Kriterju: Rekwiziti ekonomiċi jew finanzjarji oħra

Deskrizzjoni tal-kriterju ta' selezzjoni: Regarding any other economic and financial requirements that have been stated in the notice or in the procurement documents, the tenderer declares that: Minimum qualification requirements 4.3.2 The tenderer's economic and financial capacity Requirement: Tenderers shall have sufficient economic and financial capacity to fulfil the contract. • A credit rating not older than 3 months, based on the last known fiscal figures. The contracting authority reserves the right to obtain a credit assessment of the tenderers. • Companies without a satisfactory credit rating, newly established companies with a credit rating of AN, some foreign companies or companies without reporting obligation to the Brønnøysund Register Centre will not always be able to document that the requirement is

fulfilled. In such cases, they will be able to compensate with a satisfactory credit rating which provides an equivalent security for implementation ability. Such alternative documentation shall be included with the tender. Documentation requirement:

Kriterju: Referenzi fuq xogħlijiet speċifiċi

Deskrizzjoni tal-kriterju ta' selezzjoni: Only for public building and construction works: During the reference period the tenderer has carried out the following work of the requested type. The contracting authority can require up to five years experience and allow experience from the previous five years to be taken into consideration. Minimum qualification requirements 4.4.1 The tenderer's technical and professional qualifications Requirement: Tenderers shall have experience from previously executed assignments of an equivalent nature and complexity. By an equivalent nature and complexity, we mean site projects that each or together include: A water and sewage construction project that includes excavation, sheet piling and blocking out. Documentation requirement: Tenderers shall state 3 reference projects carried out in the last 5 years. As a minimum the reference projects shall be described with the following information: • Time period • The assignment's value • Contract type • Description of the assignment including a description/account of relevance. • Any use of sub- • Contact person with contact information. The description of the reference projects shall be in the attached template (Part 1 Annex 4). It is the tenderer's responsibility to document relevance through the reference projects. The contracting authority reserves the right to contact the stated gender neutral preferred in order to verify the provided information.

Kriterju: Kwalifiki edukattivi u professjonali rilevanti

Deskrizzjoni tal-kriterju ta' selezzjoni: The following education and professional qualifications are possessed by the tenderer and/or (depending on the requirements set in the notice or in the procurement documents) of the leading employees: Minimum qualification requirements 4.4.2 The tenderer's technical and professional qualifications. Requirement: 4.4.2 Tenderers shall have organisational capacity/experience to fulfil the contract. - The project manager and site manager must have minimum 5 years relevant experience in the relevant role. - Relevant formal competence. - All key persons shall understand written and oral Norwegian. The three documented key roles shall be primary resources throughout the construction phase and cannot be replaced without particular documentation in the Contract documentation. Documentation requirement: for the tenderer's project organisation for solving the assignments, with CVs for the following key persons: • Project Manager • Site manager • Foreman/Bas There must, as a minimum, be names, age, formal education, experience competence/reference projects (the number of years shall be documented), including information of roles in the projects, courses, relevant and valid certificates and language capabilities. Each CV shall not be longer than two A4 pages. Only the first two pages will be considered for exceeding the page limit.

Kriterju: Ċertifikati minn entitajiet indipendenti dwar standards ta' assigurazzjoni tal-kwalità

Deskrizzjoni tal-kriterju ta' selezzjoni: Can tenderers submit certificates issued by independent bodies that document that the tenderer fulfils the stated quality assurance standards, including universal design requirements? Minimum qualification requirements 4.4.3 Tenderers shall have a system for quality assurance. Requirement: The tenderer shall have a quality assurance system that ensures that the delivery fulfils the requirements for quality, traceability, handling deviations and continuous improvement. Documentation requirement: • A description of the tenderer's quality assurance system, as well as how this is established and implemented in the company. • Alternative certification from an independent body that shows that the tenderer fulfils relevant quality assurance standards (for example ISO 9001).

Kriterju: Ċertifikati minn entitajiet indipendenti dwar sistemi jew standards ta' ġestjoni tal-ambjent

Deskrizzjoni tal-kriterju ta' selezzjoni: Is the tenderer able to submit certificates issued by independent bodies as documentation that the tenderer fulfils the stated environmental management systems or standards? Minimum qualification requirements 4.4.4 Tenderers shall have a system for environmental management. Requirement: Tenderers shall have an environmental management system that safeguards environmental considerations during the contract period. Documentation requirement: • A description of the tenderer's environmental management system, as well as how this is established and implemented in the business. • Alternative certification from an independent body that shows that the tenderer fulfils relevant standards (e.g. Eco-Lighthouse, ISO 14001, EMAS).
